Derailed What Went Wrong And What To Do About Americas Passenger Trains:

Derailed Joseph Vranich, 1997-10-15 America needs train service It suffers from crowded highways and airports making travel nearly intolerable Amtrak's future is bleak and Congress is demanding that Amtrak be profitable by the turn of the century or shut down Joseph Vranich who worked to create Amtrak now nearly three decades later declares it a failed experiment Free of his ties to the rail industry today he candidly reviews Amtrak's troubled history its loss of market share and its ability to provide better and faster service Vranich reveals how Amtrak trains on most routes are not only slower than American trains were fifty years ago but are also slower than some trains found today in the Third World Vranich argues for passenger trains where and when they are needed He praises innovative commuter rail agencies high speed train planners and long distance land cruise trains run by independent organizations He also offers insights from other countries pointing the way to a successful rail system in the United States This is a blueprint to defederalize and liquidate Amtrak a bold and convincing call to kill a wasteful government system Vranich shows how to smartly dissolve Amtrak while keeping vital trains running in the twenty first century

Rediscovering Republicanism John Nantz, 2021-10-19 When well designed institutions function properly people thrive Few institutions have been more ingeniously designed than the U S federal government via the Constitution in 1787 This auspicious beginning more than two centuries ago helps explain why the U S remains a magnet for opportunity seekers students entrepreneurs dissidents and persecuted believers Yet for decades now America's federal government has been underperforming Social Security and Medicare face looming insolvency The federal government's war on poverty has failed to end poverty and arguably made it worse In 2012 the United States Postal Service lost more money than the nation spent on the State Department and Amtrak has lost money every year since being created in 1971 How can an enduring institution so thoughtfully crafted now produce such poor results The federal government has grown so much because it serves a new and different vision American Progressivism American Progressives believed that democratically elected public minded federal politicians and employees could use federal programs to solve the nation's greatest problems in a way no other American institution could This idea justified the federal government's massive expansion today the federal government runs over 1 500 programs and employs over 5% of the U S workforce Yet federal results do not match Progressive expectations Three key problems windfall politics the government surcharge and complexity failure overlooked by American Progressives explain the federal government's consistent failures American Progressive's rosy eyed view of human nature and political institutions have not been borne out by the evidence In an era of substantial political fermentation and debate rediscovering and re applying American Republicanism represents the best path forward for the United States The federal government

should retain many necessary responsibilities but turn over those where it has failed for social welfare federally provided services and retirement savings among others to the country's state governments civil society and individual citizens respectively

Trains for Nature Alfred Runte, 2025-02-04 Discover how America's abandoned passenger trains hold the key to preserving our nation's scenic treasures and wilderness landscapes In this timely and provocative work renowned environmental historian Alfred Runte challenges our blind embrace of highways and airports revealing how the decline of passenger rail has scarred America's legendary landscapes From national parks to urban corridors Runte demonstrates how modern transportation choices are destroying the very vistas we claim to cherish Drawing on decades of research and his experience as advisor to Ken Burns's acclaimed National Parks documentary series Runte offers a compelling vision for reuniting transportation with conservation Reveals how European nations successfully preserved their scenic landscapes through rail transportation Explores the hidden environmental costs of abandoning America's passenger rail system Demonstrates how restoring rail service could protect wilderness areas from destructive development Challenges conventional wisdom about progress in transportation policy This expanded edition featuring a new preface and epilogue arrives at a critical moment as wind farms and solar installations threaten even protected wilderness areas For anyone concerned about preserving America's natural heritage while addressing climate change this passionate appeal for the return of passenger rail offers hope for a more sustainable and beautiful future

Final Draft David Carr, 2020 A career spanning selection of the legendary reporter David Carr's writing for the New York Times Washington City Paper New York Magazine the Atlantic and more Throughout his 25 year journalistic career David Carr was noted for his sharp and fearless observations his uncanny sense of fairness and justice and his remarkable compassion and wit His writing was informed both by his own hardships as an addict and his intense love of the journalist's craft His range from media politics to national politics from rock n roll celebrities to the unknown civil servants who make our daily lives function was broad and often timeless Whether he was breaking exclusives about Amazon or mourning Philip Seymour Hoffman's death or taking aim at editors who valued political trivia over substance Carr's voice and concerns remain enormously influential and relevant In these hundred or so articles from a range of publications we read his stories with fresh eyes Edited by his widow Jill Rooney Carr and with an introduction written by one of the many journalists David Carr mentored and promoted Ta Nehisi Coates Final Draft is a singular event in the world of writing news an art increasingly endangered in these troubled times

Handbook of Transportation Policy and Administration Jeremy Plant, 2007-02-22 In the past few decades the field of transportation has changed dramatically Deregulation and greater reliance on markets and the private sector has helped to reconfigure the transport industries while the rise of intermodal goods and global commerce has produced efficiencies of operation and a greater interdependence among transport modes In a

s infrastructure its essential roads bridges ports airports power grids and telecommunications systems were once the pride of the nation and an example for the world But now after years of neglect and oversight this infrastructure is crumbling and causing catastrophic changes in the US quality of life Build seeks to explain how American infrastructure collapsed and what can be done to repair it In a series of colorful rarely told cases Build takes readers on a revealing tour behind the scenes of the successes and debacles of key infrastructure projects to show what works why the United States has failed in recent decades to invest in infrastructure and how the private sector can help revitalize the sector spur job growth and contribute to climate resilience Sadek Wahba examines the private origins of US infrastructure and the federally funded megaprojects that came after the New Deal investigating the role the private sector can and should play in building infrastructure By drawing comparisons with systems in the United Kingdom France India and China Wahba shows that while privatization and public private partnerships cannot solve all infrastructure challenges they are essential for closing funding gaps overcoming political paralysis and driving major infrastructure advances Build will appeal to readers interested in public finance domestic policy the role of the federal government tax policy and urban affairs **Congressional Record** United States.
