Derrida On The Mend Derrida On The Mend

LL Leslie

Derrida On The Mend Derrida On The Mend:

Derrida on the Mend Robert Magliola, 1984 Magliola's exposition of Derrida has been acclaimed as the best in English. Indeed it is the only account I know which brings an alert and independent questioning mind to bear on Derrida's arguments, a mind which at times seems to play Kierkegaard into Derrida's Hegel. *Japanese Journal of Religious Studies* Philosophy

Derrida on the Mend Robert R. Magliola, 1984 *Angels of Desire* Jay Johnston, 2016-04-08 The idea that the human body consists of subtle bodies, psycho-spiritual essences, can be found in a variety of esoteric traditions. This radical form of selfhood challenges the dualisms at the heart of Western discourse: mind/body, divine/human, matter/spirit, reason/emotion. In other words, *Angels of Desire* explores the aesthetics and ethics of subtle bodies. What emerges is an understanding of embodiment not exclusively tied to materiality. The book examines the use of subtle bodies across a range of traditions: yogic, tantric, theosophical, hermetic, and Sufi. *Angels of Desire* shows the relevance of the subtle body for religion, philosophy, art, history, and contemporary feminist religious studies and theories of desire. *Seeing the World and Knowing God* Paul S. Fiddes, 2013-07-25 This creates a Christian theology of wisdom for the present day in discussion with two sets of conversation partners: The writers of the wisdom literature in ancient Israel and the Jewish community in Alexandria, and the philosophers and thinkers of the late modern age among them Derrida, Levinas, Kristeva, Ricoeur, and Arendt. **The Resonance of Emptiness** Gay Watson, 2001 This book presents an exploration of Buddhist philosophy and practice as a potential resource for an approach to psychotherapy which is responsive to the needs of its time and context and attempts to open up a three-way dialogue between Buddhism, psychotherapy, and contemporary discourse to reveal a meaningful theory and practice for a contemporary psychotherapy. This book raises the question of what it is in Buddhism itself that provides such a rich resource for psychotherapy. Gay Watson firmly places her exploration of these themes within the context of contemporary life and thought as a response to the pathologies, physical and intellectual, of our time. Organized according to the traditional Tibetan plan of Ground, Path, and Fruition, the book first presents a brief survey of Western psychotherapies followed by an introduction to Buddhist views with particular reference to those most relevant to psychotherapy. Path considers the two major branches of the Buddhist way: ethics and meditation in the context of contemporary life and psychotherapy. Fruition compares the goal of Buddhism and psychotherapy and subsequently explores the implications of adopting Buddhist influence in the light of contemporary discourse and of the experienced domains of body, speech, and mind. Finally, the lineaments of a contemporary Buddhist-inspired psychotherapy are suggested. The book will be of great interest to those concerned with the translation of Buddhism into contemporary life and also to students of psychotherapy and its expansion, particularly into spiritual and transpersonal dimensions. *Buddhisms and Deconstructions* Robert Magliola, 2006-03-20 *Buddhisms and Deconstructions* considers the connection between Buddhism and Derridean deconstruction, focusing on the work of Robert Magliola. Fourteen distinguished contributors discuss deconstruction and various Buddhisms: Indian, Tibetan,

and Chinese Chan followed by an afterword in which Magliola responds directly to his critics *Comparative Theories of Nonduality* Milton Scarborough, 2011-10-20 It is a commonplace that while Asia is nondualistic the West because of its uncritical reliance on Greek derived intellectual standards is dualistic Dualism is a deep seated habit of thinking and acting in all spheres of life through the prism of binary opposites leads to paralyzing practical and theoretical difficulties Asia can provide no assistance for the foreseeable future because the West finds Asian nondualism especially that of Mahayana Buddhism too alien and nihilistic On the other hand postmodern thought which purports to deliver us from the dualisms embedded in modernity turns out to be merely a pseudo postmodernism This book's novel idea is that the West already contains within one of its more marginalized roots that of ancient Hebrew culture a pre philosophical form of nondualism which makes possible a new form of nondualism one to which the West can subscribe This new nondualism inspired by Buddhism but not identical to it is an epistemological ontological metaphysical and praxical middle way both for the West and also between East and West

