Enchanted Hunters The Power Of Stories In Childhood:

Enchanted Hunters: The Power of Stories in Childhood Maria Tatar, 2009-04-20 Highly illuminating for parents vital for students and book lovers alike Enchanted Hunters transforms our understanding of why children should read Ever wondered why little children love listening to stories why older ones get lost in certain books In this enthralling work Maria Tatar challenges many of our assumptions about childhood reading Much as our culture pays lip service to the importance of literature we rarely examine the creative and cognitive benefits of reading from infancy through adolescence By exploring how beauty and horror operated in C S Lewis s Chronicles of Narnia Philip Pullman s His Dark Materials J K Rowling s Harry Potter novels and many other narratives Tatar provides a delightful work for parents teachers and general readers not just examining how and what children read but also showing through vivid examples how literature transports and transforms children with its intoxicating captivating and occasionally terrifying energy In the tradition of Bruno Bettelheim s landmark The Uses of Enchantment Tatar s book is not only a compelling journey into the world of childhood but a trip back for adult readers as well

How Children Read Biblical Narrative Melody Renee Briggs, 2017-05-31 How do children read the Bible This book makes a major contribution to this underexplored area by analyzing how children interpret Bible stories focused around an empirical investigation of one group of eleven to fourteen year old children and their readings of the Gospel of Luke The first section of the study establishes the nature of the text and the readers in this project exploring the Gospel of Luke as a narrative of Jesus birth life death and resurrection and then looking at the developmental traits of children as readers The next section offers a model account of how biblical scholars can investigate empirical readings of Scripture by describing the methods used to bring together one group of child readers and Luke The third section then analyzes the resulting multitude of interpretations that the children offered in their reading of the book concentrating on the key trends in their interpretive strategies It critiques the children s readings of Luke but it also points to some of the surprising and beneficial results of reading Luke using the interpretive strategies of a child

The Digital Child Daniel Dervin, 2017-10-18 Nothing is more synonymous with the twenty first century than the image of a child on his or her smart phone tablet video game console television and or laptop But with all this external stimulation has childhood development been helped or hindered Daniel Dervin is concerned that today s childhood has become unmoored from its Rousseauist Wordsworthian anchors in nature He considers childrens development to be inextricably linked with inwardness a psychological concept referring to the awareness of ones self as derived from the world and the internalization of such reflections Inwardness is the enabling space that allows ones thoughts experiences and emotions to be processed It is an important adaptive marker of human evolution In The Digital Child Dervin traces the evolution of how we have perceived childhood in the West and thus what we have meant by inwardness from pre history to today He identifies six transformational stages tribal pedagogical religious humanist rational and citizen leading up to a new stage the digital child

This stage has emerged from current unprecedented and pervasive technological culture Dervin delves deeply into each stage that precedes today s studying myths literary texts the visual arts cultural histories media reports and the traditions of parenting pediatrics and pedagogy Weaving together approaches from biology culture and psychology Dervin revisits who we once were as a species in order to enable us to grasp who we are becoming and where we might be heading for better or worse

De-constructing Dahl Laura Viñas Valle,2016-01-14 This is the first single authored monograph on Roald Dahl since 1994 Remarkably in spite of Dahl s commercial success and the divided opinions he generates very little scholarly work on the author has been produced In the light of sociocultural constructivist theory De constructing Dahl focuses on the critical context texts and paratexts that make up the packaging of Dahl It offers the first thorough overview of the criticism and the language employed to discuss Dahl since the 1970s the difficulties that using such language entails and how it still permeates current criticism It delves into the relationship between Dahl s children s and adult fiction by drawing comparisons and contrasts and exploring the common traits and patterns that bring his whole work together It also examines how Dahl constructed himself as a children s writer how his publishing house and allies contribute to mediating and sustaining the Dahl public persona the ways that marketing strategies are responsible for the identity of his books and how editorial decisions about the age range and therefore how the classification of a manuscript as a book for children or for adults constructs particular ideas of what children s literature is and what is considered appropriate or unsuitable for children to read

Children's Literature and Intergenerational Relationships Justyna Deszcz-Tryhubczak,Irena Barbara Kalla,2021-04-23 Children s Literature and Intergenerational Relationships Encounters of the Playful Kind explores ways in which children s literature becomes the object and catalyst of play that brings younger and older generations closer to one another Providing examples from diverse cultural and historical contexts this collection argues that children s texts promote intergenerational play through the use of literary devices and graphic formats and that they may prompt joint play practices in the real world The book offers a distinctive contribution to children s literature scholarship by shifting critical attention away from the difference and conflict between children and adults to the exploration of inter age interdependencies as equally crucial aspects of human life presenting a new perspective for all who research and work with children s culture in times of global aging

