Reason What is the concept of Argumentation What is meant by Real How can Education be improved What about Good and Evil How much should you believe that emanates from the mouth of a Pathological Liar Who will answer such questions It may have to be individuals who have free and open minds capable of independent thought It will be people like you Professor Zenner shows that most of these questions have reasonable answers some with certainty and others with mere speculation The writing provides basic tools for both inadequately and for highly educated persons to develop and judge their own answers People who comprehend the human function of cognition are better able to understand themselves and the world which we all share Many people would like to be able to better reason and judge the accuracy of answers to the myriads of pertinent questions of our times They want to believe in a better future And you are one of those persons A PREVIEW So Mr Zenner from the title of your book you must realize that I already know a lot No matter you seem to think I need more smarts And step by step you will point the way theyll be mine for the taking Thats right Not just you probably most persons in every society especially at this particular time in America you and all people need *New SAT: Critical Reading (SparkCharts)* ,
