not therefore do politics It is amazing that Africans in the West live in societies where fierce political competitors do embrace each other after one has defeated the other but they are incapable of looking their so called friends in the eye and saying for example Man I think you ve totally gotten it wrong this time Such comportment defines politickerization or negative competition While attempting some possible responses to the numerous queries it raises this book basically proffers the science of Four Eyesism as a discipline that all African schools need to institute and make a compulsory subject if the vandalized continent would have to be awakened to its realities This book is rich in Fossungu s dazzling capacity to invent define and use a multitude of new terminological constructs informed by African experiences **Essentials of**
