Encounters Of Mind Encounters Of Mind:

Encounters of Mind Douglas L. Berger, 2015-02-23 *Encounters of Mind* explores a crucial step in the philosophical journey of Buddhism from India to China and what influence this step once taken had on Chinese thought in a broader scope. The relationship of concepts of mind or awareness to the constitution of personhood in Chinese traditions of reflection was to change profoundly after the Cognition School of Buddhism made its way to China during the sixth century. India's Buddhist philosophers had formulated the idea that in order for human beings to achieve perfect enlightenment they had to produce a state of awareness through practice that they described as luminous. However, once introduced to the Chinese tradition, the concept of the luminous mind was to become a condition already found within human nature for the possibility of achieving human ideals. This notion of the luminous mind was to have far-reaching significance both for Chinese Buddhism and for medieval Confucianism. Douglas L. Berger follows the transforming path of conceptions of the luminosity of consciousness and the perfectibility of personhood in order to bring into clearer relief the history of Indian and Chinese philosophical dialogue as well as in the hope that such dialogue will be reignited.

scientific paradigm in sync with experience based spirituality Ervin Laszlo and Anthony Peake explore how consciousness is continually present in the cosmos and can exist without connection to a living organism They examine the rapidly growing body of scientific evidence supporting the continuity of consciousness including near death experiences after death communication reincarnation and neurosensory information received in altered states They explain how the persistence of consciousness beyond the demise of the body means that in essence we are not mortal we continue to exist even when our physical existence has come to an end This correlates precisely with cutting edge physics which posits that things in our plane of time and space are not intrinsically real but are manifestations of a hidden dimension where they exist in the form of superstrings information fields and energy matrices With proof that consciousness is basic to the cosmos and immortal in its deeper nonmanifest realm Laszlo and Peake reveal the purpose of consciousness is to manifest in living beings in order to continuously evolve

Sex and Nothing Alejandro Cerda-Rueda,2018-05-08 From its etymological roots sex is related to a scission Latin for sectus secare meaning to divide or cut Therefore regardless of the various studies applied to defining sex as inscribed by discursive acts i e merely a performatively enacted signification there is something more to sex than just a social construction or an aprioristic substance Sex is irreducible to meaning or knowledge This is why psychoanalysis cannot be formulated as an erotology nor a science of sex scientia sexualis In this matter sex escapes the symbolic restraints of language however it is through its failure that it manifests itself through the symbolic e g symptoms or dream life So what is sex Sex and Nothing embarks upon a dialogue between colleagues and friends interested in bridging psychoanalysis and philosophy linking sex and thought where what emerges is a greater awareness of the irreducibility of sex to the discourse of knowledge and meaning in other words sex and nothing

Others in Mind Philippe Rochat, 2009-02-09 In this book Philippe Rochat explores self-consciousness how it originates and how it shapes our lives arguably the most important and revealing of all psychological problems Why are we so prone to guilt and embarrassment Why do we care so much about how others see us about our reputation What are the origins of such afflictions Rochat argues that it is because we are members of a species that evolved the unique propensity to reflect upon themselves as an object of thoughts an object of thoughts that is potentially evaluated by others Based on empirical observations this is a book of ideas tapping into both developmental and anthropological phenomena and guided by strong existential intuitions regarding the human condition At the core of these intuitions there is the idea that human psychic life is predominantly determined by what we imagine others perceive of us

Mind Seeing Mind Roger R. Jackson, 2019-10-29 A definitive study of one of the most important practices in Tibetan Buddhism with translations of a number of its key texts Mahamudra the great seal refers to the ultimate nature of mind and reality to a meditative practice for realizing that ultimate reality and to the final fruition of buddhahood It is especially prominent in the Kagy tradition of Tibetan Buddhism so it sometimes comes as a surprise that mahamudra has played an important role in the Geluk school where it is part of a special transmission received in a vision by the tradition's

founder Tsongkhapa Mahamudra is a significant component of Geluk ritual and meditative life widely studied and taught by contemporary masters such as the Dalai Lama. Roger Jackson's *Mind Seeing Mind* offers us both a definitive scholarly study of the history, texts and doctrines of Geluk mahamudra and masterful translations of its seminal texts. It provides a skillful survey of the Indian sources of the teaching, illuminates the place of mahamudra among Tibetan Buddhist schools and details the history and major textual sources of Geluk mahamudra. Jackson also addresses critical questions such as the relation between Geluk and Kagyu mahamudra and places mahamudra in the context of contemporary religious studies. The translation portion of *Mind Seeing Mind* includes ten texts on mahamudra history, ritual and practice. Among these are the First Panchen Lama's root verses and autocommentary on mahamudra meditation, his ritual masterpiece *Offering to the Guru* and a selection of his songs of spiritual experience. *Mind Seeing Mind* adds considerably to our understanding of Tibetan Buddhist spirituality and shows how mahamudra came to be woven throughout the fabric of the Geluk tradition.
