Der Spiegel Neues Deutschland

**United States. Central Intelligence
Agency**

Der Spiegel Neues Deutschland:

Daily Report, Foreign Radio Broadcasts United States. Central Intelligence Agency, 1962 *Germans and Jews Since The Holocaust* Pól Ó Dochartaigh, 2015-11-23 From the very moment of the liberation of camps at Auschwitz Belsen and Buchenwald Germans have been held accountable for the crimes committed in the Holocaust The Nazi regime unleashed the most systematic attempt in history to wipe out an entire people murdering men women and children for the simple crime of being Jewish After the war ended in 1945 the Jewish State of Israel was created and Jewish communities were re established in a now divided Germany Germans have engaged actively with their Nazi legacy and the Jewish communities have remained and grown stronger but neo Nazism has also persisted Young Germans have learned the horrific deeds of the past at school and throughout the world people of all nations have tried to learn the lesson never again while Germany has become Israel s best friend in Europe P l Dochartaigh analyses the ways in which Germans and Jews alike have attempted to come to terms with the Holocaust and its terrible legacy He also looks at efforts to remember and to forget the Holocaust movement towards recompense and reparation and the survival of anti-Semitism **After The Wall** Patricia J Smith, 2019-05-20 Since the fall of the Berlin Wall in November 1989 Germany has faced complex challenges The rapid introduction of political economic and social union in 1990 joined East and West in an experiment without precedent as the former German Democratic Republic adopted the structures of the Federal Republic of Germany Related issues include the ado ,

China-GDR Relations from 1949 to 1989 Axel Berkofsky, 2021-12-14 This book provides an in depth analysis of the relations between China and the German Democratic Republic GDR from 1949 to 1989 These relations were characterized by some ups but many more downs e g when in the early 1960s the Soviet Union ordered its vassal state in East Berlin to begin treating its former socialist comrade and brother in arms as an adversary and indeed enemy Drawing on a wealth of archival material especially from the archive of the GDR s ruling party this book examines selected issues and elements of East German and Chinese domestic and foreign policy In order to better grasp the nature and the historical context of the bilateral relationship it offers detailed insights into the following aspects 1 the bilateral honeymoon period from 1949 to the late 1950s which was accompanied by the two parties supporting and applauding each other s oppressive domestic and ill fated economic policies including Mao s Great Leap Forward and the Cultural Revolution 2 relations during the 1960s when the Sino Soviet Split defined the quality and level of bilateral animosities 3 the 1970s when Beijing replaced socialist comradeship with East Berlin with trade and aid from the US and West Germany and 4 the resumption of Sino East German relations in the 1980s and the subsequent period up to the Tiananmen Square protests and the collapse of the GDR in 1989 The book will appeal to historians political scientists and scholars of international relations as well as policymakers diplomats and others with an interest in this previously under researched area **The Stasi Files Unveiled** Barbara Miller, In 1992 the massive files of East Germany s infamous Ministry for State Security the Stasi were made publicly available and

thousands of former East Germans began to confront their contents Finally it was possible for ordinary citizens to ascertain who had worked for the Stasi either on a full time basis or as an unofficial employee the Stasi s term for an informer The revelations from these documents sparked feuds old and new among a population already struggling through enormous social and political upheaval Drawing upon the Stasi files and upon interviews with one time informers this book examines the impact of the Stasi legacy in united Germany Barbara Miller examines such aspects of the informer s experience as the recruitment procedure daily life and work motivation and justification She goes on to consider the dealings of politicians and the courts with the Stasi and its employees Her analysis then turns to the way in which this aspect of recent German history has been remembered and the phenomenal impact of the opening of the files on such perceptions of the past The Stasi Files Unveiled Guilt and Compliance in a Unified Germany offers important new perspectives on the nature of individual and collective memory and is a fascinating investigation of modern German society Barbara Miller graduated from the University of Glasgow in 1991 with a degree in German and psychology She taught and researched in Germany and Austria before completing her doctoral thesis in Glasgow in 1997 She is now based in Sydney Australia

Screening Art Seán Allan,2019-02-18 With internationalist aspirations and wide ranging historical perspectives East German films about artists and their work became hotly contested spaces in which filmmakers could look beyond the GDR and debate the impact of contemporary cultural policy on the reception of their pre war cultural heritage Spanning newsreels documentaries and feature films Screening Art is the first full length investigation into a genre that has been largely overlooked in studies of DEFA the state owned Eastern German film studio As it shows artist films played an essential role in the development of new paradigms of socialist art in postwar Europe