Utopia and Consciousness William S. Haney II, 2011-04-15 In his book *Archaeologies of the Future The Desire Called Utopia and Other Science Fictions* 2007 Fredric Jameson analyzes the multiple components of utopia and the possibility of achieving utopia in the near future As this book argues however human civilization will never achieve utopia unless humans reach a state of pure consciousness in which they will use their full mental potential and avoid making blunders in life that would undermine the possibility of a utopia This book develops a non teleological comparative poetics between Western and Sanskrit literary traditions by analyzing their opposing theories of language consciousness and meaning This comparison seeks to demonstrate the complementary nature of their two perspectives the objective conceptual emphasis of contemporary Western theory and the subjective experiential emphasis of Sanskrit poetics The potential contribution to the West of Indian culture in general and Sanskrit poetics in particular centers on the phenomenon of direct experience Without the direct experience of pure consciousness humans will not achieve a state of utopia because they will remain entangled in materialism without access to idealism or spiritualism available only through the direct experience of the unity of pure consciousness or the void of conceptions

The Wreath of Wild Olive Mihai Spărișu, 1997-04-24 Examines the concept of play in Western thought with special emphasis on the relationship between aesthetics and ethics and envisions literary discourse as contributing to an alternative mentality based on peace rather than power

Contemporary Continental Philosophy Stuart Sim, 2017-08-03 This title was first published in 2000 Contemporary continental philosophy is a widely used but in many ways a highly problematic term and its exact frame of reference is not always clear In its more recent French manifestations in particular it continues to arouse considerable controversy and create bitter divisions with particularly hostile reactions to the work of Derrida and others Much work in the recent continental tradition can be fitted into a longer running philosophical tradition of scepticism and scepticism has always had the power to provoke and unsettle the philosophical establishment Presenting an overview of the philosophical landscape of the continental tradition since the

1940s this book traces the establishment of the new super scepticism as an intellectual paradigm with the power to threaten and disorientate existing world views and more traditional styles of philosophical discourse marking the continental divide Exploring how contemporary continental philosophy from existentialism to postmodernism can be characterised as this new more resistant form of scepticism Sim identifies a clutch of key themes including difference the subject antifoundationalism dialectics which have been obsessively worked over by key thinkers in the Existentialist Postmodernist period and demonstrates how these have contributed to the development of a super sceptical outlook Presenting a new theme led approach to provide an entry into current debates in continental philosophy Stuart Sim reintegrates the work of Sartre into the more recent continental tradition and suggests that something qualitatively different is now occurring in French philosophy

A Passion for the Impossible Mark Dooley, 2012-02-01 Presenting the first systematic appraisal of the thought of John D Caputo one of America's most respected and controversial continental thinkers this book brings together internationally renowned philosophers theologians and cultural critics One highlight of the work is an interview with Jacques Derrida in which Derrida talks candidly about his reaction to Caputo's writings and spells out the implications for religion and the question of God after deconstruction Caputo responds to the concerns expressed by his interlocutors in the same humorous erudite and challenging spirit for which he is known The result is a lively and stimulating debate covering themes in the philosophy of religion deconstruction political philosophy feminism and hermeneutics as well as issues surrounding the work of Aquinas Nietzsche Kierkegaard Heidegger Foucault Derrida and Rorty

The Logic of the Living Present Anna-Teresa Tymieniecka, 2012-12-06 Some might ask Why Locke's theory of knowledge now Though appreciated for his social philosophy Locke has been criticized for his work in the field of epistemology ever since the publication of the Essay It is even as if Locke serves only as an example of how not to think When people criticize Locke they usually cite the hostile commentaries of Berkeley Kant Husserl or Sellars But one might ask are they not all so eager to show the excellence of their own epistemological views that they distort and underestimate Locke's thought Russell aptly noted in his History of Western Philosophy that No one has yet succeeded in inventing a philosophy at once credible and self consistent Locke aimed at credibility and achieved it at the expense of consistency Most of the great philosophers have done the opposite A philosophy which is not self consistent cannot be wholly true but a philosophy which is self consistent can very well be wholly false The most fruitful philosophies have contained glaring inconsistencies but for that very reason have been partially true There is no reason to suppose that a self consistent system contains more truth than one which like Locke's is obviously more or less wrong B Russell A History of Western Philosophy New York Simon and Schuster 1945 p 613 Here Russell is uncommonly charitable with Locke

Going beyond the Pairs Dennis McCort, 2001-06-21 In Going beyond the Pairs Dennis McCort examines the theme of the coincidentia oppositorum the tendency of a thing or relationship to turn under certain conditions into its own opposite as it is expressed in German Romanticism Zen Buddhism and deconstruction McCort argues that the

coincidentia can be useful for understanding and comparing a variety of cultural forms including systems of myth religions ancient and modern laws of social organization speculative philosophies East and West psychological theories and therapeutic practices and dynamic organizing principles of music art and literature The book touches on a variety of Western and Eastern writers and thinkers including Thomas Merton Jacques Derrida Nishida Kitaro Rainer Maria Rilke Franklin Merrell Wolff Franz Kafka Novalis Renzai Zen J D Salinger and the mysterious doughnut loving editor of the medieval Chinese koan collection Mumonkan

