Desert And Justice Mind Association Occasional:

Desert and Justice Serena Olsaretti, 2003-07-24 Serena Olsaretti brings together new essays by leading moral and political philosophers on the nature of desert and justice their relations with each other and with other values Does justice require that individuals get what they deserve What exactly is involved in giving people what they deserve Does treating people as responsible agents require that we make room for desert in the economic sphere as well as in the attribution of moral praise and blame and in the dispensing of punishment How does respecting desert square with considerations of equality Does desert like justice have a comparative aspect These are questions of great practical as well as theoretical importance this book is unique in offering a sustained examination of them from various perspectives Debating Equal Pay for All Anders Örtengren, 2020-12-09 This anthology debates the idea of giving all people no matter which profession or position they have and whether they have a job or not the same pay Some contributors argue against equal pay for all some for increased pay equality but not for total pay equality and some argue for equal pay for all There is no common conclusion in the book instead the book aims to encourage reflection as well as further debate on something that is often taken for granted namely differentiated pay by offering a set of various standpoints in the debate backed up with various kinds of arguments Among bases for arguments that are put forward in the book economy practicability and ethics belong to the most frequently occurring ones This book is the first one to be published in the book series Palgrave Debates in Business and Management **Values and Virtues** Timothy Chappell, 2006-11-16 After 25 centuries Aristotle's influence on our society's moral thinking remains profound even when subterranean Typical members of our society can often be made to see that their moral thought and action are in crucial ways unwittingly Aristotelian No one in contemporary philosophical ethics can afford to ignore Aristotle Much of the finest work in recent moral philosophy has been overtly and professedly Aristotelian in inspiration And many writers who would officially distance themselves from Aristotle and his contemporary followers are nonetheless indebted to him sometimes in ways that they do not realise Values and Virtues provides a platform for some notable writers in the area to present and discuss their new ideas about Aristotelian ethics in a way that will advance the academic debate and engage the interest of a broad range of philosophical readers *Bibliographisch repertorium van de wijsbegeerte*, 2004 **Philosophers on Music** Kathleen Stock, 2007-09-27 Philosophers on Music Experience Meaning and Work presents significant new contributions to central issues in the philosophy of music written by leading philosophers working in the analytic tradition Music is an increasingly popular object of reflection for professional philosophers as it raises special questions not only of relevance to music practitioners theorists and philosophers of art but also of wider philosophical interest to those working in metaphysics the philosophy of emotion and the philosophy of language among other areas The wide range of contributors to this volume reflects this level of interest It includes both well known philosophers of music drawing on a wealth of reflection to produce new and often startling conclusions and philosophers relatively new to the

philosophy of music yet eminent in other philosophical fields who are able to bring a fresh perspective informed by that background to their topic of choice The issues tackled in this volume include what sort of thing a work of music is the nature of the relation between a musical work and versions of it the nature of musical expression and its contribution to musical experience the relation of music to metaphor the nature of musical irony the musical status of electro sonic art and the nature of musical rhythm Together these papers constitute some of the best new work in what is an exciting field of research and one which has much to engage philosophers aestheticians and musicologists *The Book Review Digest*, 2005

American Book Publishing Record, 2003 *The Philosophical Review* Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 2004 **Desert and Justice**, 2023 Serena Olsaretti brings together new essays by moral and political philosophers on the nature of desert and justice their relations with each other and with other values **The British National Bibliography** Arthur James Wells, 2004 **Desert and Justice** Serena Olsaretti, 2003 *The Philosopher's Index*, 2007 Vols for 1969 include a section of abstracts **Bibliografisch Repertorium Van de Wijsbegeerte**, 2004 **Sing Out for Justice** Ray Vincent, 2017-12-08 The Old Testament prophets were not just predictors of things that would happen long after their time Nor were they purveyors of religious platitudes They were people with an urgent message for their own generation and a passion to declare it whatever the risk They were singers poets demonstrators and protesters radical critics of their own society and dreamers of a world that could be different *Critical Systemic Praxis for Social and Environmental Justice* Janet McIntyre-Mills, 2012-12-06 The book develops a practical approach to public policy issues that have continued to be intractable because of a lack of emphasis on transcultural understanding Sustained examples help to increase the readability and the accessibility of theory and methodology The key themes address the issue that Management needs to be more systemic Critical Systemic Praxis is the process whereby we find ways to work across discipline areas and sectoral areas in order to address complex social political economic and environmental problems The way we define and address problems depends on an ability to work with rather than within knowledge areas By introducing the notion of governance we can extend traditional management from an organisational context to an inter organisational context and locate governance as the goal for sustainable social and environmental justice The core aspects of praxis are Respectful listening and dialogue to set up appropriate contexts for participatory design Participatory designs based on participatory action research to map tacit and explicit knowledge of participants professional and ordinary citizens Strategic decision making across discipline areas cultural contexts and knowledge areas Action learning to transfer the policy and practice learnings Mainstreaming the approach to governance in the social political economic and environmental sectors The book develops a systemic approach to public policy issues Examples are used throughout to exemplify theory The integrated approach to policy and practice is ideally suited to addressing the socio economic and environmental issues Rights, Justice, and the Bounds of Liberty Joel

Feinberg,2014-07-14 This volume of essays by one of America s preeminent philosophers in the area of jurisprudence and moral philosophy gathers together fourteen papers that had been published in widely scattered and not readily accessible sources All of the essays deal with the political ideals of liberty and justice or with hard cases for the application of the concept of a right Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
