Emerging Regional Human Rights Systems In Asia:

Emerging Regional Human Rights Systems in Asia Tae-Ung Baik, 2012-11-01 Asia is the only area in the world that does not have a human rights court or commission covering the region as a whole. However, a close look at recent developments in the region, especially in East Asia, shows that a human rights system is emerging. Various activities and initiatives for human rights cooperation are developing in Asia at the regional, sub-regional, and national levels. Since the establishment of the ASEAN human rights body AICHR in 2009, the need for a review of the regional human rights mechanisms in Asia is stronger than ever. With a primary focus on twenty-three East Asian states, Tae Ung Baik highlights the significant changes that have taken place in recent decades and demonstrates that the constituent elements of a human rights system—norms, institutions, and modes of implementation—are developing in Asia.

Emerging Regional Human Rights Systems in Asia Associate Professor of Law Tae-Ung Baik, 2014-05-14 Analyses the emerging human rights norms, regional institutions, and enforcement mechanisms in Asia.

Asian Data Privacy Laws Graham Greenleaf, 2014-10-16 The first work to examine data privacy laws across Asia, covering all 26 countries and separate jurisdictions, and with in-depth analysis of the 14 which have specialised data privacy laws. The book also contains a web link to an update to mid 2017.

Historical Dictionary of Human Rights Jacques Fomerand, 2021-03-29 The second edition of *Historical Dictionary of Human Rights* explores both the theory and the practice of international human rights, with a focus on the norms and institutions that make up the architecture of the global human rights regime and the tools, processes, and procedures through which such norms are realized and enforced. Particular attention is given to the contextual, political, and sociological factors that shape and constrain the operation and functioning of international human rights institutions and their state and non-state actors. This is done through a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 1,000 cross-referenced entries on terminology, conventions, treaties, intergovernmental organizations in the United Nations, and non-governmental organizations, as well as some of the pioneers and defenders. This book is an excellent resource for students, researchers, and anyone wanting to know more about human rights.

The Oxford Handbook of International Law in Asia and the Pacific Simon Chesterman, Hisashi Owada, Ben Saul, 2019-09-12 The growing economic and political significance of Asia has exposed a tension in the modern international order Despite expanding power and influence Asian states have played a minimal role in creating the norms and institutions of international law today they are the least likely to be parties to international agreements or to be represented in international organizations That is changing There is widespread scholarly and practitioner interest in international law at present in the Asia Pacific region as well as developments in the practice of states The change has been driven by threats as well as opportunities Transnational issues such as climate change and occasional flashpoints like the territorial disputes of the South China and the East China Seas pose challenges while economic integration and the proliferation of specialized branches of law and dispute settlement mechanisms have also encouraged greater domestic implementation of international norms across Asia These evolutions join the long standing interest in parts of Asia notably South Asia in post colonial theory and the history of international law The Oxford Handbook of International Law in Asia and the Pacific brings together pre eminent and emerging specialists to analyse the approach to and influence of key states of the region as well as whether truly Asian trends can be identified and what this might mean for international order

National Human Rights Institutions in Southeast Asia James Gomez, Robin Ramcharan, 2020-01-03 This book reviews Southeast Asia s National Human Rights Institutions NHRIs as part of an emerging assessment of a nascent regional human rights architecture that is facing significant challenges in protecting human rights The book asks can NHRIs overcome its weaknesses and provide protection including remedies to victims of human rights

abuses Assessing NHRIs capacity to do so is vital as the future of human rights protection lies at the national level and other parts of the architecture the ASEAN Intergovernmental Commission on Human Rights AICHR and the international mechanism of the Universal Periodic Review UPR though helpful also have their limitations The critical question the book addresses is whether NHRIs individually or collaboratively provide protection of fundamental human rights The body of work offered in this book showcases the progress of the NHRIs in Southeast Asia where they also act as a barometer for the fluid political climate of their respective countries Specifically the book examines the NHRIs capacity to provide protection notably through the pursuit of quasi judicial functions and concludes that this function has either been eroded due to political developments post establishment or has not been included in the first place The book s findings point to the need for NHRIs to increase their effectiveness in the protection of human rights and invites readers and stakeholders to find ways of addressing this gap

