*The Call to Courage* Sheldon Berman, Luvelle Brown, 2024-04-03 Our nation is rocked by ideological divisions threatening both the work of educators and the core of our democracy Individuals and groups are attacking public education and implementing policies antithetical to education in a democratic society They seek to impose their own beliefs upon students and educational institutions by censoring materials ideas and practices they find objectionable They promote intolerance through exclusionary and discriminatory policies and practices concerning persons of different racial ethnic religious national origin gender or political identities They advocate abandoning discussion of culture and identity despite their importance to student success to ensure that preferential consideration continues for the prevailing culture And they close off open dialogue and scrutiny of factual evidence instead imposing their own agendas In doing so they politicize education bring partisanship into the classroom promote indoctrination and undermine education's democratic goals At their best public schools are an anathema to indoctrination and authoritarianism because they bring a wide range of perspectives into the classroom and teach students to think independently A democratic and pluralistic society requires that individuals honor and respect differences in identities and beliefs endorse the pursuit of truth through examination of factual evidence and participate in open dialogue to resolve issues of difference Education in a democratic society must support the development of these attitudes skills and values in young people Yet our nation's culture wars are being fomented by those who have a contradictory vision of American education The current times call on each of us to understand what is at risk and to summon the courage to stand up for the pursuit of justice equity and a meaningful democracy But how do we develop and express that personal courage to support schools in promoting respect for diversity and inclusivity enhancing children's well being and

social emotional development affirming the goals of equitable access and opportunity for all and providing students with the knowledge and skills to sustain and strengthen our democratic society At the state and local levels how do we change the culture of educational endeavors from divisive to collaborative This book is a clarion call to parents educators students community members and education leaders to take courageous action in response to the current threats To support these individuals in bravely choosing to stand up and speak out The Call to Courage shares the stories and strategies of others who are boldly and publicly embracing that very challenge

Artificially intelligent cities rise up against humanity in this excellent novel. It came on me as a surprise and it knocked me out. Harlan Ellison. In a theocratic world far into the future cities control their own movements and organization. Constantly moving growing and decaying taking care of every need their inhabitants might think of the cities have decided that humans are no longer a necessary part of their architecture casting them out to wander in the wilderness and eke out a meager subsistence. To the exiled humans the cities represent a paradisiacal Eden a reminder of all they cannot attain due to their sinful and unworthy natures. But things are beginning to change. People are no longer willing to allow the cities to keep them out choosing instead to force an entry and plunder at will. The cities are starting to crumble and die because they have no purpose or reason to continue living without citizens. One woman called mad by some and wise by others is the only human allowed to inhabit a city. From her lonely and precarious position at the heart of one of the greatest cities ever she must decide the fate of the relationship between human society and the ancient strongholds of knowledge while making one last desperate attempt to save the living cities. **Strength and Valor** Mary Ellen Porter, Becky Avella, 2018-09-01

***Speaking of Religion . . .*** Roy Hammerling, 2022-03-21 Of late speaking about religion has become a problem Whether we are in our homes at worship on the street in college classrooms or anywhere that conversations happen speaking about religion often can turn into a heated exchange As our political and religious divisions widen so does our inability to cross over to meet others halfway with compassionate convicted and civil dialogue Speaking of Religion not only offers ways in which we might open ourselves to hearing and caring about others but also seeks to help us understand our own convictions more fully Such dialogue is not often easy but it is essential if we ever hope to find our way into a future where fear hatred and cruelty can be set aside As Plato is reputed to have said We can easily forgive a child who is afraid of the dark The real tragedy of life is when adults are afraid of the light Speaking of Religion seeks to look for light in a world that all too readily gets lost in the night of religious ignorance
