Final Report of the War Issues of the Students' Army Training Corps United States. War Department. Committee on Education and Special Training, Frank Aydelotte, 1919 **German Militarism and Its German Critics, Vol. 13** Charles Altschul, 2015-07-12 Excerpt from German Militarism and Its German Critics Vol 13 Fully Illustrated by Extracts From German Newspapers March 1918 The Great War has focussed the attention of all Americans upon political and social conditions in foreign countries and has familiarized them with many matters which had not occupied their minds before The feature which probably attracts more attention than any other is the difference in the respective points of view of the Teutonic and of the English speaking nations as revealed in all matters relating to war and warfare Character and habits of other peoples have been more closely studied than ever before and the aggressive leaders of the group of enemy nations the Germans have quite naturally come in for the closest scrutiny Accustomed as these leaders have been for many years to universal military service to a large standing army to officers drawn principally from the ranks of the nobility and to marked class distinctions they have absorbed and are now wedded to certain notions which to us who have grown up under very different conditions seem like worship of constituted authority and the unwarranted surrender of individual responsibility The gradual development of these very notions has brought about an inordinate influence of the military group in public affairs which at the present moment is frequently referred to and much discussed It may therefore not be amiss to try to throw some side lights on the subject About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Final Report of the War Issues of the Students' Army Training Corps** United States. Dr. Dan Mou,2016-12-30 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the seventy one percent 71% of Nigerias population still living below poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness the worst civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long
