Essays on the Civil War and Reconstruction William Archibald Dunning, 1969

The Civil War and Reconstruction [Second Edition] Prof. J. G. Randall, Prof. David Donald, 2016-08-09 This is a revised edition by David Herbert Donald of his former professor J G Randall s book The Civil War and Reconstruction which was originally published in 1937 and had long been regarded as the standard work in its field serving as a useful basic Civil War reference tool for general readers and textbook for college classes This Second Edition retains many of the original chapters such as those treating border state problems non military developments during the war intellectual tendencies anti

war efforts religious and educational movements and propaganda methods bearing evidence of Mr Randall s thoroughgoing exploration of the manuscripts and archives whilst it expands considerably on other original chapters such as those relating to the Confederacy Still other portions have been entirely recast or rewritten such as the pre war period chapters and Reconstruction chapters reflecting factual updates since Randall s original publication A must read for all Civil War students and scholars *Essays on the Civil War and Reconstruction* William Archibald Dunning,1990-01-01 **The Era of the Civil War--1820-1876** Louise A. Arnold-Friend,US Army Military History Institute,1982 **The World the Civil War Made** Gregory P. Downs,Kate Masur,2015-07-22 At the close of the Civil War it was clear that the military conflict that began in South Carolina and was fought largely east of the Mississippi River had changed the politics policy and daily life of the entire nation In an expansive reimagining of post Civil War America the essays in this volume explore these profound changes not only in the South but also in the Southwest in the Great Plains and abroad Resisting the tendency to use Reconstruction as a catchall the contributors instead present diverse histories of a postwar nation that stubbornly refused to adopt a unified ideology and remained violently in flux Portraying the social and political landscape of postbellum America writ large this volume demonstrates that by breaking the boundaries of region and race and moving past existing critical frameworks we can appreciate more fully the competing and often contradictory ideas about freedom and equality that continued to define the United States and its place in the nineteenth century world Contributors include Amanda Claybaugh Laura F Edwards Crystal N Feimster C Joseph Genetin Pilawa Steven Hahn Luke E Harlow Stephen Kantrowitz Barbara Krauthamer K Stephen Prince Stacey L Smith Amy Dru Stanley Kidada E Williams and Andrew Zimmerman **actual government** albert bushnell hart,1903 Monthly Bulletin St. Louis Public Library,1903
