Downtown St. Paul Eric Nathanson, 2019-03-04 Minnesota's capital city was given a lofty identity when young Catholic priest Lucien Gaultier built a modest log chapel in a wilderness clearing and named it for his patron saint St Paul's modern downtown would later take shape at this very site In the mid 19th century St Paul's strategic location at the head of navigation on the Mississippi River was naturally suited as a way station for goods and a hub for settlers pouring into the Upper Midwest While St Paul had to relinquish its ranking as Minnesota's largest city to its twin Minneapolis the city remains at the center of state politics as Minnesota's state capital Following World War II a suburban boom weakened the business district and downtown St Paul fell into decline Over the last 40 years however St Paul's downtown has been reinvented as a major sports entertainment and cultural center

Rodriguez, 2004 An in depth look at trends in North American internal migration This volume gathers established and new scholars working on North American immigration transmigration internal migration and citizenship whose work analyzes the development of migrant and state level institutions as well as migrant networks With contemporary migration research most often focused on the development of transnational communities and the ways international migrants maintain relationships with their sending region that sustain the circularflow of people ideas and traditions across national boundaries it is useful to compare these to similar patterns evident within the terrain of internal migration To date however international and internal migration studies have unfolded in relative isolation from one another with each operating within these distinct fields of expertise rather than across them Although there has been some important linking there has not been a recent major consideration of human migration that works across and within the various borders of the North American continent Thus the volume presents a

variety of chapters that seek to consider human migration in comparative perspective across the internal international divide
