THE EMERGENCY MEDICAL RESPONDER

1 You Are the Emergency Medical Responder

A terrified mother grabs her child from the bottom of a pool while a neighbor calls 911 for help. You are the first to arrive and see the neighbor trying to breathe air into the boy's face. What do you do? The mother looks to you helplessly. What would you recommend?

Precautions

• **Standard Precautions:** Treat all patients as if they have infectious body substances, open or low-integrity skin, or fluids or tissues that are potentially contaminated with blood or body fluids. Apply hand washing after glove removal and after each contact.

• **Respiratory Protection:** Use a NIOSH-approved respirator when performing procedures that generate aerosols or when there is a higher potential for exposure to airborne particles, vapors, or gases. Use a fit test to ensure proper fit and use a filter or cartridge that is appropriate for the hazard. Use of a respirator without a fit test is not recommended.

• **Personal Protective Equipment (PPE):** Use appropriate PPE to protect yourself from exposure to blood, body fluids, and other potentially infectious materials.
