Schools and Kindergartens Mark Dudek,2007-03-02 As a new generation of educational environments are designed and built this design manual helps architects to grasp the underlying educational theories and how they can be realized in built form so that the building fulfills its role as a 3 dimensional curriculum plan It presents over 80 international case studies

Schools and Kindergartens Mark Dudek,2010-07-15 As a new generation of educational environments are designed and built this design manual helps architects to grasp the underlying educational theories and how they can be realized in built form so that the building fulfills its role as a 3 dimensional curriculum plan It presents over 80 international case studies

Schools for the Future Rotraut Walden,2015-04-02 Drawing on the perspectives of architectural psychology set against the historical development of school building in the United States Japan and Germany the authors vision is to create places where we would want to relive our own school days The book takes the position that user design control of stress factors and control of communication privacy retreats should be allowed to modify the original architectural design to flexibly accommodate future changing requirements The development and application of criteria for assessing functional aesthetic social physical ecological organizational and economical aspects to various parts of the school complex call for a common language for the design process The appendix presents 24 innovative schools from countries in five continents

The Rise of Awards in Architecture Jean-Pierre Chupin,Carmela Cucuzzella,Georges Adamczyk,2022-09-06 This book is the first scientific study to focus on awards in architecture and the built environment investigating their exponential growth since the 1980s The celebration of excellence in architecture and related fields remains a phenomenon on which there is strangely little scientific scrutiny What is to be understood from the plethora of award winning projects award winning buildings and awarded professional practices in the built environment year after year Glossy images partake in an intense ballet at every local regional national or international award ceremony and they are meant to embody proofs of architectural excellence However it is necessary to take a critical distance to question what awards are meant to embody symbolize and perhaps measure Each of the 10 chapters in this volume is centered on one question related to themes as varied as the comparison of Pritzker and Nobel Prizes the Prix de Rome the redefinition of quality through awards green awards and sustainability the multiplication of sustainable awards heritage awards architecture book awards the awarding of school architecture awards as mediations and awards as pedagogical devices Many fields once consolidated have featured a sharp increase in related prizes The original data compiled and summarized in 4 appendices cover more than 150 award granting organizations in some 30 countries Our inventory includes upwards of 24 000 prizes awarded at more than 3 100 events the earliest of which is the first instance of Western architecture s seminal Grand Prix de Rome in France in 1720 A history of contemporary architecture is thus written through press releases that praise the merits of the heroes as much as their works and achievements And while awards can be vehicles that propel architecture forward they can also be Trojan

horses in an era that is constantly on the lookout for event driven products small and big news and brand imaging

Nurseries: A Design Guide Mark Dudek, 2013-08-06 Architecture can inspire young children the very shape and form of a daycare center can not only stimulate their imagination but can help children form strong relationships and help promote development This design guide presents all the elements of building design that combine to create the very best environment for young children and the people who work with them including building materials multi functional spaces and design scaled to suit small children

Century of the Child Juliet Kinchin, Aidan O'Connor, 2012 The book examines individual and collective visions for the material world of children from utopian dreams for the citizens of the future to the dark realities of political conflict and exploitation Surveying more than 100 years of toys clothing playgrounds schools children's hospitals nurseries furniture posters animation and books this richly illustrated catalogue illuminates how progressive design has enhanced the physical intellectual and emotional development of children and conversely how models of children's play have informed experimental aesthetics and imaginative design thinking

The Third Teacher OWP/P Cannon Design, Inc., VS Furniture, Bruce Mau Design, 2014-07-11 Created by an international team of architects and designers concerned about our failing education system The Third Teacher explores the critical link between the school environment and how children learn and offers 79 practical design ideas both great and small to guide reader's efforts to improve our schools Written for anyone who has school age children in their life from educators and education decision makers to parents and community activists this book is intended to ignite a blaze of discussion and initiative about environment as an essential element of learning Including a wealth of interviews facts statistics and stories from experts in a wide range of fields this book is a how to guide to be used to connect with the many organizations individuals and ideas dedicated to innovating and improving teaching and learning Contributors include children's singer and advocate Raffi author and creativity consultant Sir Ken Robinson scientist and environmentalist David Suzuki inventor James Dyson and other experts who are working to create fresh solutions to problems and create a new blueprint for the future of education

Spaces for Young Children, Second Edition Mark Dudek, 2012-09-24 Good architecture combines the practical with a sense of delight in the spaces that make up a building If designed skilfully a building can inspire and help to make children's experience of their early years care a secure yet varied one Many childcare professionals understand the importance of architecture in ensuring good provision for young children and their families Whether making minor modifications to an existing facility embarking on major term improvements or a new construction this book will empower early years professionals to work with building professionals to create the best space for young children It looks at the big things but more importantly suggests the smaller features that can provide an educationally stimulating environment Drawing on experience in the UK and Europe this new edition aims to ensure that advances in children's architecture will be well informed It has been revised throughout and includes an overview of recent developments legal compliance consulting with children building for communities local involvement and achieving high

quality builds with small budgets Children and Young People's Spaces Pam Foley, Stephen Leverett, 2018-06-26 This reader takes debates about children's services forward by drawing on ideas based in social pedagogy and arguing that the concept of space is crucial to relationships and practices with children and young people It will stimulate students to question and rethink and practitioners to innovate and challenge mainstream thinking *La disolución del aula* Pozo Bernal Melina, 2023-01-17 El actual contexto en el que se desenvuelven la educación y la arquitectura está constantemente en entredicho debido a la continua crisis en la que se encuentran inmersas ambas disciplinas principalmente porque se les presupone un aislamiento respecto a las transformaciones y necesidades sociales La arquitectura y la educación comparten un territorio común el entorno de aprendizaje que según la cultura o las circunstancias adquiere más o menos protagonismo y cuya existencia y configuración también se encuentra hoy cuestionada debido a la generación de un entorno virtual cada día más autosuficiente La investigación propone un acercamiento a este panorama de crisis a través del entorno físico de aprendizaje entendido este en su sentido más amplio y reflexiona sobre la aportación que la arquitectura puede ofrecer a la experiencia pedagógica que se lleva a cabo en él Para ello se genera una conversación necesaria entre dos disciplinas Arquitectura y Pedagogía que van de la mano a la hora de configurar este entorno esencial para la infancia ya que comparten la meta de acompañar al individuo en su manera de percibir y actuar sobre el mundo Dicha experiencia resulta determinante ya que marcar la personalidad de los individuos de la sociedad del futuro A lo largo de esta investigación se produce una lectura transversal a través de dicha experiencia pedagógico arquitectónica y se genera una taxonomía de ocho espacios cualificados por ambas disciplinas los cuales se proponen como aportación principal de este trabajo de investigación Con la certeza de que la arquitectura aún tiene mucho que ofrecer y con la firme intención de demostrar así que sigue siendo trascendente la investigación propone la visualización de un contexto del espacio de aprendizaje más complejo y completo del que partir para estableciendo puentes entre disciplinas demostrar que es posible mejorar el espacio escuela en particular del entorno de aprendizaje en general y con ello de la educación y de la sociedad **En centre-ville: une architecture scolaire à**
