multitalented man In our increasingly partisan and fragmented political system Howard Baker's legacy stands as a symbol of the way things should be He sought consensus and compromise where partisans wanted to fight rather than govern And he insisted that civility must be part of our character lest we surrender to the evils of spite and recrimination Senator William S Cohen R Maine Lee Annis's volume is a wonderful book about a man who all of his life has worked to give public service a good name No one in politics is more respected than Howard Baker This is a timely read in an age when there is so much cynicism about government It will give you hope Lamar Alexander A wonderful book about a truly good man who has served his state and nation with great integrity and ability Bill Brock An insightful look at one of the truly great legislative leaders of our time Great reading for those interested in public policy Former Senator Warren B Rudman R New Hampshire An inspiring nuanced portrait of one of the twentieth century's greatest political figures Annis is uniquely qualified to systematically investigate the inner workings of Senator Baker's mind Senator Bill Frist Throughout the 1970s and 1980s from Watergate to the Reagan White House Howard Baker was at the center of U S politics As the ranking Republican on the Senate Select Committee on Watergate Baker framed the question that would bring down Richard Nixon What did the president know and when did he know it As chief of staff after the Iran contra scandal Baker helped to put the Reagan White House back on course Originally published in 1995 Howard Baker Conciliator in An Age of Crisis is the first and only authoritative biography of Baker J Lee Annis Jr examines Baker's life and his work as a negotiator and statesman who could make government work and argues that Baker brought to Washington moderation and diplomatic talents that are often lacking in politics today In this second edition Annis has added a new chapter covering Senator Baker's life and times since leaving the White House in 1988 Scholars of southern history southern politics and Tennessee history and politics will find Howard Baker Conciliator in An Age of Crisis an essential addition to their library J Lee Annis Jr is a professor of history at Montgomery College in Maryland He is coauthor with Senate Majority Leader Bill Frist of Tennessee Senators 1911-2001 Portraits of Leadership in a Century of Change

**Federalizing the Muse** Donna M. Binkiewicz, 2005-12-15 The National Endowment for the Arts is often accused of embodying a liberal agenda within the American government In Federalizing the Muse Donna Binkiewicz assesses the leadership and goals of Presidents Kennedy through Carter as well as Congress and the National Council on the Arts drawing a picture of the major players who created national arts policy Using presidential papers NEA and National Archives materials and numerous interviews with policy makers Binkiewicz refutes persisting beliefs in arts funding as part of a liberal agenda by arguing that the NEA's origins in the Cold War era colored arts policy with a distinctly moderate undertone Binkiewicz's study of visual arts grants reveals that NEA officials promoted a modernist abstract aesthetic specifically because they believed such a style would best showcase American achievement and freedom This initially led them to neglect many contemporary art forms they feared could be perceived as politically problematic such as pop feminist and ethnic arts The agency was not able to balance its funding across a variety of art forms before facing

serious budget cutbacks Binkiewicz's analysis brings important historical perspective to the perennial debates about American art policy and sheds light on provocative political and cultural issues in postwar America **Jimmy Carter in Africa** Nancy Mitchell, 2023-05-25 By a wide margin the best book about Carter's presidency that's yet appeared Christian Science Monitor In the mid 1970s the Cold War had frozen into a nuclear stalemate in Europe and retreated from the headlines in Asia As Gerald Ford and Jimmy Carter fought for the presidency in late 1976 the superpower struggle overseas seemed to take a backseat to more contentious domestic issues of race relations and rising unemployment There was one continent however where the Cold War was on the point of flaring hot Africa Jimmy Carter in Africa opens just after Henry Kissinger's failed 1975 plot in Angola as Carter launches his presidential campaign The Civil Rights Act was only a decade old and issues of racial justice remained contentious Racism at home undermined Americans efforts to win hearts and minds abroad and provided potent propaganda to the Kremlin As President Carter confronted Africa the essence of American foreign policy stopping Soviet expansion slammed up against the most explosive and raw aspect of American domestic politics racism Drawing on candid interviews with Carter as well as key U S and foreign diplomats and on a dazzling array of international archival sources Nancy Mitchell offers a timely reevaluation of the Carter administration and of the man himself In the face of two major tests in Rhodesia and the Horn of Africa Carter grappled with questions of Cold War competition domestic politics personal loyalty and decision making style Mitchell reveals an administration not beset by weakness and indecision as is too commonly assumed but rather constrained by Cold War dynamics and by the president's own temperament as he wrestled with a divided public and his own human failings Jimmy Carter in Africa presents a stark portrait of how deeply Cold War politics and racial justice were intertwined An impressive historical work in every respect Choice Her writing flows and she places Carter's Africa policy within the larger context of US foreign policy and politics International Journal **Effective Presidency** Erwin C. Hargrove, 2024-11-01 Every four years the American public goes to the polls in hopes of electing a hero to the presidency trying to find someone larger than life But heroes are hard to find and sometimes they turn out to be villains Senior presidential scholar Erwin Hargrove recommends that we shift our sights to electing an effective president instead and here he shows us how to assess effective presidencies To address the central question of whether presidents make a difference Hargrove asks about the most important things each president attempted He finds that much of the time eventful leadership prevails but that some presidents may be judged to be event making for good or ill As George W Bush has demonstrated event making leaders run great risks sometimes challenging the Constitution even as they attempt greatness By contrast effective presidents combine eventful leadership with a modulated sense of personal ambition Hargrove examines this winning combination in light of historical context and a fine gauge of personal skills and attributes Reviewing eventful and event making presidencies of the last fifty years Hargrove comes down on the side of effectiveness over the special effects of pyrotechnic presidencies like the current one