Children's Literature and the Posthuman Zoe Jaques,2015-02-11 An investigation of identity formation in children s literature this book brings together children s literature and recent critical concerns with posthuman identity to argue that children s fiction offers sophisticated interventions into debates about what it means to be human and in particular about humanity s relationship to animals and the natural world In complicating

questions of human identity ecology gender and technology Jaques engages with a multifaceted posthumanism to understand how philosophy can emerge from children s fantasy disclosing how such fantasy can build upon earlier traditions to represent complex issues of humanness to younger audiences Interrogating the place of the human through the non human whether animal or mechanical leads this book to have interpretations that radically depart from the critical tradition which in its concerns with the socialization and representation of the child has ignored larger epistemologies of humanness The book considers canonical texts of children s literature alongside recent bestsellers and films locating texts such as Gulliver s Travels 1726 Pinocchio 1883 and the Alice books 1865 1871 as important works in the evolution of posthuman ideas This study provides radical new readings of children s literature and demonstrates that the genre offers sophisticated interventions into the nature boundaries and dominion of humanity

Under the Bed, Creeping Michael Howarth, 2014-05-14 From Puritan tracts and chapbooks to fairy tales and Victorian poems from zombies and werewolves to ghosts and vampires the gothic has become an important part of children s literature This book explores how Gothicism is crucial in helping children progress through different stages of growth and development It examines five famous texts Christina Rossetti s Goblin Market Carlo Collodi s Pinocchio Neil Gaiman s Coraline three versions of Little Red Riding Hood and J M Barrie s play and then novel Peter and Wendy incorporating renowned psychologist Erik Erikson s landmark theories on psychosocial stages of development By linking a particular stage to each of the aforementioned texts it becomes clearer how anxiety and terror are just as important as happiness and wonder in fostering maturity achieving a sense of independence and fulfilling one s self identity Gothic elements give shape to children s fears which is precisely how children are able to defeat them and through their interactions with the ghosts and goblins that inhabit fantasy worlds children come to better understand their own world as well as their own lives

Reading in the Dark Jessica R. McCort, 2016-04-28 Contributions by Rebecca A Brown Justine Gieni Holly Harper Emily L Hiltz A Robin Hoffman Kirsten Kowalewski Peter C Kunze Jorie Lagerwey Nick Levey Jessica R McCort and Janani Subramanian Dark novels shows and films targeted toward children and young adults are proliferating wildly It is even more crucial now to understand the methods by which such texts have traditionally operated and how those methods have been challenged abandoned and appropriated Reading in the Dark fills a gap in criticism devoted to children's popular culture by concentrating on horror an often neglected genre These scholars explore the intersection between horror popular culture and children's cultural productions including picture books fairy tales young adult literature television and monster movies Reading in the Dark looks at horror texts for children with deserved respect weighing the multitude of benefits they can provide for young readers and viewers Refusing to write off the horror genre as campy trite or deforming these essays instead recognize many of the texts and films categorized as scary as among those most widely consumed by children and young adults In addition scholars consider how adult horror has been domesticated by children's literature and culture with authors and screenwriters turning that which was once horrifying into safe funny and delightful books and films Scholars likewise examine the impetus behind such re envisioning of the adult horror novel or film as something appropriate for the young The collection investigates both the constructive and the troublesome aspects of scary books movies and television shows targeted toward children and young adults It considers the complex mechanisms by which these texts communicate overt messages and hidden agendas and it treats as well the readers experiences of such mechanisms

Unconscious Alessandra Aloisi, Fabio Camilletti, 2019-07-10 In reconstructing the birth and development of the notion of unconscious historians of ideas have heavily relied on the Freudian concept of Unbewussten retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany Archaeology of the Unconscious aims to challenge this perspective by adopting an unusual and thought provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI when Italo Svevo's *La coscienza di Zeno* provides Italy with the first example of a psychoanalytic novel Italy's vibrant culture of the long nineteenth century characterised by the sedimentation circulation intersection and synergy of different cultural philosophical and literary traditions proves itself to be a privileged object of inquiry for an archaeological study of the unconscious a study whose object is not the alleged origin of a pre made theoretical construct but rather the stratifications by which that specific construct was assembled In line with Michel Foucault's *Archéologie du savoir* 1969 this volume will analyze the formation and the circulation across different authors and texts of a network of ideas and discourses on interconnected themes including dreams memory recollection desire imagination fantasy madness creativity inspiration magnetism and somnambulism Alongside questioning pre given narratives of the history of the unconscious this book will employ the Italian difference as a powerful perspective from whence to address the undeveloped potentialities of the pre Freudian unconscious beyond uniquely psychoanalytical viewpoints On Living with Television Amy

Camp, David M. Gunn, Aaron W.

Hughes, 2015-06-18 In this volume a list of esteemed scholars engage with the literary readings of prophetic and poetic texts in the Hebrew Bible that revolve around sensitivity to the complexity of language the fragility of meaning and the interplay of texts These themes are discussed using a variety of hermeneutical strategies In Part 1 Poets and Poetry some essays address the nature of poetic language itself while others play with themes of love beauty and nature in specific poetic texts The essays in Part 2 Prophets and Prophecy consider prophets and prophecy from a number of interpretive directions moving from internal literary analysis to the reception of these texts and their imagery in a range of ancient and modern contexts Those in Part 3 on the other hand Texts in Play take more recent works from Shakespeare to Tove Jansson's Moomin books for children as their point of departure developing conversations between texts across the centuries that enrich the readings of both the ancient and modern pieces of literature