Rainbow Jurisdiction at the International Criminal Court Valérie V. Suhr, 2021-12-13 This timely book comprehensively examines whether the worst human rights violations directed specifically at sexual and gender minorities are punishable under international criminal law as codified in the Rome Statute of the International Criminal Court Drawing on general rules of interpretation the development of human rights for sexual and gender minorities and the social construction of gender this monograph reveals that the worst crimes committed against persons because of their sexual orientation or gender identity can amount to crimes against humanity particularly the crime of persecution under Article 7 1 h It also shows how legislators can be held individually criminally responsible for passing laws that criminalize consensual same sex sexuality The book not only makes a significant and original contribution to the literature but is also highly relevant for international criminal law practitioners since so far no cases regarding this topic exist Dr Val rie V Suhr is currently a trainee lawyer in the district of the Koblenz Court of Appeal in Germany

Human Rights and Participatory Politics in Southeast Asia Catherine Renshaw, 2019-02-18 In Human Rights and Participatory Politics in Southeast Asia Catherine Renshaw recounts an extraordinary period of human rights institution building in Southeast Asia She begins her account in 2007 when the ten members of the Association of Southeast Asian Nations ASEAN signed the ASEAN charter committing members for the first time to principles of human rights democracy and the rule of law In 2009 the ASEAN Intergovernmental Commission on Human Rights was established with a mandate to uphold internationally recognized human rights standards In 2013 the ASEAN Human Rights Declaration was adopted as a framework for human rights cooperation in the region and a mechanism for ASEAN community building Renshaw explains why these developments emerged when they did and assesses the impact of these institutions in the first decade of their existence In her examination of ASEAN Renshaw asks how human rights can be implemented in and between states that are politically diverse Vietnam and Laos are Communist Brunei Darussalam is an Islamic sultanate Myanmar is in transition from a military dictatorship the Philippines and Indonesia are established multiparty democracies while the remaining members are less easily defined

Renshaw cautions that ASEAN is limited in its ability to shape the practices of its members because it lacks a preponderance of democratic states. However, she concludes that in the absence of a global legalized human rights order, the most significant practical advancements in the promotion of human rights have emerged from regional institutions such as the ASEAN.

Human Rights and Conflict Resolution Claudia Fuentes Julio, Paula Drumond, 2017-11-22. Human rights and conflict resolution have been traditionally perceived as two separate fields, sometimes in competition or in tension and occasionally with contradictory approaches towards achieving a lasting peace. Although human rights norms have been incorporated and institutionalized by various national, regional, and international organizations that deal with conflict resolution, negotiators and mediators are often pressured in practice to overlook international human rights principles in favor of compliance and more immediate outcomes. The chapters in this volume navigate the relationship between human rights and conflict resolution by fleshing out practical, conceptual, and institutional encounters of the two agendas and engaging with lessons learned and windows of opportunities for mutual learning. Recognizing the increasing relevance of this debate and important gaps in the current research on the topic, this book addresses the following questions: How can we improve our practical and theoretical understanding of the complementarity between human rights and conflict resolution? How would a human rights-based approach to conflict resolution look like? How are international, regional, and national organizations promoting implementing and/or adapting to better coordinate between human rights and conflict resolution? Building on empirical evidence from contemporary conflict resolution processes, how have human rights been integrated in different efforts on the ground? What are the main lessons learned in this regard? Examining a wide range of countries and issues, this work is essential reading for human rights, conflict resolution, and security experts, including scholars, diplomats, policy makers, civil society representatives, and students of international politics.

A Selective Approach to Establishing a Human Rights Mechanism in Southeast Asia Hao Duy Phan, 2012-02-03 This book proposes a selective approach for states with more advanced human rights protection to establish a human rights court for Southeast Asia It argues the inclusive approach currently employed by ASEAN to set up a human rights body covering all member states cannot produce a strong regional human rights mechanism The mosaic of Southeast Asia reveals great diversity and high complexity in political regimes human rights practice and participation by regional states in the global legal human rights framework Cooperation among ASEAN members to protect and promote human rights remains limited The time honored principle of non interference and the ASEAN Way still predominate in relations within ASEAN These factors combine to explain why the ASEAN Intergovernmental Commission on Human Rights is unlikely to be strong and effective in changing and promoting regional human rights protection
