Transforming the Patient Experience William T. Choctaw, 2015-10-29 This book provides an organizational model of the common ground needed to improve patient care and adapt to today's healthcare environment. The relationship between a hospital CEO and a general surgeon and how they aligned, motivated and partnered with physicians to change the culture of a hospital and implement patient-oriented systems is the essential element of this text. Sustainable transformation processes will also be presented for the various roles and contributions of the healthcare team. Written from a team perspective, *Transforming the Patient Experience* is a practical guide for healthcare team members and leaders to follow. Kelly Vana's Nursing Leadership and Management Patricia Kelly Vana, Janice Tazbir, 2021-03-30 Nursing Leadership Management Fourth Edition provides a comprehensive look at the knowledge and skills required to lead and manage at every level of nursing, emphasizing the crucial role nurses play in patient safety and the delivery of quality health care. Presented in three units, readers are introduced to a conceptual framework that highlights nursing leadership and management responsibilities for patient-centered care delivery to the patient, to the community, to the agency and to the self. This valuable new edition includes new and up-to-date information from national and state health care and nursing organizations as well as new chapters on the historical context of nursing leadership and management and the organization of patient care in high-reliability health care organizations. Explores each of the six Quality and Safety in Nursing (QSEN) competencies: Patient-Centered Care, Teamwork and Collaboration, Evidence-based Practice (EBP), Quality Improvement (QI), Safety, and Informatics. Provides review questions for all chapters to help students prepare for course exams and NCLEX state board exams. Features contributions from experts in the field with perspectives from bedside nurses, faculty, directors of nursing, nursing historians, physicians, lawyers, psychologists and more. *Nursing Leadership Management Fourth Edition* provides a strong foundation for evidence-based high-quality health care for undergraduate nursing students, working nurses, managers, educators and clinical specialists. Health Care System Transformation for Nursing and Health Care Leaders Anne Boykin, Savina Schoenhofer, Kathleen Valentine, 2013-09-10 The authors' approach to creating a transforming culture through use of foundations laid in the theoretical development of Nursing as Caring offers a solid foundation upon which to recalibrate and reconfigure toward a caring organizational health system. Tim Porter O'Grady, DM, EdD, APRN, FAAN, FACCWS, Associate Professor, Leadership Scholar, College of Nursing and Healthcare Innovation, Arizona State University; Clinical Professor, Leadership Scholar, College of Nursing, The Ohio State University. This is a time-tested practical guide for nurses and other healthcare professionals who wish to transform their healthcare systems based on caring values and the promotion of intra and inter-professional dialogue among stakeholders. It describes a theoretically grounded model created by nurses for transforming the culture of healthcare systems at all levels and features tested strategies that facilitate accessibility, efficiency, effectiveness and enhanced outcomes. At its most basic level, this model, the Dance of Caring Persons, expresses the

fundamental beliefs and attitudes that each person in the healthcare system lives caring meaningfully in unique and valuable ways and the contributions of each person to the whole of the enterprise have a significant place within it The book features successful examples of how various units of the healthcare system can apply specific strategies to their inter and intra professional work and how to engage and sustain authentic dialogue among and between stakeholders Chapters feature information from a great variety of health professionals that represent a broad range of participants in healthcare Detailed information is presented in a variety of formats ranging from formal written responses to chapter contents to transcriptions of small group conversations relating to the topic at hand The book reflects the interests of such major stakeholders as patients and families nurses physicians and other primary and adjunctive care providers ancillary service providers administrators and managers and all other individuals involved in the many aspects of organizational models and delivery of health care and human resource functions and outcomes Each chapter includes questions to consider and suggested resources to help with implementation of strategies The text incorporates professional standards and essentials from the Joint Commission ANCC and AACN DNP Key Features Presents a theoretically grounded proven caring based model for healthcare system change for all stakeholders across the continuum of care Provides practical strategies for transformation in all aspects of a healthcare system applicable across the range of health services Describes how healthcare system change happens who initiates it and how to sustain it through caring science Includes success stories from patients and their families nurses physicians ancillary service providers healthcare administrators and others Promotes inter and intra professional dialogue and collaboration

Transforming Leadership, Improving the Patient Experience Alan T. Belasen, Ph.D., Barry Eisenberg, Ph.D., Jill Borgos, Ph.D., 2024-02-27 This book focuses on the patient experience as a leadership strategy It explores the relationships between coordinated care expert leadership provider patient communications and the patient experience When clinical and nonclinical staff collaborate effectively healthcare teams can improve patient outcomes prevent medical errors improve efficiency and increase patient satisfaction Surprisingly however healthcare leaders tend to prioritize specific metrics to improve hospital performance and patient satisfaction even though patient experience and provider patient communications are intertwined Determining the most effective strategy for achieving higher levels of service quality and patient satisfaction can prove elusive for providers Consider the evidence a survey in 2012 of more than 17 000 healthcare leaders in North America for example found that leaders perceptions did not always match the data and many hospital leaders overestimated the performance of their hospitals Over 75% of the hospital leaders reported quality of care was something their hospital did well while their patients on average rated them lower on perceived service quality Ten years later in 2022 only a few providers integrated best practices to achieve high patient satisfaction which severely

impacted CMS Hospital Star Rating This has significant effects on profit margins since patients consider the star rating differentials in their choices of hospitals and are willing to pay upward of 17% extra for treatments in 5 star hospitals a revenue generating source of income at times when hospitals have seen falling revenues down 4 8% and rising labor up 37% from pre COVID 19 pandemic levels To reduce the gap between perception and reality hospital leaders can consider the link between communication goals e g responsiveness of hospital staff pain management communication about medicines and outcomes e g increased adherence and compliance readmission healthcare delivery costs hospital overall ratings as well as improve the patient experience When intentions and outcomes are aligned they create a powerful medium by which healthcare leaders can evaluate the gaps that exist between patient care measures and best practices and mitigate organizational or technological factors relevant to improving the patient experience When the alignment is optimal care teams develop a better sense of shared purpose become more committed and accountable and work together to improve the patient experience When accomplished patients participate more fully and actively in the exchange and are discharged with an enhanced commitment to carry out care management requirements Key topics in this practical guide include provider patient communications demonstrating the value of patient focused care how physician and nurse executives use synergy as a strategy engaging board members in promoting quality and safety goals and in developing hospital community partnerships building bridges between physicians administrators trustees and hospital staff and developing a leadership pipeline **The**
