Against Extinction William Mark Adams, 2013 Conservation in the 21st century needs to be different and this book is a good indicator of why *Bulletin of British Ecological Society* *Against Extinction* tells the history of wildlife conservation from its roots in the 19th century through the foundation of the Society for the Preservation of the Wild Fauna of the Empire in London in 1903 to the huge and diverse international movement of the present day It vividly portrays conservation's legacy of big game hunting the battles for the establishment of national parks the global importance of species conservation and debates over the sustainable use of and trade in wildlife Bill Adams addresses the big questions and ideas that have driven conservation for the last 100 years How can the diversity of life be maintained as human demands on the Earth expand seemingly without limit How can preservation be reconciled with human rights and the development needs of the poor Is conservation something that can be imposed by a knowledgeable elite or is it

something that should emerge naturally from people's free choices. These have never been easy questions and they are as important in the 21st century as at any time in the past. The author takes us on a lively historical journey in search of the answers.

With SOE in Greece Tom Evans, 2018-04-30 Pat Evans parachuted into German occupied Northern Greece in September 1943. His mission as a SOE operative was to support the Greek resistance movement, carry out sabotage and commando operations and gather military intelligence. By this time Greece was not only a country ravaged by a brutal occupation but being torn apart by feuding political factions on the edge of civil war. Evans had to walk a tight rope between the Germans, the Communist directed ELAS Macedonians, irredentists and his own SOE masters in Cairo and Allied High Command. After the Nazis withdrew in late 1944 he was sent to Northern Greece to try and restore some form of normality amid the chaos of civil war. His success can be measured by the warmth in which the locals still remember him over 70 years on. This book draws on a wide range of sources including SOE and War Cabinet papers but it is Pat Evans' unpublished letters and reports that give the reader an insight into the challenge that he faced both operationally and politically. The result is a thrilling and informative book.

The Northern Conquest Katherine Holman, 2007 This book reveals another very different side of Viking society. It claims that the Viking legacy was not simply one of rape and pillage but included law and order, agriculture and trade as well as language and heroic literature. It also provides evidence that the influence of Scandinavians in the British Isles continued well after 1066.

Jacket *The Many Worlds of Anglophone Literature* Silvia Anastasijevic, Magdalena Pfalzgraf, Hanna Teichler, 2024-01-11 On what terms and concepts can we ground the comparative study of Anglophone literatures and cultures around the world today? What if anything unites the novels of Witi Ihimaera, the speculative fiction of Nnedi Okorafor, the life writings by Stuart Hall and the emerging Anglophone Arab literature by writers like Omar Robert Hamilton? This volume explores the globality of Anglophone fiction both as a conceptual framing and as a literary imaginary. It highlights the diversity of lives and worlds represented in Anglophone writing as well as the diverse imaginations of transnational connections articulated in it. Featuring a variety of internationally renowned scholars, this book thinks through Anglophone literature not as a problematic legacy of colonial rule or as exoticizing commodity in a global literary marketplace but examines it as an inherently transcultural literary medium. Contributors provide new insights into how it facilitates the articulation of divergent experiences of modernity and the critique of hierarchies and inequalities within and beyond post colonial societies.
