Report Commonwealth Shipping Committee,1910 *Anti-Corruption and its Discontents* Grant W. Walton,2017-08-03 The fight against corruption is now a core part of development policy and practice Some call these efforts a war on corruption What does this so called war mean for developing countries And how do international perspectives on corruption relate to local and national concerns This book examines the relevance of anti corruption discourse in Papua New Guinea PNG one of the most culturally rich and corrupt countries on earth Despite increased international national and local efforts to address corruption over the past two decades many fear that levels of corruption continue to rise largely unabated Some believe that the mismatch between international national and local assumptions regarding the nature of corruption and how it should be addressed is at the heart of the issue International anti corruption initiatives stress zero tolerance and try to strengthen formal state based institutions However many people in PNG are more concerned about maintaining social relationships than following state laws and rules This book critically examines the implications of the anti corruption agenda and the collision of international national and local perspectives In doing so it provides a diagnostic on international assumptions about corruption and how it should be fought in developing countries offering surprising and important lessons This book is essential reading for scholars and students of Development Studies Geography Political Studies and Economics as well as practitioners and policy makers working in development **Catalogue of the Public Documents of the ...
