Esoteric Egypt The Sacred Science Of The Land Of Khem:

Esoteric Egypt J. S. Gordon, 2015-01-30 A study of the 100 000 year old spiritual science of ancient Egypt Examines the metaphysical structure of our universe as seen by the ancient Egyptians Greeks and Celts showing that each is based on the same central concepts from time immemorial Reveals that the ancient Egyptians believed in reincarnation and a spiritual evolutionary process Explains the connections between the movements of Orion and Sirius and the story of Osiris and Isis the importance of the Pleiades and circumpolar stars to the Egyptians and the fundamental unity of the Egyptian pantheon Investigates the people who colonized greater Egypt 100 000 years ago descendants of the Atlanteans In Esoteric Egypt J S Gordon reveals how the sacred science and wisdom tradition of ancient Egypt the Land of Khem stems from an advanced prehistoric worldwide civilization Examining the metaphysical structure of our universe as seen by the ancient Egyptians Greeks and Celts he shows that each tradition is merely a variation on the central concepts of the precession of the equinoxes and the obliquity of the ecliptic pole He explores the connections between the cyclical movements of Orion and Sirius and the story of Osiris and Isis the importance of the Pleiades and the circumpolar stars and the ancient tradition of man as a divine being born from the substance of the stars He investigates the people who colonized greater Egypt 100 000 years ago the progenitors of ancient Egyptian civilization descended from the 4th and 5th Root Race Atlanteans Gordon explores the magical and esoteric meanings behind Egyptian sacred ritual and temple art drawing parallels to the Mystery School process of initiation Explaining the fundamental unity of the Egyptian pantheon and the structure of the after death state he shows that the Egyptians clearly believed in reincarnation and a spiritual evolutionary process Revealing the ancient sacred science of the Land of Khem teachings passed down from the earliest times he examines the psychospiritual nature of the human being and the function of our spiritual identity and our souls *DELETED ISBN To Be Announced, 2015 Deleted*

Awakening Higher Consciousness Lloyd M. Dickie, Paul R. Boudreau, 2015-04-23 Explains the relevance of ancient myths to the awakening to higher states of consciousness and enlivened experience of the world Shows how higher consciousness can arise within each of us by following the guidance found in ancient myths Reveals how myths influence our personal development without our awareness through their influence on our core values and culture Examines ancient Sumerian Egyptian Babylonian and Hebrew myths such as the Epic of Gilgamesh and the story of Osiris and Isis In this study of ancient Sumerian Egyptian Babylonian and Hebrew myths authors Lloyd M Dickie and Paul R Boudreau show that many classic myths contain instructions for awakening higher consciousness allowing access to enlivened experience of the world and awareness of the divine within and around us Inspired by the work of R A Schwaller de Lubicz the authors deeply examine creation myths and well known ancient myths from Mesopotamia and Egypt such as the Epic of Gilgamesh and the story of Osiris and Isis They reveal that these myths are not behavioral morality tales but actual delineations of how a higher order can arise within each of us The authors explain how these stories teach us to distinguish the heaven within from the

earth within us to find the essential part of our being that provides a link with our higher powers Spending more than a year onsite in Egypt to personally connect with the myths the authors explain how ancient storytellers intentionally chose myths as a vehicle for teachings because story has a seed like capacity to implant itself in the unconscious and influence development without the individual being aware of it By crafting these sacred narratives the ancient Sumerians and Egyptians provide tools to awaken to the presence of higher consciousness as well as a road map for the individual to come into conscious alignment with the perpetual unfolding of the universe

The Secret Chamber of Osiris Scott Creighton,2014-12-15 Reveals the true purpose behind the pyramids of Giza and the location of the secret vault of Egyptian treasures hidden on the Giza plateau Details how the first 16 pyramids represent the allegorical dismembered body of Osiris and the legendary missing part is a secret underground chamber Explains how the pyramids were built as recovery vaults and with the secret chamber contained everything needed to rebuild civilization after the Deluge Examines the technology used to build the pyramids and fly the stones into place After nearly 200 years of the pyramid as tomb theory a growing body of evidence suggests the first 16 pyramids of ancient Egypt were not royal tombs but nearly indestructible recovery vaults designed to revive civilization after an anticipated major catastrophe the Deluge of Thoth Scott Creighton examines the prophecy of catastrophe and the ancient Egyptians massive undertaking to ensure the survival of their civilization He explains how the pyramids acted as easily located storehouses for seeds tools and civilizing knowledge yet they would have been too visible to house the precious treasures necessary to restore the rich culture of ancient Egypt For this the ancients created a secret chamber whose existence was hidden in myth and whose location was encoded in the Giza pyramids Creighton shows how collectively the first 16 pyramids represent the

