*North Africa* Dallen Timothy,2018-12-07 The Routledge Handbook on Tourism in the Middle East and North Africa examines the importance of tourism as a historical economic social environmental religious and political force in the Middle East and North Africa MENA It highlights the ecological and resource challenges related to water desert environments climate change and oil It provides an in depth analysis of the geopolitical conditions that have long determined the patterns of tourism demand and supply throughout the region and how these play out in the everyday lives of residents and destinations as they

attempt to grow tourism or ignore it entirely While cultural heritage remains the primary tourism asset for the region as a whole many new types of tourisms are emerging especially in the Arabian Gulf region where hyper development is closely associated with the increasingly prominent role of luxury real estate and shopping retail medical tourism cruises and transit tourism The growing phenomenon of an expatriate workforce and how its segregation from the citizenry creates a dual socio economic system in several countries is unmatched by other regions of the world Many indigenous people of MENA keep themselves apart from other dominant groups in the region although these social boundaries are becoming increasingly blurred as tourism being one socio economic force for change has inspired many nomadic peoples to settle into towns and villages and rely more on tourists for their livelihoods All of these issues and more shape the foundations of this book This Handbook is the first of its kind to examine tourism from a broad regional and inclusive perspective surveying a broad range of social cultural heritage ecological and political matters in a single volume With a wide range of contributors many of whom are natives of the Middle East and North Africa this Handbook is a vital resource for students and scholars interested in Tourism Middle East Studies and Geography
