Newton discovered that light was a mixture of colors that was called a spectrum Research on color therapy continued throughout the 19th century It was then that Johann Wolfgang Goethe s Color Theory which considered the influence of colors on well being and Edwin Bibbitt s Law of Light and Color on Color Therapy the use of colors in treatment were published Rediscovered Color Therapy With the discovery of penicillin and the development of antibiotics color therapy has been marginalized due to its complex nature and longer waiting time for results However in recent years especially since the discovery of seasonal depression color therapy has been experiencing a renaissance It helps to achieve energy balance in the period of convalescence and weakness of the body overcome stress anxiety sleep disorders optimizes metabolic processes relieves migraine attacks cures pain also chronic It can be used systematically through the sense of sight or topically on the skin through exposure to colored light from a short distance Relationship between colors and chakras In addition to science the use of colors is of significant importance in holistic medicine In yoga colors are associated with chakras representing different colors In ancient Indian yoga traditions working with colors to strengthen mind and body was often used in kundalini yoga After the work is done frame the mandala in a clip frame and show others your work The product contains a total of 115 sheets of coloring mandala Inside you ll find 23 patterns of 5 of each to create different color compositions