allegorical dismembered body of Osiris the Egyptian god of agriculture and rebirth and as in the myth of Osiris one part is missing or hidden a secret chamber under the sands of the Giza plateau Creighton reveals how the 3 great pyramids of Giza point to the secret location and how they were built with technology akin to modern hot air balloons used to fly the stones into place as cited in Egyptian legends and shown in ancient art Offering a new understanding of this remarkable civilization the author concludes with a startling revelation shortly after he revealed the location of the secret chamber of Osiris a location never before explored it became the site of a major excavation by the Egyptian authorities the results of which have yet to be made public Sacred Symbols of the Dogon Laird Scranton,2007-10-12 Dogon cosmology provides a new Rosetta stone for reinterpreting Egyptian hieroglyphs Provides a new understanding of Egyptian hieroglyphs as scientific symbols based on Dogon cosmological drawings Use parallels between Dogon and Egyptian word meanings to identify relationships between Dogon myths and modern science In The Science of the Dogon Laird Scranton demonstrated that the cosmological structure described in the myths and drawings of the Dogon runs parallel to modern science atomic theory quantum theory and string theory their drawings often taking the same form as accurate scientific diagrams that relate to the formation of matter Scranton also pointed to the close resemblance between the keywords and component elements of Dogon cosmology and those of ancient Egypt and the implication that ancient cosmology may also be about actual science Sacred Symbols of the Dogon uses these parallels as the starting point for a new interpretation of the Egyptian hieroglyphic language By substituting Dogon cosmological drawings for equivalent glyph shapes in Egyptian words a new way of reading and interpreting the Egyptian hieroglyphs emerges Scranton shows how each hieroglyph constitutes an entire concept and that their meanings are scientific in nature Using the Dogon symbols as a Rosetta stone he reveals references within the ancient Egyptian language that define the full range of scientific components of matter from massless waves to the completed atom even suggesting direct correlations to a fully realized unified field theory

The Spiritual Technology of Ancient Egypt Edward F. Malkowski, 2007-10-03 How ancient Egyptians understood quantum theory Investigates the history of how modern religion and the Age of Science were inspired by the sacred science of the ancients Examines how quantum theory explains that the cosmos arises from consciousness Reveals the unanimity between Schwaller de Lubicz's sacred science and the science of a cosmos governed by quantum mechanics Since the dawn of the Age of Science humankind has been engaged in a methodical quest to understand the cosmos With the development of quantum mechanics the notion that everything is solid matter is being replaced with the idea that information or thought may be the true source of physical reality Such scientific inquiry has led to a growing interest in the brain's unique and mysterious ability to create perception possibly through quantum interactions Consciousness is now being considered as much a fundamental part of reality as the three dimensions we are so familiar with Although this direction in scientific thought is seen as a new approach the secret wisdom of the ancients presented just such a view thousands of years ago Building on René Schwaller de Lubicz's systematic study of Luxor's Temple of Amun Mut Khonsu during the 1940s and 50s Edward Malkowski shows that the ancient Egyptians' worldview was not based on superstition or the invention of myth but was the result of direct observation using critical faculties attuned to the quantum manifestation of the universe This understanding of reality as a product of human consciousness provided the inspiration for the sacred science of the ancients precisely the philosophy modern science is embracing today In the philosophical tradition of Schwaller de Lubicz The

Spiritual Technology of Ancient Egypt investigates the technical and religious legacy of ancient Egypt to reveal its congruence with today's New Science

Egyptian Sacred Science in Islam Rafiq Bilal,Thomas Goodwin,198? **Esoterism and Symbol** R. A. Schwaller de Lubicz,1985-02-01 This is an initiation into the tone structure and mentality of Egyptian knowledge the basis of all Western theology and science It is a redefinition of those concepts which are basic to the pharaonic transmission the glory of ancient Egypt The author explores the process of becoming as related to consciousness and revealed in nature the kinship between man and the mineral plant and animal kingdoms the stages of awareness leading to Cosmic Consciousness and the mystery of the formation of substance into matter Ancient Egypt and Modern Psychotherapy Todd Hayen,2016-12-19 In Ancient Egypt and Modern Psychotherapy Todd Hayen explores what the spiritual concepts of the enigmatic ancient Egyptians can teach us about our own modern psyches and the pursuit of a meaningful life Hayen examines the ancient Egyptians possession of a concept contemporary academics have labeled consciousness of the heart an innate knowledge of the entirety of the universe While all human beings possess this consciousness of the heart our modern culture has largely lost the ability to tap into this inborn knowledge By examining the material accomplishments of ancient Egypt and how their seemingly deeper awareness of their inner world created a harmonious outer world we can begin to understand how modern psychotherapy through a Jungian perspective could be instrumental in achieving a more profound and meaningful personal experience of life Ancient Egypt and Modern Psychotherapy will be insightful reading for analytical psychologists in practice and in training Jungian psychotherapists and psychologists and academics and students of Jungian and post Jungian studies and ancient spirituality Ancient Egyptian Sacred Science and The Loss of Soul in Modern Materialism Todd Hayen,2014 The ancient Egyptians believed that the material world as well as the imaginal inner world was infused with spirit and spirits They believed in a wholly integrated reality which included the physical forms of nature as well as the unseen images gods goddesses powers symbols and meanings that go beyond a rational intelligent comprehension but rather present a harmonized inner and outer perception of reality This study utilizes an alchemical hermeneutic research methodology which advocates research with soul in mind using meditative transference dialogues to inform the scholarly research and interpretation of resources used to investigate the spiritual substance of these important concepts such as the psyche to matter problem and the possible loss of soul in a modern materialist paradigm This inquiry explores how ancient Egyptian sacred science relates to the variety of ways in which humankind has defined soul and spirit how this ancient Egyptian way of being could be integrated in modern modalities of science and how this integration would impact today s understanding of

The study proposes how a modern shift into this ancient cosmology might benefit today's sciences medicine and most significantly the practice of psychotherapy which from a conventional perspective is presently considered from a largely materialistic perspective with little or no regard for the unseen and the immeasurable presence of soul Conclusions are drawn regarding the personal impact of the study on the researcher efforts toward a methodology of psychotherapy practice integrating the concepts of ancient Egyptian sacred science and the limitations of adopting a modern cosmology rooted in an ancient way of being *Sacred Science* R. A. Schwaller de Lubicz, 1982
