**Gawkers** Bridget Alsdorf, 2022-03-22 How

the urban spectator became the archetypal modern viewer and a central subject in late nineteenth century French art. Gawkers explores how artists and writers in late nineteenth century Paris represented the seductions, horrors and banalities of street life through the eyes of curious viewers known as badauds. In contrast to the singular and aloof bourgeois flâneur, badauds were passive, collective, instinctive and highly impressionable. Above all, they were visually captivated by the sights of everyday life. Beautifully illustrated and drawing on a wealth of new research, Gawkers excavates badauds as a subject of deep significance in late nineteenth century French culture as a motif in works of art and as a conflicted model of the modern viewer. Bridget Alsdorf examines the work of painters, printmakers and filmmakers who made badauds their artistic subject, including Félix Vallotton, Pierre Bonnard, Henri de Toulouse-Lautrec, Honoré Daumier, Edgar Degas, Jean-Léon Gérôme, Eugène Carrière, Charles Angrand and Auguste and Louise Lumière. From morally and intellectually empty to sensitive, empathetic and humane, the gawkers these artists portrayed cut across social categories. They invite the viewer's identification even as they appear to threaten social responsibility and the integrity of art. Delving into the ubiquity of a figure that has largely eluded attention, idling on the margins of culture and current events, Gawkers traces the emergence of social and aesthetic problems that are still with us today.

*Monet's Minutes* André Dombrowski, 2023-01-01. A stunning exploration of the vital links between Claude Monet's Impressionism and the time technologies that helped define modernity in the nineteenth century. *Monet's Minutes* is a revelatory account charting the relationship between the works of Claude Monet (1840-1926), founder of French Impressionism and one of the world's best known painters, and the modern experience of time. Andrzej Dombrowski illuminates Monet's celebration of instantaneity in the context of the late nineteenth century time technologies that underwrote it. Monet's version of Impressionism demonstrated an acute awareness of the particularly modern pressures of time, but until now scholars have not examined the histories and technologies of time and timekeeping that informed Impressionism's major stylistic shifts. Arguing that the fascination with instantaneity rejected the dulling cultures of newly routinized and standardized time, *Monet's Minutes* traces the evolution of Monet's art to what were then seismic shifts in the shape of time itself. In each chapter, Dombrowski focuses on the connections between a set of Monet's works and a specific technology or experience of time, while providing the voices of period critics responding to Impressionism. Grounded in exceptional research and analyses, this book offers new interpretations of key works by Monet and a fresh perspective on late nineteenth century art, society and modern temporality.

**Art, Vision, and Nineteenth-Century Realist Drama** Amy Holzapfel, 2014-01-03. Realism in theatre is traditionally defined as a mere seed of modernism, a crude attempt to reproduce an exact copy of reality on stage. *Art Vision Nineteenth Century Realist Drama* redefines realism as a complex and under-examined form of visual modernism, one that positioned theatre at the crux of the encounter between consciousness and the visible world. Tracing a historical continuum of acts of seeing on the realist stage, Holzapfel demonstrates how theatre participated in modernity's aggressive interrogation of vision's residence in the human body. New findings by scientists and

