social ties and the role of embodied experience in religious rituals These approaches reveal central aspects of contemporary religions that the dominant way of doing sociology fails to notice Each approach also provides investigators with new theoretical resources to guide them deeper into their subjects The volume makes a compelling case for adopting a global perspective in the social sciences

diverse manner by which nationalism comes to be embedded in our social and political world Accounting for the dynamism and intertextuality of nationalism Nationalism and Hegemony shows how the nation and nationalism come to be consolidated as conceptual and experiential power structures and how the interests of political groups are advanced through diverse nationalist modalities which can at any time be activated for political purposes A critique of the various and diverse manifestations of nationalism this contribution to both theory and political practice will appeal to scholars working in the fields of sociology and social and political theory From Revolution to Chaos in Haiti (1804-2019) Rhodner J

Orisma,2020-01-13 Haiti is a failing state The country is still unable to provide basic needs such as employment food housing healthcare and education to a majority of its inhabitants in over two centuries after its revolution and Independence of 1804 Relatively incompetent both the nation s government and its opposition ignore moral politics and instead focus on corruption and fighting each other Though free from French rule the country remains tied to its slave past and violent history It seems like a socioeconomic and urban consensus cannot be achieved in order to carry out sustainable solutions for the people This book From Revolution to Chaos in Haiti 1804 2019 Urban Problems and Redevelopment Straregies is an attempt to analyze this situation from a historical perspective First the Haitian Revolution of 1804 is displayed to show the violent and bloody struggles of outstanding leaders and warriors against colonial powers for the making of a great political and independent nation Second Haiti s decline is analyzed starting from the assassination of its first leader Jean Jacques Dessalines in 1806 to the country s bottom rank in the global stratification during the 2010 s along with the impact of the catastrophic 2010 earthquake The main factors noted within this decline are linguistic agricultural urban and HIV AIDS TB healthcare issues and undercapitalization along with ideological confusions capitalism neoliberalism socialism social democracy and political instability **Sociology in Our Times: The Essentials** Diana Kendall,2013-01-01 Completely up to date and offering a
