Dersu The Trapper Recovered Classics:

Dersu the Trapper V. K. Arsen'ev, Malcolm Burr, 1996 The essay and bibliography cover the essential information and controversies regarding the World War I battle that is credited as being a turning point in the war The essay provides factual background identifying major historiographical contentions including the quality of British generalship the use of technology and the effectiveness of tactical planning The alphabetically arranged bibliography consists of military history works related to Somme but because aspects of strategy were influenced by politics some politically focused volumes have also been included Annotation copyright by Book News Inc Portland OR

Tigers In Red Weather Ruth Padel, 2009-05-26 Poet writer and descendant of Charles Darwin Ruth Padel set out to visit a tropical jungle and wildlife sanctuary in India and her visit turned into a remarkable two year journey through eleven countries in search of that most elusive and most beautiful animal the tiger Armed with her grandmother's opera glasses and Tunisian running shoes she set off across Asia to ask the question can the tiger be saved from extinction in the wild Tigers are an umbrella species they need everything in the forest to work in tandem they eat deer the deer need vegetation the vegetation has to be pollinated by birds mammals rodents and butterflies If you save the tiger you save everything else Today the 5 000 tigers that still survive in the wild live only in Asia and are scattered throughout 14 countries Padel says that while tigers will never become extinct they are too popular for that they may disappear from the wild There are as many tigers in cages in the US as there are surviving tigers in the wild As she travels she meets the defenders of the wild the heroic scientists forest guards and conservationists at the frontline fighting to save tigers and their forests from destruction in the places where poverty threatens to wipe out all wildlife She also examines her fascination both as a poet and as the great great granddaughter of Charles Darwin with nature wildness and survival and in the end becomes a knowledgeable advocate for the tiger The result is a beautiful blend of natural history travel literature and memoir and a searing intimate portrait of an animal we have loved and feared almost to extinction

The Tiger John Vaillant, 2010-08-24 It's December 1997 and a man eating tiger is on the prowl outside a remote village in Russia's Far East The tiger isn't just killing people it's annihilating them and a team of men and their dogs must hunt it on foot through the forest in the brutal cold To their horrified astonishment it emerges that the attacks are not random the tiger is engaged in a vendetta Injured and starving it must be found before it strikes again and the story becomes a battle for survival between the two main characters Yuri Trush the lead tracker and the tiger itself As John Vaillant vividly recreates the extraordinary events of that winter he also gives us an unforgettable portrait of a spectacularly beautiful region where plants and animals exist that are found nowhere else on earth and where the once great Siberian Tiger the largest of its species which can weigh over 600 lbs at more than 10 feet long ranges daily over vast territories of forest and mountain its numbers diminished to a fraction of what they once were We meet the native tribes who for centuries have worshipped and lived alongside tigers even sharing their kills with them in a natural balance We witness the first arrival of settlers soldiers and hunters in the tiger's

territory in the 19th century and 20th century many fleeing Stalinism And we come to know the Russians of today such as the poacher Vladimir Markov who crushed by poverty have turned to poaching for the corrupt high paying Chinese markets Throughout we encounter surprising theories of how humans and tigers may have evolved to coexist how we may have developed as scavengers rather than hunters and how early Homo sapiens may have once fit seamlessly into the tiger s ecosystem Above all we come to understand the endangered Siberian tiger a highly intelligent super predator and the grave threat it faces as logging and poaching reduce its habitat and numbers and force it to turn at bay Beautifully written and deeply informative *The Tiger* is a gripping tale of man and nature in collision that leads inexorably to a final showdown in a clearing deep in the Siberian forest *Rain Taxi Review of Books* ,1997 [Bibliographic Guide to East Asian Studies 1996](#)
