Essays Into Vietnamese Pasts Studies On Southeast Asia No 19:

Buddhism and Politics in Twentieth Century Asia Ian Harris, 2010-07-15 In this study a team of international scholars assess the manner in which Buddhist organizations and individuals have resisted come to terms with or in some cases allied themselves with the forces of war modernity westernization nationalization capitalism communism and ethnic conflict By examining issues such as left right divisions in the monastic order the rise of organized lay movements Buddhist social activism as well as explicitly Buddhist inspired political activity this book seeks to demonstrate that the emphasis on meditation and mental training is only one strand in this richly complex world historical tradition *Transplanting Commercial Law Reform* John Gillespie, 2017-03-02 The first sustained analysis examining legal transplantation into East Asia this volume examines the prospects for transplanting a rule of law that will attract and sustain international trade and investment in this economically dynamic region The book develops both a general model that explains how legal transplantation shapes legal development in the region whilst developing theoretical insights into the political economic and legal discourses guiding commercial law reforms in Vietnam For the first time this book develops a research methodology specifically designed to investigate law reform in developing East Asia In so doing it challenges the relevance of conventional convergence and divergence explanations for legal transplantation that have been developed in European and North American contexts As the first finely grained analysis of legal development in Vietnam the book will be invaluable to academics and researchers working in this area It will also be of interest to those involved in commercial legal theory

The Rebel Den of Nung Tri Cao James A. Anderson, 2012-09-01 The Rebel Den of Nung Tri Cao examines the rebellion of the eleventh century Tai chieftain Nung Tri Cao ca 1025 1055 whose struggle for independence along Vietnam s mountainous northern frontier was a pivotal event in Sino Vietnamese relations Tri Cao s revolt occurred during Vietnam s earliest years of independence from China and would prove to be a vital test of the Vietnamese court s ability to confront local political challenges and maintain harmony with its powerful northern neighbor Tri Cao established his first kingdom in 1042 at the age of seventeen but was captured by Vietnamese troops After his release in 1048 he announced the founding of a second kingdom but an attack by Vietnamese forces drove him to flee into Chinese territory Tri Cao made his final attempt in 1052 proclaiming a new kingdom and leading thousands of his subjects in a revolt that swept across the South China coast But within a year Chinese imperial troops had forced him to flee to the nearest independent kingdom Official Chinese and Vietnamese accounts of the rebel leader s end vary according to the Chinese the ruler of the independent kingdom had Tri Cao executed but in popular accounts Tri Cao was granted safe passage into northern Thailand where his descendants are said to flourish today Scholar James Anderson places Tri Cao in context by exploring the Sino Vietnamese tributary relationship and the conflicts that engaged both the Song and Vietnamese courts The Rebel Den of Nung Tri Cao reconstructs the series of negotiations that took place between border communities and representatives of the imperial

courts examining the ways in which Tai and other ethnic groups deftly navigated the unstable political situation that followed the demise of China's cosmopolitan Tang dynasty. Though his rebellion was ill fated, Tri Cao is almost a thousand years later still worshipped in temples along the Sino-Vietnamese border and his memory provides a point of unity for people who have become separated by modern political boundaries.

Vietnamese Traditional Medicine C. Michele Thompson, 2015-06-30 While reshaping our understanding of the history and development of traditional Vietnamese medicine in the 19th and 20th centuries, Michele Thompson's new book reaches across disciplines to open important perspectives in Vietnamese colonial and social history as well as our understanding of the Vietnamese language and writing systems. Traditional Vietnamese medicine is generally understood as an import from the Chinese tradition. Thompson's detailed historical and linguistic research restores agency and voice to practitioners of Vietnamese medicine, showing how the adoption of Chinese and then Western ideas of medicine in the 19th and 20th centuries relied on indigenous Vietnamese concepts of health and the human body. She mines medical manuscripts in Chinese and in Nom vernacular Vietnamese to capture various aspects of the historical interaction between Chinese and Vietnamese thought. She presents a detailed analysis of the Vietnamese response to a Chinese medical technique for preventing smallpox and to the medical concepts associated with it, looking at Vietnamese healers from a variety of social classes. Thompson's account brings together colorful historical vignettes, contemporary observations and interviews, and textual analysis. It stands out as a demonstration of the power of the history of medicine to illuminate adjacent fields of enquiry. It will be of interest to historians of medicine globally and in East Asia as well as to students of Vietnam and its complex process of modernization.

