More than a Test Score Melinda Strickland, 2012-05-10 No matter what variety of educational program is used to motivate students, the bottom line is knowing the people within the circle of influence are behind every effort the student faces. Our students are the future leaders, parents, workers, and citizens of our society. While tests and accountability are very important, the outcome is far greater than basing achievement on individual performance on tests. Information included in *More Than a Test Score* derives from educators who empower students to take ownership in their educational journey by using a variety of strategies and programs to meet the needs of the students. The strategies target academic, behavioral, and social components in education. Each successful program has one common element that rises above anything else, and that is the element called empowerment. Building relationships is one of the main keys to success in school, and every endeavor faced by the youth of our society. Success stories are included to show how caring has made a difference with all those involved.
