

Empire And The Ends Of Politics

**Richard Ned Lebow, Thomas Risse-
Kappen**

Empire And The Ends Of Politics:

The Ends of European Colonial Empires Miguel Bandeira Jerónimo, António Costa Pinto, 2016-02-16 This volume provides a multidimensional assessment of the diverse ends of the European colonial empires addressing different geographies taking into account diverse chronologies of decolonization and evaluating the specificities of each imperial configuration under appreciation Portuguese Belgian French British Dutch Empire's Violent End Thijs Brocades Zaalberg, Bart Luttikhuis, 2022-07-15 In *Empire's Violent End* Thijs Brocades Zaalberg and Bart Luttikhuis along with expert contributors present comparative research focused specifically on excessive violence in Indonesia Algeria Vietnam Malaysia Kenya and other areas during the wars of decolonization In the last two decades there have been heated public and scholarly debates in France the United Kingdom and the Netherlands on the violent end of empire Nevertheless the broader comparative investigations into colonial counterinsurgency tend to leave atrocities such as torture execution and rape in the margins The editors describe how such comparisons mostly focus on the differences by engaging in guilt ranking Moreover the dramas that have unfolded in Algeria and Kenya tend to overshadow similar violent events in Indonesia the very first nation to declare independence directly after World War II *Empire's Violent End* is the first book to place the Dutch Indonesian case at the heart of a comparison with focused thematic analysis on a diverse range of topics to demonstrate that despite variation in scale combat intensity and international dynamics there were more similarities than differences in the ways colonial powers used extreme forms of violence By delving into the causes and nature of the abuse Brocades Zaalberg and Luttikhuis conclude that all cases involved some form of institutionalized impunity which enabled the type of situation in which the forces in the service of the colonial rulers were able to use extreme violence *The Oxford Handbook of the Ends of Empire* Martin Thomas, Andrew Stuart Thompson, 2018 The Oxford Handbook of the Ends of Empire offers the most comprehensive treatment of the causes course and consequences of the collapse of empires in the twentieth century The volume's contributors convey the global reach of decolonization analysing the ways in which European Asian and African empires disintegrated over the past century The End of Empire? Karen Dawisha, Bruce Parrott, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an Informa company **Rethinking the End of Empire** Lynn M. Tesser, 2024-05-21 The return of great power politics at a time of surging nationalism invites a fresh look at why the world order centers on the nation state Why did a nation state order emerge when nationalist activism was usually an elitist pursuit in the age of empire Ordinary inhabitants and even most indigenous elites tended to possess religious ethnic or status based identities rather than national identities Why then did the desires of a typically small number result in wave after wave of new states The answer has customarily centered on the actions of nationalists against weakening empires during a time of proliferating beliefs that peoples should control their own destiny This book upends conventional wisdom by demonstrating that nationalism often existed more in the perceptions of external observers than of local activists and insurgents Lynn M

Tesser adds nuance to scholarship that assumes most if not all pre independence unrest was nationalist and separatist and sheds light on why the various demands for change eventually coalesced around independence in some cases but not others

Empire's End David Dunwoody, 2011-04-08 The dead refuse to stay dead The Reaper is here to put them down As winter sets in and America's survivors struggle to rebuild a semblance of civilization terrifying new enemies are gathering both in the lawless badlands and within the walls of the safe zone Most fearsome of all is the King of the Dead His zombified troupe of sideshow curiosities is but a fraction of his growing pack The Reaper's quest to safeguard the humans he has befriended places him on the trail of these feral undead But he is sorely unprepared for the return of the zombie transformed by his own flesh the Omega a fiend driven by something more sinister than any virus Meanwhile Death's questions about his origin haunt him and he is close to the answers but the worst of both the living and the dead are rising in his path and he'll have to cut them all down to reach the cosmic endgame

Empire's End Akiko Tsuchiya, William G Acree, 2016-03-29 The fall of the Spanish Empire that period in the nineteenth century when it lost its colonies in Spanish America and the Philippines How did it happen What did the process of the end of empire look like *Empire's End* considers the nation's imperial legacy beyond this period all the way up to the present moment In addition to scrutinizing the political economic and social implications of this end these chapters emphasize the cultural impact of this process through an analysis of a wide range of representations literature literary histories periodical publications scientific texts national symbols museums architectural monuments and tourist routes that formed the basis of transnational connections and exchange The book breaks new ground by addressing the ramifications of Spain's imperial project in relation to its former colonies not only in Spanish America but also in North Africa and the Philippines thus generating new insights into the circuits of cultural exchange that link these four geographical areas that are rarely considered together *Empire's End* showcases the work of scholars of literature cultural studies and history centering on four interrelated issues crucial to understanding the end of the Spanish empire the mappings of the Hispanic Atlantic race human rights and the legacies of empire