Ruptured Histories Sheila Miyoshi Jager, Rana Mitter, 2007-04-30 New forms of nationalism have affected American policy in the Pacific, challenging the post-communist world order. This book explores the wars of the modern era, illuminating regional and global changes in East Asia and underscoring the need to redefine the Cold War language that still continues to inform U.S. East Asian relations.

No Other Road to Take Nguyen Thi Dinh, 2018-05-31 Now in its seventh printing, the memoir of a woman whose strength, courage, and intelligence had a profound impact on Vietnamese history. Not simply a participant in the Viet Minh resistance against the French, Mrs. Nguyen Thi Dinh was also an active leader who organized the uprising in Ben Tre province against the Diem regime, was appointed to the leadership committee of the National Liberation Front (NLF), and served as Chairman of the South Vietnam Women's Liberation Association. The oppressive policies of Diem and the problems of civil war and American involvement are described with powerful immediacy, effectively illustrating the patriotic fervor and determination of those she fought with and helped lead.

The Flaming Womb Barbara Watson Andaya, 2006-07-31 The Princess of the Flaming Womb the Javanese legend that introduces this pioneering study symbolizes the many ambiguities attached to femaleness in Southeast Asian societies Yet despite these ambiguities the relatively egalitarian nature of male female relations in Southeast Asia is central to arguments claiming a coherent identity for the region This challenging work by senior scholar Barbara Watson Andaya considers such contradictions while offering a thought provoking view of Southeast Asian history that focuses on women s roles and perceptions Andaya explores the broad themes of the early modern era 1500 1800 the introduction of new religions major economic shifts changing patterns of state control the impact of elite lifestyles and behaviors drawing on an extraordinary range of sources and citing numerous examples from Thai Vietnamese Burmese Philippine and Malay societies In the process she provides a timely and innovative model for putting women back into world history Andaya approaches the problematic issue of Southeast Asia by considering ways in which topography helped describe a geo cultural zone and contributed to regional distinctiveness in gender construction She examines the degree to which world religions have been instrumental in re constructing conceptions of gender an issue especially pertinent to Southeast Asian societies because of the leading role so often played by women in indigenous ritual She also considers the effects of the expansion of long distance trade the incorporation of the region into a global trading network the beginnings of cash cropping and wage labor and the increase in slavery on the position of women Erudite nuanced and accessible The Flaming Womb makes a major contribution to a Southeast Asia history that is both regional and global in content and perspective

The Country of Memory Hue-Tam Ho Tai, 2001-10 Hue Tam Ho Tai s masterful collection of essays that explore how the past is being remade in contemporary Vietnam constitutes a welcome addition to the study of the larger problem of engineering memory especially in political cultures where the identity of the nation state is in a considerable state of flux This book also suggests that the commemorative fever that is sweeping Vietnam is about more than Vietnam s history It also has a great deal to do with the problems premodern cultures presented to those who promoted the creation of contemporary states In this regard both Vietnam and this book offer all scholars of nationalism and remembering in the West a fascinating perspective on their own nations John Bodnar Chancellors Professor of History at Indiana University from the Foreword

Viet Nam Ben Kiernan, 2017-02-17 For many Westerners the name Vietnam evokes images of a bloody televised American war that generated a firestorm of protest and brought conflict into their living rooms In his sweeping account Ben Kiernan broadens this vision by narrating the rich

history of the peoples who have inhabited the land now known as Viet Nam over the past three thousand years Despite the tragedies of the American Vietnamese conflict Viet Nam has always been much more than a war Its long history had been characterized by the frequent rise and fall of different political formations from ancient chiefdoms to imperial provinces from independent kingdoms to divided regions civil wars French colonies and modern republics In addition to dramatic political transformations the region has been shaped by its environment changing climate and the critical importance of water with rivers deltas and a long coastline facilitating agricultural patterns trade and communications Kiernan weaves together the many narrative strands of Viet Nam s multi ethnic populations including the Chams Khmers and Vietnamese and its multi religious heritage from local spirit cults to Buddhism Confucianism and Catholicism He emphasizes the peoples interactions over the millennia with foreigners particularly their neighbors in China and Southeast Asia in engagements ranging from military conflict to linguistic and cultural influences He sets the tumultuous modern period marked by French and Japanese occupation anticolonial nationalism the American Vietnamese war and communist victory against the continuities evident in the deeper history of the people s relationships with the lands where they have lived In contemporary times he explores this one party state s transformation into a global trading nation the country s tense diplomatic relationship with China and developing partnership with the United States in maintaining Southeast Asia s regional security and its uncertain prospects for democracy Written by a leading scholar of Southeast Asia Viet Nam presents an authoritative history of an ancient land