Right-Wing Terrorism in the 21st Century Daniel Koehler,2016-10-04 This book is the first comprehensive academic study of German right wing terrorism since the early 1960s available in the English language It offers a unique in depth analysis of German violent extremist right wing movements terrorist events groups networks and individuals In addition the book discusses the so called National Socialist Underground NSU terror cell which was uncovered in late 2011 by the authorities The NSU had been active for over a decade and had killed at least ten people as well as executing numerous bombings and bank robberies With an examination of the group s support network and the reasons behind the failure of the German authorities this book sheds light on right wing terrorist group structures tactics and target groups in Germany The book also contains a complete list of all the German right wing terrorist groups and incidents since the Second World War Based on the most detailed dataset of right wing terrorism in Germany this book offers highly valuable insights into this specific form of political violence and terrorism which has been widely neglected in international terrorism research

The Party of Democratic Socialism in Germany ,2023-12-18 The Party of Democratic Socialism in Germany which includes the papers from the first conference on the PDS in Britain brings together a range of scholars and politicians from Germany Britain France and the USA It assesses the present position of the party

within the German political system shortly before the second Superwahljahr in Germany. It also examines its relations with other post communist parties in Europe and evaluates the state of its relations with the other political parties competing for the left of centre vote in the new Länder. Above all the volume is concerned with the question as to whether the PDS as the successor party to the former ruling communist party in East Germany represents a modern form of socialism or is merely a populist reaction to the particular concerns of eastern Germans after unification. The volume will be of particular interest to students and scholars of German and politics who are concerned with developments in Germany and Europe after the collapse of communism. There are twelve contributions to the volume six in German and six in English. **The**

Hohenzollerns and the Nazis Stephan Malinowski, 2025-01-30 AWARDED THE GERMAN NON FICTION PRIZE 2022
Malinowski's work is a near masterpiece relating a story not synthesised in this way before and about which any number of self serving myths exist. Simon Heffer *The Telegraph* Stephan Malinowski's brilliant book strikes a balance between the forensic analysis of individual behaviour and a new understanding of how the toxic political culture of a defeated monarchy helped to disrupt democracy in Germany. Christopher Clark *The shocking true story of the German monarchy's collaboration with the Nazis* already a bestseller in Germany now in English for the first time. The disappearance of the Hohenzollern family from the history of Germany in November 1918 as the Kaiser fled into Dutch exile is one of the most startling rapid instances of a once all powerful royal family becoming almost overnight irrelevant and marginal. Except this is not exactly what happened. Stephan Malinowski's German bestseller is an extraordinary work of recovery. It suited both the Weimar Republic and then the Third Reich to view the Hohenzollerns with contempt and yet the royal family's hatred of the former and approval of the latter were for millions of Germans a significant factor in their own view of their country and its government. With forensic and often shocking detail Malinowski shows that far from being ridiculous marginal figures the Hohenzollerns lay at the heart of Germany's ongoing nightmare. Despite formally losing power the members of the royal family remained prominent catastrophically allowing many other conservative Germans to stay distanced from the new republic and to eventually betray conservative traditions and values. Battered from both left and right the Republic collapsed in 1933 in part because conservative forces fearful of both Communism and Fascism had abandoned their own principles just as much as the leading members of former royal family had who were themselves beguiled by and fooled by Hitler. This is an important and shocking book as well as a devastating picture of an inadequate and trivial royal family painfully underequipped to fulfil its role. **Building the State: Architecture, Politics, and State Formation in Postwar Central**

Europe Virag Molnar, 2013-10-08 The built environment of former socialist countries is often deemed uniform and drab an apt reflection of a repressive regime. *Building the State* peeks behind the grey facade to reveal a colourful struggle over competing meanings of the nation. Europe modernity and the past in a divided continent. Examining how social change is closely intertwined with transformations of the built environment this volume focuses on the relationship between

architecture and state politics in postwar Central Europe using examples from Hungary and Germany Built around four case studies the book traces how architecture was politically mobilized in the service of social change first in socialist modernization programs and then in the postsocialist transition Building the State does not only offer a comprehensive survey of the diverse political uses of architecture in postwar Central Europe but is the first book to explore how transformations of the built environment can offer a lens into broader processes of state formation and social change

