winter warfare tactics and techniques of the US British German Soviet and Finnish armies of World War II

**Italian Navy & Air Force Elite Units & Special Forces 1940-45** Piero Crociani, Pier Paolo Battistelli, 2013-01-20 This volume assesses the formidable Special Forces fielded by Italy's navy and air force in World War II. Italian Navy Special Forces were particularly active and respected in the Mediterranean where 10th Motor Torpedo Boat Flotilla used frogmen, two-man torpedoes and explosive ram boats. The Italian Air Force formed a special commando unit ADRA before the 1943 surrender; it was tasked with attacking Allied airfields and communications in North Africa. Men from ADRA and Army paratroopers formed the new Folgore Regiment which also continued to fight alongside German forces until 1945. In both cases, the pro-Allied Italian forces also formed mirror units to fight alongside US and British forces including the Recce Squadron F. Featuring rare photographs and specially commissioned artwork, this book tells the story of the little-known elite forces fielded by Italy's navy and air force in World War II, some of whose successors remain in service with today's Italian armed forces.

**Crete 1941** Peter Antill, 2012-11-20 Operation Mercury, the German airborne assault on the island of Crete in May 1941, was the first strategic use of airborne forces in history. The assault began on 20 May with landings near the island's key airports, and reinforcements the next day allowed the German forces to capture one end of the runway at Maleme. By 24 May the Germans were being reinforced by air on a huge scale, and on 1 June Crete surrendered. This book describes how desperately close the battle had been and explains how German losses so shocked the Führer that he never again authorised a major airborne operation.

**Napoleonic Heavy Cavalry & Dragoon Tactics** Philip Haythornthwaite, 2013-07-20 During the Napoleonic Wars, the supreme battlefield shock weapon was the heavy cavalry: the French cuirassiers and their British, Austrian, Prussian and Russian counterparts. Big men mounted on big horses, the heavy cavalry were armed with swords nearly a metre long, used for slashing or thrusting at their opponents. Many wore steel armour, a practice revived by Napoleon. They were tasked with smashing a hole in the enemy's line of battle, with exploiting a weakness or with turning a flank. Their classic manoeuvre was the charge, arrayed in close order lines or columns; the heavy cavalry would begin their attack at the walk, building up to a gallop for the final 50 metres before impact. Illustrated with diagrams, relevant paintings and prints, and specially prepared colour plates, this is the first volume of a two-part study of the cavalry tactics of the armies of Napoleon and those of his allies and opponents. Written by a leading authority on the period, it draws upon drill manuals and later writings to offer a vivid assessment of how heavy cavalry actually fought on the Napoleonic battlefield.

**World War II Jungle Warfare Tactics** Stephen Bull, 2013-08-20 This book describes and illustrates in fascinating detail the slow and painful learning curve followed by the Allies in the mid-war years as they attempted to end the Japanese stranglehold on Southeast Asia and the Pacific. Based on the actual wartime training documents and front-line memoirs, it shows how the British, Australian and US armies transformed their tactics, attitudes and equipment to master the art of jungle warfare. In 1944-45 the Allies finally conquered the jungle environment, exploiting their new strengths and their enemy's weaknesses to

Rottman, 2012-09-20 When conscription was eliminated in the early 1970s the US Army found itself with a very different kind of soldier While the personality of the Army remained the same the organization of its higher levels of command and combat formations and the internal structure of its units underwent major changes under the Army of Excellence program of the 1980s This book explores the US Army of the late 80s including the training methods weapon systems Reserve Components organization and uniforms of one of the world s most potent fighting forces The text is illustrated with numerous photographs and eight colour plates **The US Navy in World War II** Mark Henry, 2012-08-20 In 1941 the US Navy had 17 battleships of which eight would be knocked out on the first day of the war four aircraft carriers and about 340 000 men including reservists Pearl Harbor so weakened it that it was unable to prevent the Japanese capture of the Philippines and a vast sweep of Pacific islands By 1945 it was the strongest navy the world had ever seen with nearly 100 carriers 41 000 aircraft and 3 3 million men the unrivalled master of air sea and amphibious operations it was poised to invade Japan s home islands after reducing her fleet to scrap and her Pacific empire to impotence and starvation This extraordinary story is illustrated here with dramatic photos and nine meticulous colour plates showing a wide range of USN uniforms
