Ut pictura amor Walter Melion, Michael Zell, Joanna Woodall, 2017-11-06 *Ut pictura amor* The Reflexive Imagery of Love in Artistic Theory and Practice 1500 1700 examines the related themes of lovemaking and image making in the visual arts of Europe China Japan and Persia The term reflexive is here used to refer to images that invite reflection not only on their form function and meaning but also on their genesis and mode of production Early modern artists often fashioned reflexive images and effigies of this kind that appraise love by exploring the lineaments of the pictorial or sculptural image and complementarily appraise the pictorial or sculptural image by exploring the nature of love Hence the book's epigraph *ut pictura amor* as is a picture so is love **Jan en Casper Luyken te boek gesteld** Nel Klaversma, Kiki

This is an account of the ordinary working people of Holland in the seventeenth century the so called golden age The Embarrassment of Riches Simon Schama, 1988 In a brilliantly inventive work bestselling author Simon Schama explores the enigma of 17th century Holland a nation that attained an unprecedented level of affluence yet lived in constant dread of being corrupted by prosperity Drawing on a vast array of period documents and sumptuously reproduced art THE EMBARRASSMENT OF RICHES throbs with life on every page 314 photos illustrations Copyright Libri GmbH All rights reserved **Le magasin de l'univers - The Dutch Republic as the Centre of the European Book Trade** C.

Berkvens-Stevelinck, H. Bots, Paul G. Hoftijzer, O.S. Lankhorst, 1991-10-01 During the seventeenth and eighteenth centuries the Dutch Republic performed a crucial function as the cultural and intellectual clearinghouse of Europe It was partly through the existence of a well established and highly competitive publishing industry and book trade that the Dutch were able to play such a prominent role in the international transmission of knowledge and ideas Yet our understanding of the Dutch involvement in the European book trade still is limited and important questions remain to be answered How was Dutch publishing and bookselling for the international market organised What was the nature of the books that were exchanged In order to stimulate research in this field an international colloquium was held in 1990 at the Netherlands Institute for Advanced Study in the Humanities and Social Sciences NIAS under the title *Le Magasin de l'Univers The Dutch Republic as the Centre of the European Book Trade* This volume brings together the twenty two contributions presented at the conference by historians of the book from England France Switzerland the United States Germany and the Netherlands

Dekker, 2019-06-12 Between the 17th and 19th centuries auto biographers and diarists invented new ways to write about childhood and children At the same time pedagogical ideas about child rearing changed This book looks at the connection between these developments Egodocuments can bring the past alive and allow us to sketch

six intimate portraits The second part of the book concentrates on the changes Childhood became more highly valued as a phase of life Children were taken more seriously This is shown in chapters on child s play punishment wet nursing and independence Around 1800 in diaries parents more openly grieved about the loss of a child which indicates both a change of literary conventions and changes in the way emotions were felt and expressed Finally autobiographers wrote more and differently about their early years and developed new memory strategies Autobiographical texts are discussed within a wider cultural setting using paintings poetry pedagogical tracts and novels This book makes clear how changes in autobiographical style the concept of childhood and the working of human memory are connected **Studies in seventeenth-century**

imagery Mario Praz,2001 Lettering Young Readers in the Dutch Enlightenment Feike Dietz,2021-05-22 This book presents a rigorous hugely informative analysis of the early history of Dutch children s literature pedagogical developments and emerging family formations Thoroughly researched Dietz s study will be essential for historians of eighteenth century childhood education and children s books both in the Dutch context and more widely Matthew Grenby Newcastle University UK A rich informative well documented and effectively illustrated discussion of the ways Dutch eighteenth century educators tried to transform youth into responsible readers It does so in a wide international context and masterfully connects this process to the radical politicization and de politicization of Dutch society in the revolutionary period Wijnand W Mijnhart formerly of Utrecht University the Netherlands and the University of California at Los Angeles USA This book explores how children s literature and literacy could at once regulate and empower young people in the eighteenth century Dutch Republic Rather than presenting the history of childhood as a linear story of increasing agency it suggests that we view it as a continuous struggle with the impossibility of full agency for young people This volume demonstrates how this struggle informed the production of books in a historical context in which the development of independent youths was high on the political agenda In close interaction with international children s literature markets Dutch authors developed new strategies to make the members of young generations into capable readers and writers equipped to organize their own minds and bodies properly and to support a supposedly declining fatherland *Willem Usselinx* John Franklin Jameson,1891 **Den**

Apostolos-Cappadona,2024-01-25 The artistic traditions of four major Christian denominations are examined and outlined in detail in this groundbreaking volume that presents the first synthesis of the artistic contributions of those traditions Diane Apostolos Cappadona has curated a volume that presents four single authored contributions in one place broadening the study of Christian art beyond Roman Catholic Orthodox and protestant traditions to consider these more recent Christian approaches in close and expert detail Rachel Epp Buller examines art in the Mennonite tradition Mormon art is considered by Heather Belnap Quaker contributions by Rowena Loverance and Swedenborgian art by Diane Apostolos Cappadona Each

writer presents elements of the theology of their chosen tradition through the prism of the artists and artistic works that they have selected. Alongside mainstream artistic figures such as William Blake, less known figures come to the fore and the volume features color illustrations that support and underline the theological and artistic themes presented in each section of the book. Together these studies of artistic presentations in these four traditions will be a much needed means of filling a gap in the study of Christian art.

The Emblem John Manning, 2004-04-04 The emblem, an image accompanied by a motto and a verse or short prose passage, is both art and literature. In the emblem tradition, the image presents a story, often with pictorial symbols, and the verse below it drives home the picture story's moral instruction. It is one of the most fascinating and enduring art forms in Western culture. John Manning's book charts the rise and evolution of the emblem from its earliest manifestations to its emergence as a genre in its own right in the sixteenth century and then through its various reinventions to the present day. The seventeenth century saw the development of new emblematic forms and sub-genres and the sharpening of the form for the purpose of social satire. When the Jesuits appropriated the emblem, producing enormous quantities of material, a further dimension of moral seriousness was introduced alongside a concentration of emblematic wit. The emblem later came to be directed increasingly at young people and children; in particular, William Blake adopted a fresh attitude towards ideas of the child and childishness. Since then, reprints of 17th century emblem books have been produced with new plates, and writers and artists from Robert Louis Stevenson to Ian Hamilton Finlay have used emblems in new and subversive ways.

Den gulden winckel, 1913 **Over van Alphen's kindergedichtjes** Hendrikus Pomes, 1908 Play from Birth to Twelve Doris Pronin Fromberg, Doris Bergen, 2012-11-12 In light of recent standards-based and testing movements, the issue of play in childhood has taken on increased meaning for educational professionals and social scientists. This second edition of *Play From Birth to Twelve* offers comprehensive coverage of what we now know about play: its guiding principles, its dynamics, and its importance in early learning. These up-to-date essays, written by some of the most distinguished experts in the field, help students explore all aspects of play, including new approaches not yet covered in the literature: how teachers in various classroom situations set up and guide play to facilitate learning; how play is affected by societal violence; media reportage; technological innovations; and other contemporary issues which areas of play have been studied adequately and which require further research.
