Davies, 2020-06-11 Using close visual analysis of drawings artist interviews critical analysis and exegesis *Drawing Investigations* examines how artists use drawing as an investigative tool to reveal information that would otherwise remain unseen and unnoticed How does drawing add shape to ideas How does the artist accommodate to challenges and restraints of a particular environment To what extent is a drawing complementary and continuous with its subject and where is it disruptive and provocative Casey and Davies address these questions while focusing on artists working collaboratively and the use of drawing in challenging or unexpected environments *Drawing Investigations* evaluates the emergence of a way of thinking among an otherwise disconnected group of artists by exploring commonalities in the application of analytical drawing to the natural world urban environment social forces and lived experience Examples represent a spectrum of research in international contexts an oceanographic Institute in California the archives of Amsterdam's Rijksmuseum the Antarctic Survey geothermal research in Japan and the Kurdish diaspora in Iraq Issues are situated in the contemporary theory and practice of drawing including relationships to historical precedents By exploring drawing's capacity to capture and describe experience to sharpen visual faculties and to bridge embodied and conceptual knowledge *Drawing*

Investigations offers a fresh critical perspective on contemporary drawing practice The Art of Controversy Victor S. Navasky, 2013 A lavishly illustrated witty and learned look at the awesome power of the political cartoon throughout history to enrage provoke and amuse Navasky a former editor of *The New York Times Magazine* and the longtime editor of *The Nation* guides readers through some of the greatest cartoons ever sketched **Social Avalanche** Christian Borch, 2020-01-09 A compelling account of how crowd dynamics or social avalanches are central to cities and financial markets Just as urban inhabitants are prone to being caught up in the city's flux the same dynamic can cause traders on

financial exchanges and even the algorithms of present day financial markets to be captured by the maelstrom of the market

Hay, 2017-11-04 This book offers a clear accessible account of the American litigation over the restitution of works of art taken from Jewish families during the Holocaust For the past two decades the courts of the United States have been an arena of conflict over this issue that has recently captured widespread public attention In a series of cases survivors and heirs have come forward to claim artworks in public and private collections around the world asserting that they were seized by the Nazis or were sold under duress by owners desperate to escape occupied countries Spanning two continents and three quarters of a century the cases confront the courts with complex problems of domestic and international law clashes among the laws of different jurisdictions factual uncertainties about the movements of art during and after the war and the persistent question whether restitution claims have been extinguished by the passage of time Through individual case studies the book examines the legal questions these conflicts have raised and the answers the courts have given From the internationally celebrated *Woman in Gold* lawsuit against Austria to lesser known claims against Germany Hungary Spain and museums and private collections in the United States the book synthesizes the legal and evidentiary materials and judicial rulings in each case creating a coherent narrative of proceedings that are often