Politics and Fate Andrew Gamble, 2013-07-10 Politics was once regarded as an activity which could give human societies control over their fate However there is now a deep pessimism about the ability of human beings to control anything very much least of all through politics This new fatalism about the human condition claims that we are living in the iron cages erected by vast impersonal forces arising from globalization and technology a society that is both anti political and unpolitical a society without hope or the means either to imagine or promote an alternative future It reflects the disillusion of political hopes in liberal and socialist utopias in the twentieth century and a widespread disenchantment with the grand narratives of the Enlightenment about reason and progress and with modernity itself The most characteristic expression of this disenchantment is the endless discourses on endism the end of history the end of ideology the end of the nation state the end of authority the end of government the end of the public realm the end of politics itself all have been proclaimed in recent years Andrew Gamble's

new book argues against the fatalism implicit in so many of these discourses as well as against the fatalism that has always been present in many of the central discourses of modernity It sets out a defence of politics and the political explains why we cannot do without politics and probes the complex relationship between politics and fate and the continuing and necessary tension between them This book will be essential reading for students and scholars of politics public affairs and political thought **Lord Hailey, the Colonial Office and Politics of Race and Empire in the Second World War S.**

Wolton,2000-06-21 The book studies the Anglo American debate in which British officials led by Lord Hailey countered American criticisms of imperial rule by emphasizing economic development and peace keeping as new non racial justifications for western authority These are themes that have retained a powerful resonance in the post war world **The Scottish Nation at Empire's End** B. Glass,2014-06-02 The rise and fall of the British Empire profoundly shaped the history of modern Scotland and the identity of its people From the Act of Union in 1707 to the dramatic fall of the British Empire following the Second World War Scotland s involvement in commerce missionary activity cultural dissemination emigration and political action could not be dissociated from British overseas endeavours In fact Scottish national pride and identity were closely associated with the benefits bestowed on this small nation through its access to the British Empire By examining the opinions of Scots towards the empire from numerous professional and personal backgrounds Scotland emerges as a nation inextricably linked to the British Empire Whether Scots categorized themselves as proponents opponents or victims of empire one conclusion is clear they maintained an abiding interest in the empire even as it rapidly disintegrated during the twenty year period following the Second World War In turn the end of the British Empire coincided with the rise of Scottish nationalism and calls for Scotland to extricate itself from the Union Decolonization had a major impact on Scottish political consciousness in the years that followed 1965 and the implications for the sustainability of the British state are still unfolding today **Exodus From Empire** Terrence E. Paupp,2006-11-20 This book lays out a comprehensive vision for a new world order based on cooperation between the developing world and leading Left countries in Latin America Arguing that the ravages of corporate capitalism are unsustainable Terrence E Paupp presents an energetic critique of the problems of empire and looks ahead to a global countermovement against the IMF and US hegemony **The Historicity of International Politics** Klaus Schlichte,Stephan Stetter,2023-07-13 This book shows how historical trajectories have shaped international politics covering a wide range of imperial and post colonial settings For scholars and advanced students of IR historical sociology and global politics especially those working on the history of international politics and the legacies of colonialism and imperialism **The Politics of Aristocratic Empires** John H. Kautsky,2017-09-29 The Politics of Aristocratic Empires is a study of a political order that prevailed throughout much of the world for many centuries without any major social conflict or change and with hardly any government in the modern sense Although previously ignored by political science powerful remnants of this old order still persist in modern politics The historical literature on aristocratic empires typically is

descriptive and treats each empire as unique By contrast this work adopts an analytical explanatory and comparative approach and clearly distinguishes aristocratic empires from both primitive and more modern commercialized societies It develops generalizations that are supported and richly illustrated by data from many empires and demonstrates that a pattern of politics prevailed across time space and cultures from ancient Egypt five millennia ago to Saudi Arabia five decades ago from China and Japan to Europe from the Incas and the Aztecs to the Tutsi Kautsky argues that aristocrats because they live off the labor of peasants must perform the primary governmental functions of taxation and warfare Their performance is linked to particular values and beliefs and both functions and ideologies in turn condition the stakes the forms and the arenas of intra aristocratic conflict the politics of the aristocracy The author also analyzes the roles of the peasantry and the townspeople in aristocratic politics and shows that peasant revolts on any large scale occur only after commercial modernization He concludes with chapters on the modernization of aristocratic empires and on the importance in modern politics of institutional and ideological remnants of the old aristocratic order

