Financial Services, Financial Crisis and General European Contract Law Stefan Grundmann, Ye?im M. Atamer, 2011-01-01 Speculation is rife on the origins of the worldwide financial crisis of 2008 with a preponderance focusing on alleged shortcomings in corporate governance This book offers a distinct yet complementary perspective that the most useful path to follow if we want to understand what happened and forestall its happening again is through an analysis of contract relationships specifically banking contracts entered into in the financial services sector considered under the rubric of contract law rather than company law Because banking is the area of European contract law which is most thoroughly developed banking contracts can be seen as paradigmatic of typical assumptions and shortcomings often examined in the more general debate on contract law And indeed the very thoroughness of European banking contract law makes it a promising ground on which to build effective preventive measures In this book thirteen noted scholars recognizing that modern contract law must take into account global markets and risks consider banking contracts within networks and within mass transactions Always attending to the long term relationships that characterize financial services contracts they focus on such cross sector issues as the following rule setting and the question of who should best regulate and at which level networks of contracts as the backbone of a market economy the complex interplay between market regulation and traditional contract law avoiding erroneous assumptions about the future development of prices the passing on of the risk via securitization rating relationships affected by conflicts of interests remuneration problems core duties of information and advice in an agency relationship in services fiduciary duties of loyalty and care types of clients and level of protection differentiation in information available on various markets and the question of enforcement

The PPLI Solution Kirk Loury, 2010-07-23 Private placement life insurance PPLI was once the exclusive domain of wealthy investors willing to tackle the logistical challenges of the offshore insurance market The investment portfolio tax and estate planning applications and ongoing investment potential of these policies made the effort worthwhile In recent years though a number of U S based insurance companies have developed similar policies that meet all U S insurance investment and tax regulations PPLI is becoming a fundamental component of effective tax trust and estate planning but few sources have been available to detail the best practices until now The PPLI Solution can serve as a resource for effective execution Written by leading practitioners the book will position advisers to capitalize as

PPLI expands further into the high net worth market and becomes available to individuals with an investable net worth as low as 1 million Few investors whatever their net worth will want to venture into the PPLI market without guidance The PPLI Solution addresses the needs of investment managers consultants attorneys and accountants who want to achieve the broad understanding of PPLI s applications required of those providing advice It can serve as an authoritative source for anyone including investors seeking to know more about PPLI s nearly perfect tax efficiency solid creditor protection and powerful means of creating wealth

European Yearbook of International Economic Law 2016 Marc Bungenberg, Christoph Herrmann, Markus Krajewski, Jörg Philipp Terhechte, 2016-07-16 Volume 7 of the EYIEL focusses on critical perspectives of international economic law Recent protests against free trade agreements such as the Transatlantic Trade and Investment Partnership TTIP remind us that international economic law has always been a politically and legally contested field This volume collects critical contributions on trade investment financial and other subfields of international economic law from scholars who have shaped this debate for many years The critical contributions to this volume are challenged and sometimes rejected by commentators who have been invited to be critical with the critics The result is a unique collection of critical essays accompanied by alternative and competing views on some of the most fundamental topics of international economic law In its section on regional developments EYIEL 7 addresses recent megaregional and plurilateral trade and investment agreements and negotiations Short insights on various aspects of the Transpacific Partnership TPP and its sister TTIP are complemented with comments on other developments including the African Tripartite FTA und the negotiations on a plurilateral Trade in Services Agreement TiSA Further sections address recent WTO and investment case law as well as recent developments concerning the IMF UNCTAD and the WCO The volume closes with reviews of recent books in international economic law