Between Mass Death and Individual Loss Alon Confino, Paul Betts, Dirk Schumann, 2008 This collection of essays explores how German mourning changed over the 20th century in different contexts with a particular view to how death was linked to larger issues of social order and cultural self understanding *The Collapse of East German Communism* David Keithly, 1992-08-21 This book focuses on a key aspect of the German question the problem of German national identity and communist ideology in their historical perspective since 1945 and their immediate clash in the downfall of the German Democratic Republic GDR in 1989 The book's theme might be summarized as German identity recovered The book is unique in that it is in part an eyewitness account of one of Europe's most startling transformations In the four decades of its existence the GDR did not succeed in fostering a separate political or social identity and thus an underlying difficulty of the state was never resolved The overriding objective of the political socialization process in the GDR was to instill socialist political culture into the citizenry This political culture had not only to be uniform with ideological imperatives and aspirations but had to stand on its own because of the absence of a broader based national culture Given the newness of the state and its political institutions and the continual challenge on the national question presented by the mere existence of the Federal Republic of Germany FRG the East German Communist Party SED always faced an uphill task This book should be of interest to students and scholars interested in Germany in Europe and in the fate of communism Conrad Veidt, Demon of the Silver Screen Sabine Schwientek, 2023-06-16 This book depicts the life of Conrad Veidt 1893 1943 the defining German actor of Expressionist cinema in the 1920s His legendary performance in *Das Cabinet des Dr Caligari* 1919 20 earned him the epithet Demon of the Screen and made Veidt an international star To this day Veidt is considered an icon of early horror film He showed his acting range in more than a hundred films among them masterpieces such as *The Indian Tomb* 1921 *Orlac's Hands* 1924 *The Man Who Laughs* 1928 *The Thief of Bagdad* 1940 and *Casablanca* 1942 Conrad Veidt used his acting career to become socially and politically involved starting with the film *Anders als die Anderen* the first film to advocate homosexual rights in 1919 After the Nazis came to power he left Germany to protest anti-Semitism and Nazi rule Along with his biography this book provides insights into the development of filmmaking from its beginnings through the 1940s an epoch of cinematic art marked by technical innovations like sound and color film and by world shaking events including two world wars *Hitler's Rival* Russel Lemmons, 2013-03-01 Fascinating material This book will likely be the last word and the standard work on the Thimann myth and its role in East German history Catherine Epstein author of *Nazi Germany*

Confronting the Myths Throughout the 1920s German politician and activist Ernst Thälmann 1886-1944 was the leader of the largest Communist Party organization outside the Soviet Union Thälmann was the most prominent left wing politician in the country's 1932 election and ran third in the presidential race after Hitler and von Hindenburg After the Nazi Party's victory in that contest he was imprisoned and held in solitary confinement for eleven years before being executed at Buchenwald concentration camp in 1944 under the Führer's direct orders Hitler's Rival examines how the Communist Party gradually transformed Thälmann into a fallen mythic hero building a cult that became one of their most important propaganda tools in central Europe Author Russel Lemmons analyzes the party intelligentsia's methods demonstrating how they used various media to manipulate public memory and exploring the surprising ways in which they incorporated Christian themes into their messages Examining the facts as well as the propaganda this unique volume separates the intriguing true biography of the cult figure from the fantastic myth that was created around him Lemmons analyzes in great detail the myth and legend that formed around Ernst Thälmann who became the leader of the German Communist Party in 1925 and was a dominant politician in Weimar Germany until imprisoned by the Nazis in 1933 This comprehensive study which treats the years before the war ended for the first time is thoroughly researched and well written it will be a standard work on the subject G P Blum Professor Emeritus University of the Pacific

A History of Twentieth-century Germany Ulrich Herbert, 2019 Germany in the 20th century endured two world wars a failed democracy Hitler's dictatorship the Holocaust and a country divided for 40 years But it has also boasted a strong welfare state affluence liberalization and globalization a successful democracy and the longest period of peace in European history In this award winning volume of German history Ulrich Herbert analyzes the trajectory of German politics and culture during a century of extremes

Writing New Identities Gisela Brinker-Gabler, Sidonie Smith,

The Left Party in Contemporary German Politics Dan Hough, M. Koß, Jonathan Olsen, 2007-09-12 This is the first book in either English or German to analyse the development of Germany's newest political party the Left Party It compares and contrasts the party's development with that of Germany's most well known outsider party the Greens It also analyses the party's performance in office in two eastern German Länder

Performing Unification Matt Cornish, 2019-07-08 Since the moment after the fall of the Berlin Wall important German theater artists have created plays and productions about unification Some have challenged how German history is written while others opposed the very act of storytelling *Performing Unification* examines how directors playwrights and theater groups including Heiner Müller Frank Castorf and Rimini Protokoll have represented and misrepresented the past confronting their nation's history and collective identity Matt Cornish surveys German language history plays from the Baroque period through the documentary theater movement of the 1960s to show how German identity has always been contested then turns to performances of unification after 1989 Cornish argues that theater in its structures and its live gestures on pages stages and streets helps us to understand the past and its effect on us our relationships with others in our communities and our futures

Engaging with theater theory from Aristotle through Bertolt Brecht and Hans Thies Lehmann's postdramatic theater and with theories of history from Hegel to Walter Benjamin and Hayden White *Performing Unification* demonstrates that historiography and dramaturgy are intertwined *The Two German States and European Security* F. Stephen Larrabee, 1989-05-01 This collection of essays examines the relationship between West Germany and the German Democratic Republic in terms of economics and politics The problems caused by the division of Germany in relation to European and international defence policies are also discussed