philosophers such as Diderot Goethe M ller Helmholtz and Galton exposed how the visible world is experienced and framed by the unstable relativism of the physiological body rather than the fixed idealism of the mind Realist artists across media paradoxically embraced this paradigm shift by focusing on the embodied observer Drawing from extensive archival research Holzapfel conducts close readings of iconic dramas and their productions including Scribe s *The Glass of Water* Zola s *Th r se Raquin* Ibsen s *A Doll House* Strindberg s *The Father* and Hauptmann s *Before Sunrise* alongside analyses of artwork by major painters and photographers such as Chardin Nadar Millais Rejlander and Liebermann In a radical challenge to existing criticism Holzapfel argues that realism in theatre was never the attempt to reproduce an exact copy of the seen world but rather the struggle to make visible the act of seeing **Drawing Pedagogy in Modern France** Shana Cooperstein,2024-07-31 This study uncovers the plethora of new innovative drawing strategies that shaped French visual arts at the height of France s imperial power Horace Lecoq de Boisbaudran Eugene Guillaume and F lix Ravaisson among others designed new drawing procedures that responded to leading concerns of modern art and the exigencies of modern life landscape painting and picturesque tourism industrial design and the use of drawing as vehicles of knowledge production and in social control From graphic regimes that were purement math matique and demanded the practice of orthographic projection to those that privileged the articulation of proportions and the cultivation of an internal measuring system fin de si cle educators in the fine and applied arts radically transformed drawing strategies and its history The shifting parameters of drawing pedagogy and practice unfold onto a wider set of theoretical concerns central to humanistic inquiry and art making today the philosophy and cultural history of habit based learning the relation between industrialization and drawing and the relation between art and mathematics The book will be of interest to scholars working in art history French studies history of art education history of philosophy and history of science **Microclimate for Cultural Heritage** Dario Camuffo,2019-06-25 Microclimate for Cultural Heritage Measurement Risk Assessment Conservation Restoration and Maintenance of Indoor and Outdoor Monuments Third Edition presents the latest on microclimates environmental issues and the conservation of cultural heritage It is a useful treatise on microphysics acting as a practical handbook for conservators and specialists in physics chemistry architecture engineering geology and biology who focus on environmental issues and the conservation of works of art It fills a gap between the application of atmospheric sciences like the thermodynamic processes of clouds and dynamics of planetary boundary layer and their application to a monument surface or a room within a museum Sections covers applied theory environmental issues and conservation practical utilization along with suggestions examples common issues and errors Connects theory to practice with clear illustrations useful examples and case studies Covers practical issues e g rising damp moulds and pests indoor heating thermal comfort green lighting technology performing field surveys Presents the latest standards for measuring cultural assets and their environment Discusses climate change and indoor outdoor potential scenarios including sea level rise **The American Musical** Marc Bauch,2003 Although almost neglected in research and

studies on American Literature the American Musical is certainly the most interesting and the most popular genre of American theater and drama It has been influenced by the necessities of a self funding commercial theater system of a democratic country The fact that it has developed in a country of democracy means that it should be a genre for everyone the intellectual and the common man Broadway has provided all these In his study Marc Bauch analyzes three American Musicals namely South Pacific 1949 by Richard Rodgers and Oscar Hammerstein West Side Story 1957 by Leonard Bernstein Arthur Laurents and Stephen Sondheim as well as Sunday in the Park with George 1984 by Stephen Sondheim and James Lapine Special attention is paid to the themes and topics the literary means and the dramatic dodges of the aforementioned American Musicals The three analyses are extended with historical overviews of the American Musical Marc Bauch is also the author of Themes and Topics of the American Musical after World War II 2001 also published by Tectum Verlag

Careful the Spell You Cast Ben Francis, 2023-02-09 Stephen Sondheim is one of the best known and most loved musical theatre composers but also one of the most misunderstood often being labelled as distant or cynical Careful the Spell You Cast instead argues that Sondheim firmly belongs to the Broadway

aspirational tradition in that many of his characters are defined by their dreams to abandon one's dream as Ben does in *Follies* Frank does in *Merrily We Roll Along* and Addison does in *Road Show* is to lose one's soul Rather than take the established view of Sondheim as a cynic this book contends that throughout Sondheim's work letting go of one's illusions is a process that his characters need to go through that they must cast off illusions and false dreams without becoming cynical and destroying their genuine dreams in the process In turn this view aligns Sondheim's work as being aspirational and a logical continuation from the work of his mentor Oscar Hammerstein II Following the trajectory of Sondheim's career *Careful the Spell You Cast* shows how Sondheim has dramatized this process throughout his writing life alongside different collaborators From his work as a lyricist with the musicals *Gypsy* and *West Side Story* through to his later collaborations with Hal Prince Company *Follies* and James Lapine *Into the Woods* *Sunday in the Park with George* this book reframes the established view through lyrical and structural analysis in relation to the characters within each of these celebrated works of musical theatre arguing that Sondheim is in the popular sense of the word a romantic within the tradition of the Broadway musical
