Democratic by Design Gabriel Metcalf, 2015-11-17 Americans have since our founding participated in a variety of alternative institutions self organized projects that work outside the traditional structures of government and business to change society From the town meetings that still serve as our ideal of self governance to the sustainable food movement that is changing the way we think about farming the land and feeding our families these secondary structures have given rise to many of our most exciting and important innovations Yet most people still know little about them even as their numbers and their influence increase In today s climate of widespread economic inequity political gridlock and daunting environmental challenges we sorely need a fresh approach to social and political change In *Democratic by Design* Gabriel Metcalf sketches out a strategy that starts with small scale living examples of a better society that can ultimately scale up to widespread social transformation Using examples like car sharing organizations community land trusts credit unions workers co ops citizen juries community supported agriculture farms mission driven corporations and others *Democratic by Design* shows how alternative institutions can be the crucial spark for a broad new progressive movement

Deliberation, Democracy, and Civic Forums Christopher F. Karpowitz, Chad Raphael, 2014-11-13 Innovative forums that integrate citizen deliberation into policy making are revitalizing democracy in many places around the world Yet controversy abounds over whether these forums ought to be seen as authentic sources of public opinion and how they should fit with existing political institutions How can civic forums include less powerful citizens and ensure that their perspectives are heard on equal terms with more privileged citizens officials and policy experts How can these fragile institutions communicate citizens policy preferences effectively and legitimately to the rest of the political system *Deliberation Democracy and Civic Forums* proposes creative solutions for improving equality and publicity which are grounded in new theories about democratic deliberation a careful review of research and practice in the field and several original studies This book speaks to scholars practitioners and sponsors of civic engagement public management and consultation and deliberative and participatory democracy

Innovating Democracy Robert E. Goodin, 2008-07-10 In recent years democratic theory has taken a deliberative turn Instead of merely casting the occasional ballot deliberative democrats want citizens to reason together They embrace talk as

a decision procedure But of course thousands or millions of people cannot realistically talk to one another all at once When putting their theories into practice deliberative democrats therefore tend to focus on mini publics usually of a couple dozen to a couple hundred people The central question then is how to connect micro deliberations in mini publics to the political decision making processes of the larger society In *Innovating Democracy* Robert Goodin surveys these new deliberative mechanisms asking how they work and what we can properly expect of them Much though they have to offer they cannot deliver all that deliberative democrats hope Talk Goodin concludes is good as discovery procedure but not as a decision procedure His slogan is First talk then vote Micro deliberative mechanisms should supplement not supplant representative democracy Goodin goes on to show how to adapt our thinking about those familiar institutions to take full advantage of deliberative inputs That involves rethinking who should get a say how we hold people accountable how we sequence deliberative moments and what the roles of parties and legislatures can be in that Revisioning macro democratic processes in light of the processes and promise of micro deliberation *Innovating Democracy* provides an integrated perspective on democratic theory and practice after the deliberative turn

Streetwise for Book Smarts Celina Su, 2011-02-23 In *Streetwise for Book Smarts* Celina Su examines the efforts of parents and students who sought to improve the quality of education in their local schools by working with grassroots organizations and taking matters into their own hands In these organizations everyday citizens pursued not only education reform but also democratic accountability and community empowerment These groups had similar resources and operated in the same political context yet their strategies and tactics were very different while some focused on increasing state and city aid to their schools others tried to change the way the schools themselves operated Some coalitions sought accommodation with administrators and legislators others did not The events Su describes began with a series of stabbings in Bronx high schools during the 2003 2004 school year After this rash of violence several grassroots groups cited the need for additional safety patrols Mothers from one school spoke of how they had previously protested until they got extra officers a fairly scarce resource in New York public schools at their local elementary school Others asserted that not all the safety patrol officers already in place were treating students humanely Parent organizations and school officials battled over who was to blame for the school violence Did a police presence solve the problem or did it exacerbate the schools violence prone conditions Members of different groups proposed and mobilized behind a range of remedies These divergent responses shed light on the ways in which the choices made by each organization mattered By learning from Su s close observation of four activist groups in the Bronx including Mothers on the Move and Sistas and Brothas United we can better understand strategies that may ultimately lead to better and safer schools everywhere and help to revitalize American democracy

Making Policy Public Susan L. Moffitt, 2014-09-27 This book challenges the conventional wisdom that government bureaucrats inevitably seek secrecy and demonstrates how and when participatory bureaucracy manages the enduring tension between bureaucratic administration and democratic accountability Looking closely at federal level public participation in pharmaceutical regulation and educational assessments within the context of the vast system of American federal advisory committees this book demonstrates that participatory bureaucracy supports bureaucratic administration in ways consistent with democratic accountability when it focuses on complex tasks and engages diverse expertise In these conditions public participation can help produce better policy outcomes such as safer prescription drugs Instead of bureaucracy s opposite or alternative public

participation can work as its complement
