Monetary Fund, 2019-04-11. This paper discusses about capitalism that is often thought of as an economic system in which private actors own and control property in accord with their interests and demand and supply freely set prices in markets in a way that can serve the best interests of society. The essential feature of capitalism is the motive to make a profit. In a capitalist economy, capital assets such as factories, mines and railroads can be privately owned and controlled; labor is purchased for money wages; capital gains accrue to private owners and prices allocate capital and labor between competing uses. Although some form of capitalism is the basis for nearly all economies today, for much of the past century it was but one of two major approaches to economic organization. In the other, socialism, the state owns the means of production and state-owned enterprises seek to maximize social good rather than profits. *Host State Circumstances and Absolute Standards of Protection in International Investment Law* Johanna Braun, 2022-10-28. Dieses Werk beschäftigt sich mit den sogenannten absoluten Schutzstandards im internationalen Investitionsschutzrecht, dem Fair and Equitable Treatment (FET) und dem Full Protection and Security (FPS) Standard. Es bearbeitet die Frage, ob auch ergewöhnliche Umstände im Gaststaat einen Einfluss auf die Auslegung dieser Standards haben. Zu diesem Zweck untersucht die Autorin die normativen Grundlagen beider Standards einschließlich des jeweiligen Wortlauts, Systematik und Zweck, bevor die bestehende Schiedsgerichtspraxis analysiert wird.
