German Multiculturalism Immigrant Integration And The Transformation Of Citizenship:

German Multiculturalism Brett Klopp, 2002-10-30 Migration asylum and citizenship have become unavoidable topics in contemporary European politics. Klopp examines the issues of immigration, integration, and multiculturalism in Germany, Europe's premier immigration country, through the perspectives of both immigrants and local institutions: unions, employers, schools, neighborhoods, and city government. Klopp addresses the potential for immigration patterns and increasing heterogeneity to produce the conditions for social transformation and specifically shows how these factors are challenging and gradually transforming the boundaries of citizenship and the nation in Germany. Theoretically, he argues against recent models of postnational and transnational membership that claim that the nation-state model of citizenship has been superseded by a new type of membership, one that guarantees individual rights via international human rights norms. Given the claims of these models, we should expect that long-term resident aliens will be satisfied with the partial citizenship rights (civil and social) extended to them by liberal European welfare states and that they will not identify with or seek political rights from their state of residence. On the contrary, Klopp suggests that national-state citizenship remains the essential form of formal social and political inclusion for the majority of immigrants. In the past, Germany has represented an extreme case of ethnocultural exclusion, and it is therefore something of a natural laboratory in which to examine the reciprocal measures and mechanisms of political and social change currently underway in Europe. Lessons learned from qualitative empirical examination of immigration and integration processes in Germany could prove instructive when compared to similar processes of transformation underway in the other traditional nation-states of Western Europe and in the efforts to define a common European identity. Provocative reading for scholars, students, and other researchers as well as policy makers involved with migration issues, comparative politics, and citizenship and contemporary German studies.

The Changing Faces of Citizenship Joyce Marie Mushaben, 2008 In contrast to most migration studies that focus on specific foreigner groups in Germany, this study simultaneously compares and contrasts the legal, political, social, and economic opportunity structures facing diverse categories of the ethnic minorities who have settled in the country since the 1950s. It reveals the contradictory and usually self-defeating nature of German policies intended to keep migrants out, allegedly in order to preserve a German *Leitkultur* with which very few of its own citizens still identify. The main barriers to effective integration and socioeconomic revitalization in general sooner lie in the country's obsolete labor market regulations and bureaucratic procedures. Drawing on local case studies, personal interviews, and national surveys, the author describes the human faces behind official citizenship and integration practices in Germany and, in doing so, demonstrates that average citizens are much more multicultural than they realize.

The Politics of Immigration. Is Germany Moving Towards a Multicultural Society? Samuel Skipper, 2017 The topic of immigration is never simple. Questions such as who belongs to society and how do you define national identity or what values are needed to maintain a coexisting society are extremely difficult to answer. Global

migration introduces unprecedented challenges for conceptualising the integration of immigrants On a European scale Germany can be said to represent the first destination for immigrants since its unification in 1989 On a global level Germany is the second largest immigrant receiving country after the United States Nevertheless only recently has Germany recognised and admitted that it is an ethnically and culturally diverse society Before the 1998 elections successive governments have always stuck to the maxim that Germany is not a country of immigration The infamous phrase came under increased pressure with the electoral victory of the Red Green coalition in 1998 New laws regarding immigration integration and citizenship were on the agenda with the aim of replacing the traditional ethnocultural model of German nationhood with a more liberal and modern model by moving away from the concepts of Volk and ius sanguinis The conservative CDU however accused the Schroder government of trying to jeopardize German cultural identity causing a fierce debate known as the Leitkultur Guiding culture debate On the one side of this debate there were the conservative CDU politicians who viewed Germany in ethno nationalist terms while on the other members of the Green Party and the SPD who attempted substituting the volkish tradition with a multicultural model of citizenship that guaranteed universal human rights The aim of this study is to assess which of these two models are currently prevailing in moulding immigration and integration policy Has the progressive left achieved its objective of moving away from the traditional ethnocultural and assimilationist model defining citizenship towards a more inclusive multicultural model

Dissertation Series Studien zu Migration und Minderheiten Studies in Migration and Minorities Vol 22 The Crisis of Multiculturalism in Europe Rita Chin, 2019-06-11 From the influx of immigrants in the 1950s to contemporary worries about refugees and terrorism The Crisis of Multiculturalism in Europe examines the historical development of multiculturalism on the Continent Rita Chin argues that there were few efforts to institute state sponsored policies of multiculturalism and those that emerged were pronounced failures virtually from their inception She shows that today's crisis of support for cultural pluralism isn't new but actually has its roots in the 1980s Chin looks at the touchstones of European multiculturalism from the urgent need for laborers after World War II to the public furor over the publication of The Satanic Verses and the question of French girls wearing headscarves to school While many Muslim immigrants had lived in Europe for decades in the 1980s they came to be defined by their religion and the public's preoccupation with gender relations Acceptance of sexual equality became the critical gauge of Muslims' compatibility with Western values The convergence of left and right

around the defense of such personal freedoms against a putatively illiberal Islam has threatened to undermine commitment to pluralism as a core ideal Chin contends that renouncing the principles of diversity brings social costs particularly for the left and she considers how Europe might construct an effective political engagement with its varied population Publisher web site [The Oxford Handbook of Modern German History](#) Helmut Walser Smith,2011-09-29 This is the first comprehensive

Anthropology of Migration and Multiculturalism Steven Vertovec, 2013-09-13 The field of anthropology of migration and multiculturalism is booming Throughout its hundred odd year history studies of migration and diverse or plural societies have arguably been both marginal and central to the discipline of Anthropology However recent years have witnessed the rapid growth of anthropological studies concerning these topics This has particularly been the case since the 1970s when anthropologists developed a keen interest in the subject of ethnicity especially in post migration communities Since the

1990s migrant transnationalism has become one of the most fashionable topics There is still much to do in research and theory surrounding this field not least with regard to contemporary public debates around multiculturalism immigration and integration policy This book presents essays pointing toward a number of possible new directions both theoretical and methodological for anthropological inquiry into migration and multiculturalism including innovative ways of examining diversity discourses urban conditions social complexities scales of analysis transnational marriages entangled politics and interwoven cultures This book was published as a special issue of the Ethnic and Racial Studies