Politics of Pasts and Futures in (Post-)Imperial Contexts Sebastian Fahner,Christian Feichtinger,Rogier Heijden,2024-12-02 Although empires have played a decisive role in political thinking and the orientation of political goals at all times the focus of research has so far mostly been on spatial and ideological aspects This volume on the other hand offers a multi disciplinary collection of studies that deal with the instrumentalization and ongoing impacts of perspectives on empire and their place in time Coming from archaeology history art history literary studies and social sciences the individual case studies discuss perceptions of imperial histories and imagined futures of empires both in imperial and in post imperial contexts The transcending historical significance of the imperial ideas and ideals shows the deep and long lasting effects of empire in landscapes mindscapes and social structures The diachronic cut through all epochs from antiquity to modern times is complemented by a broad global view to deepen the temporal understanding of imperial imaginaries as well as their political implications

Soviet Politics of Emancipation of Ethnic Minority Woman Yulia Gradska,2018-09-04 This book provides a new perspective through a closer look on Other i e ethnic minority women defined by the Soviet documents as natsionalka Applying decolonial theory and critical race and whiteness studies the book analyzes archive documents early Soviet films and mass publications in order to explore how the emancipation and culturalization of women of culturally backward nations was practiced and presented for the mass Soviet audience Whilst the special focus of the book lies in the region between the Volga and the Urals and Muslim women of the Central Eurasia the Soviet emancipation practices are presented in the broader context of gendered politics of modernization in the beginning of the 20th century The analysis of the Soviet documents of the 1920s 1930s not only subverts the Soviet story on generous help with emancipation of natsionalka through uncovering its imperial colonial aspects but also makes an important contribution to the studies of imperial domination and colonial politics This book is addressed to all interested in Russian and Eurasian studies and in decolonial approach to gender history

Politics Munroe Eagles,Larry

Johnston,2008-01-04 Extremely thorough and well researched The inclusion of a discussion of political science and of political philosophy is welcome as it helps ground the discussion of modern institutions and processes in the history of political thought Robert Kelly University of the Pacific **British Politics For Dummies** Julian Knight,Michael Pattison,2015-01-20 Your updated and revised guide to British politics So you want to be knowledgeable about British politics but don't know where to start You've come to the right place British Politics For Dummies is your essential guide to understanding even the trickiest questions surrounding politics in the UK In no time you'll have the confidence to discuss the ins and outs of past and present elections political leaders parties and ideologies Packed with understandable information on the origins history and structure of the UK parliamentary system British Politics For Dummies offers a fascinating glimpse into the rollercoaster world of politics Explaining everything from key political ideologies and the spread of democracy to the current election process and the differences between political parties this hands-on friendly guide is an ideal companion to British politics and elections Includes expanded coverage of coalition governments devolution and independence efforts Provides updated information on UKIP and Britain's place in Europe Serves as a helpful guide to elections and British political parties electoral systems voting behaviour and trends and the role of pressure groups and the media Offers a fascinating examination of British politics on the world stage Whether you want to get to grips with British politics and government or build your knowledge beyond the basics this updated edition of British Politics For Dummies is the place to start **International Relations Theory and the End of the Cold War** Richard Ned Lebow,Thomas Risse-Kappen,1995 This controversial set of essays evaluates and extends international relations theory in light of the revolutionary events of past years The contributors demonstrate how theoretical constructs did not anticipate Soviet foreign policies that led to the end of the Cold War Central and East European Politics Zsuzsa Csergo,Daina S. Eglitis,Paula M. Pickering,2021-06-22 Now in a fully updated edition this essential text explores the other half of Europe the newer and future members of the EU along with the problems and potential they bring to the region and to the world stage *State, Power and Politics in the Making of the Modern Middle East* Roger Owen,2013-01-11 Roger Owen has fully revised and updated his authoritative text to take into account the latest developments in the Middle East This book continues to serve as an excellent introduction for newcomers to the modern history and politics of this fascinating region This third edition continues to explore the emergence of individual Middle Eastern states since the fall of the Ottoman Empire at the end of the First World War and the key themes that have characterized the region since then
