Making It Better Lorraine Greaves ,Ann Pederson ,Nancy Poole ,2014 In this innovative collection leading thinkers in clinical medicine sociology epidemiology kinesiology education and public policy reveal how health promotion is failing communities by failing women Despite a longstanding consensus that social inequalities shape global patterns of illness and opportunities for health mainstream health promotion frameworks continue to ignore gender at relational household community and state levels Exploring the ways in which gendered norms affect health and social equity for all human beings *Making It Better* invites us to rethink conventional approaches to health promotion and to strive for transformative initiatives and policies Offering practical tools and evidence based strategies for moving from gender integration to gender transformation this anthology is required reading for policymakers health promotion and healthcare practitioners researchers community developers and social service providers

Women's Health 2e Pat Armstrong,Ann P.

Pederson, 2015 Though we may no longer confine our understanding of women's health to reproduction and maternity care, women's health in Canada continues to be limited by knowledge gaps, political agendas, and fiscal restraints. This second edition of *Women's Health* provides a comprehensive picture of the state of women's health in Canada, tracing the emergence of the field and outlining some of the current challenges facing its advancement. The contributors, who include academics, health care professionals, and policy makers, explore women's health in different social and geographical locations, the gendering of care work, and the ways in which research can influence health policy. Drawing on gender-based analysis and highlighting the diversity among women, this multidisciplinary collection illustrates the breadth of contemporary Canadian writing on women's health and calls for a renewed commitment to women's health advocacy. This revised edition has been thoroughly updated to reflect developments in research and recent changes in the social, political, and economic context. New chapters cover topics such as wait times, girls' health, and unpaid health care. Featuring questions for further thought and lists of recommended readings and websites, this unique text is a valuable resource for both students and researchers in the fields of women's studies, sociology, health sciences, and nursing.

Handbook of Qualitative Health Research for Evidence-Based Practice Karin Olson, Richard A. Young, Izabela Z. Schultz, 2015-10-12 This progressive reference redefines qualitative research as a crucial component of evidence-based practice and assesses its current and future impact on healthcare. Its introductory section explains the value of sociocultural context in case conceptualization and ways this evidence can be integrated with quantitative findings to inform and transform practice. The bulk of the book's chapters review qualitative research in diverse areas, including pain, trauma, heart disease, COPD, and disabling conditions, and examine ways of effectively evaluating and applying qualitative data. This seismic shift in perception moves the healing professions away from traditional one-size-fits-all thinking and toward responsive, patient-centered care. Among the topics in the Handbook: Examining qualitative alternatives to categorical representation; The World Health Organization model of health; what evidence is needed; Qualitative research in mental health and mental illness; Qualitative evidence in pediatrics; The contribution of qualitative research to medication adherence; Qualitative evidence in health policy analysis. The *Handbook of Qualitative Health Research for Evidence-Based Practice* offers health and clinical psychologists, rehabilitation specialists, occupational and physical therapists, nurses, family physicians, and other primary care providers new ways for understanding patients' health-related experiences and opens up new ways for developing interventions intended to improve health outcomes.

Women's Health in Canada Marina Morrow, Olena Hankivsky, Colleen Varcoe, 2022-01-27 *Women's Health in Canada* considers the challenges relating to the conceptualization of women's health. While emphasizing the importance of taking an intersectional approach to women's healthcare, this book also focuses on the social and structural determinants at play. This revised and updated second edition brings together a collection of new chapters and contributors who collectively shed light on the problems and risks involved in perceiving women's healthcare using a strictly gender or sex-based lens.

Contributors foreground an understanding of power as it is mediated through a range of social relations based on gender race culture ethnicity sexuality ability class and geography and the ways in which privilege and oppression intersect to shape health and system responses to health This new edition includes updates on what is currently known about women s health nationally and internationally and situates the chapters in the current Canadian health care and policy context Scholarship is foregrounded in new developments in gender and intersectional health research and policy Collectively this volume explores the important histories and contemporary realities in women s health experiences The Psychology of Gender and Health M. Pilar Sánchez-López, Rosa M. Limiñana-Gras, 2016-12-25 The Psychology of Gender and Health Conceptual and Applied Global Concerns examines the psychological aspects of the intersection between gender and health and the ways in which they relate to the health of individuals and populations It demonstrates how gender should be strategically considered in the most routine research tasks from establishing priorities constructing theory designing methodologies in data interpretation and how to practically apply this information in clinical contexts The topics covered in its chapters answer the needs of professionals students and faculty providing an up to date conceptual tool that covers the relationships that exist between gender and health The book will not only help users build expertise in psychology in gender and health but also contribute to the awareness and training of psychologists as dynamic actors in the implementation of the gender perspective in their studies reflections research and health interventions Offers specific literature on the gender perspective in health and psychology Addresses a broad and diverse audience and its coverage is uniquely comprehensive Utilizes an intersectional approach to race class sexual orientation nationality disability status and age Updates on the pressing concerns of gender violence Covers specific content on transgender and same sex attracted populations that includes a focus on men and masculinity Deals with hot topics on infertility immigration and HIV AIDS **Place, Health, and Diversity** Melissa D. Giesbrecht, Valorie A. Crooks, 2016-06-03 Although health equity and diversity focussed research has begun to gain momentum there is still a paucity of research from health geographers that explicitly explores how geographic factors such as place space scale community and location inform multiple axes of difference Such axes can include residential location age sex gender race ethnicity culture religion socio economic status marital status sexual orientation education level and immigration status Specifically focussing on Canada s rapidly changing society which is becoming increasingly pluralized and diverse this book examines the place health diversity intersection in this national context Health geographers are well positioned to offer a valuable contribution to diversity focussed research because place is inextricably linked to differential experiences of health For example access to health care and health promoting services and resources is largely influenced by where one is physically and socially situated within the web of diversity Furthermore applying geographic concepts like place in both the physical and social sense allows researchers to explore multiple axes of difference simultaneously Such geographic perspectives as presented in this book offer new insights into what makes diverse people in diverse places with

