Program Planning and Evaluation for the Public Manager Ronald D. Sylvia, Kathleen M. Sylvia, 2012-03-21 In an era of rapidly shrinking resources efficient utilization of public resources is of paramount importance Health care social services education law enforcement and other fields have established their own standards against which program operations are assessed National accrediting bodies have implemented systems of rigorous peer review to ensure the quality of program

processes and outcomes Nongovernmental organizations must demonstrate success in achieving their stated goals in order to sustain or expand program funding In the 21st century process how programs are organized and how work is conducted has become as important as outcomes in determining program effectiveness Responding to these dynamic challenges the authors utilize concrete case studies to immerse students in the techniques of program evaluation They effectively examine systems theory project planning queuing theory cost benefit analysis and organization processes including standards based program accreditation providing practical examples in an easy to comprehend style In addition comprehensive discussions explain how process intervention is utilized to achieve program adaptations and strategic change Like its highly regarded predecessors the latest edition features evaluation exercises designed to facilitate student development of indicators and measures when dealing with real world programs An Instructors Manual provides solutions to the case studies in the appendix of the text further clarifying the program planning and evaluation process
