National Socialist Nazi period of the 1930s and 1940s and its split Cold War existence with Marxist Leninist Totalitarianism in the German Democratic Republic and the Federal Republic of Germany's barely hidden ties to the Nazi past. Equally important, Germans have long considered art and culture critical to constructions of national identity, which meant that they were frequently implicated in political action. This book therefore examines a range of work by artists from the early twentieth century to the present, work created in an array of contexts and media that demonstrates a wide range of possible resistance.
