Independence Day M. B. B. Biskupski, 2012-09-13 The 11th of November 1918 Polish Independence Day is a curious anniversary whose commemoration has been only intermittently observed in the last century In fact the day and the several symbols that rightly or wrongly have become associated with it has a rather convoluted history filled with tradition and myth which deserves attention Independence Day is more than just the history of a day or the evolution of its celebration but an explanation of what meaning has come to be associated with that date It offers a re reading of Polish history not by a series of dates but through a series of symbols whose combination allows the Poles to understand who they are by what they have been Its focus is on the era 1914 2008 and the central actor is the charismatic Jozef Pilsudski He came to represent a disposition regarding the meaning of Polish history which eventually penetrated virtually all of modern Polish society The work is constructed by the analysis of memoirs documents coins stamps films maps monuments and many other features making it a multi disciplinary and multi dimensional volume