Showden, Samantha Majic, 2014-04-01 Globally discussions

about sex work focus on exploitation The media regularly provides us with stories about teen girls coerced to perform sexual acts for money frequently beaten and robbed by their pimps or traffickers While one would have to be hard pressed to deny that sex workers are victimized the popular media and our political leaders emphasize sex work as exclusively exploitative In Negotiating Sex Work Carisa R Showden and Samantha Majic present a series of essays that depict sex work as an issue far more complex than generally perceived Positions on sex work are primarily divided between those who consider that selling sexual acts is legitimate work and those who consider it a form of exploitation Organized into three parts Negotiating Sex Work rejects this either or framework and offers instead diverse and compelling contributions that aim to reframe these viewpoints Part I addresses how knowledge about sex work and sex workers is generated The next section explores how nations and political actors who claim to protect individuals in sex work often further marginalize them Finally part III examines sex workers own political organizational efforts to combat laws and policies that deem them deviant sinful or total victims A timely and necessary intervention into sex work debates this volume challenges how policy makers and the broader public regard sex workers capacity to advocate for their own interests Contributors Cheryl Auger Sarah Beer Dawson College Montreal Michele Tracy Berger U of North Carolina Chapel Hill Thaddeus Gregory Blanchette Federal U of Rio de Janeiro Raven Bowen Gregg Bucken Knapp U of Gothenburg Sweden Ana Paula da Silva Federal U of Vi o sa Valerie Feldman Gregor Gall U of Bradford Kathleen Guidroz Georgetown U Annie Hill U of Minnesota Johan Karlsson Schaffer U of Oslo Edith Kinney Mills College Yasmin Lalani Pia Levin Alexandra Lutnick Tamara O Doherty U of the Fraser Valley British Columbia Joyce Outshoorn U of Leiden Francine Tremblay Concordia U Montreal *The Palgrave Handbook of Social Theory in Health, Illness and Medicine* F. Barker,2015-04-28 The Palgrave Handbook of the Psychology of Sexuality and Gender combines cutting edge research to provide a thorough overview of all the normative and many of the less common sexualities genders and relationship forms alongside psychological and intersectional areas relating to sexuality and gender *The Palgrave Handbook of Intersectionality in Public Policy* Olena Hankivsky,Julia S. Jordan-Zachery,2019-02-01 Grounded in black feminist scholarship and activism and formally coined in 1989 by black legal scholar Kimberl Williams Crenshaw intersectionality has garnered significant attention in the field of public policy and other disciplines fields of study The potential of intersectionality however has not been fully realized in policy largely due to the challenges of operationalization Recently some scholars and activists began to advance conceptual clarity and guidance for intersectionality policy applications yet a pressing need remains for knowledge development and exchange in relation to empirical work that demonstrates how intersectionality improves public policy This handbook fills this void by highlighting the key challenges possibilities and critiques of intersectionality informed approaches in public policy It brings together international scholars across a variety of policy sectors and disciplines to consider the state of intersectionality in policy research and analysis Importantly it offers a global perspective on the added value and how to of intersectionality informed policy approaches that aim to advance equity and social justice State Crime, Women and Gender Victoria E. Collins,2015-10-05 The United Nations has called violence against women the most pervasive yet least recognized human rights abuse in the world and there is a long established history of the systematic victimization of women by the state during times of peace and conflict This book contributes to the established literature on women gender and crime and the growing research on state crime and extends the discussion of violence against women to include the role and extent of crime and violence perpetrated by the state State Crime Women and Gender examines state perpetrated violence against women in all its various forms Drawing on case studies from around the world patterns of state perpetrated violence are examined as it relates to women s victimization their role as perpetrators resistors of state violence as well as their engagement as professionals in the international criminal justice system From the direct involvement of Condaleeza Rice in the United States led war on terror to the women of Egypt s Arab Spring Uprising to Afghani poetry as a means to resist state sanctioned patriarchal control case examples are used to highlight the pervasive and enduring problem of state perpetrated violence against women The exploration of topics that have not previously been addressed in the criminological literature such as women as perpetrators of state violence and their role as willing consumers who reinforce and replicate the existing state sanctioned patriarchal status quo makes State Crime Women and Gender a must read for students and scholars engaged in the study of state crime victimology and feminist criminology Transforming Addiction Lorraine Greaves,Nancy Poole,Ellexis Boyle,2015-04-10 Choice Highly Recommended Read Addiction is a complex problem that requires more nuanced responses Transforming Addiction advances addictions research and treatment by promoting transdisciplinary collaboration the integration of sex and gender and issues of trauma and mental health The authors

demonstrate these shifts and offer a range of tools methods and strategies for responding to the complex factors and forces that produce and shape addiction In addition to providing practical examples of innovation from a range of perspectives the contributors demonstrate how addiction spans biological social environmental and economic realms Transforming Addiction is a call to action and represents some of the most provocative ways of thinking about addiction research treatment and policy in the contemporary era

Gender in Media Discourse Umar Ahmed ,2019 The study investigates how language is used to construct reconstruct and deconstruct gender in opinion articles in Nigerian newspapers Drawing on tools and techniques of analysis from critical discourse analysis corpus linguistics systemic functional grammar and cognitive linguistics the author analyses the many complex and subtle ways in which gender is conceptualized and represented in the newspapers He shows how the use of some linguistic features and discursive practices contributes to the re construction of certain gender identities roles and power relations between men and women in society The book contributes to research on language and gender from a non western perspective