Phenomenology of Values and Valuing J.G. Hart, Lester Embree, 2013-04-17

Although a key aspect of the phenomenological movement is its contribution to value theory axiology and value perception almost all the major figures devoted a great part of their labors to these topics there has been relatively little attention paid to these themes This volume in part makes up for this lacuna by being the first anthology on value theory in the phenomenological movement It indicates the scope of the issues by discussing e g the distinctive acts of valuing openness to value the objectivity of values the summation and combination of values the deconstruction of values the value of absence and the value of nature It also contains discussions of most of the major representative figures not only in their own right but also in relationship to one another Von Ehrenfels Brentano Scheler Hartmann Husserl Heidegger Schutz and Derrida

The Origin and Significance of Zero, 2024-03-11 Winner of the 2024 Outstanding Academic Titles award in Choice a publishing unit of the Association of College religion philosophy arts and mathematics and conversely inhibited by the absence of or aversion to such a concept of Nothingness in the West But not all scholars agree Join the debate

Japan in Traditional and Postmodern Perspectives Charles Wei-hsun Fu, Steven Heine, Professor of Religious Studies and Director of Asian Studies Steven Heine, 1995-01-01 This book displays the uniqueness and creativity of Japan in terms of the interplay between traditional and postmodern perspectives It deals with the traditional elements in Japanese culture in the light of or in contrast to postmodernism

Reimagining Zen in a Secular Age André van der Braak, 2020-08-03 In Reimagining Zen in a Secular Age Andr van der Braak offers an account of the exciting but also problematic encounter between enchanted Japanese Zen Buddhism and secular Western modernity over the past century using Charles Taylor s magnum opus A Secular Age as an interpretative lens As the tenuous compromises of various forms of Zen modernism are breaking down today new imaginings of Zen are urgently needed that go beyond both a Romantic mystical Zen and a secular mindfulness Zen As a Zen scholar practitioner Andr van der Braak shows that the Zen philosophy of the 13th century Zen master D gen offers much resources for new hermeneutical embodied non instrumental and communal approaches to contemporary Zen theory and practice in the West

Chan Insights and Oversights Bernard Faure, 2020-09-01 For many people attracted to Eastern religions particularly Zen Buddhism Asia seems the source of all wisdom As Bernard Faure examines the study of Chan Zen from the standpoint of postmodern human sciences and literary criticism he challenges this inversion of traditional Orientalist discourse whether the Other is caricatured or idealized ethnocentric premises marginalize important parts of

Chan thought Questioning the assumptions of Easterners as well including those of the charismatic D T Suzuki Faure demonstrates how both West and East have come to overlook significant components of a complex and elusive tradition Throughout the book Faure reveals surprising hidden agendas in the modern enterprise of Chan studies and in Chan itself After describing how Jesuit missionaries brought Chan to the West he shows how the prejudices they engendered were influenced by the sectarian constraints of Sino Japanese discourse He then assesses structural hermeneutical and performative ways of looking at Chan analyzes the relationship of Chan and local religion and discusses Chan concepts of temporality language writing and the self Read alone or with its companion volume *The Rhetoric of Immediacy* this work offers a critical introduction not only to Chinese and Japanese Buddhism but also to theory in the human sciences

The Routledge Companion to the Study of Religion , *Beyond Babel: Religion and Linguistic Pluralism* Andrea Vestrucci, 2023-10-31 This volume is the first attempt to investigate explicitly how the multiplicity of religions and forms of spirituality interconnect with the pluralism of languages including scientific codes formal languages and artistic expressions In a journey beyond Babel the volume explores how religious and linguistic pluralisms enter into polyphonic relations how they co evolve and grow together and why they clash This text provides the setting for a dialogue on a rich variety of religious languages and traditions including Hinduism Judaism Islam Jainism and Christianity The chapters explore how these traditions can venture into new interreligious paths how sacred meanings translate into vernacular speeches how religious identities and scientific notions interacts what role emotional expressions play in interfaith encounters and the impact of Artificial Intelligence on beliefs The book is authored by esteemed senior scholars established researchers and exceptional junior doctorate holders whose expertise spans across religious studies the history of science philosophy fine arts theology linguistics computer science and legal studies This volume contributes to interfaith studies and teaching to sociology and philosophy of religion and to the history and anthropology of religion and the sacred arts It is intended to reach students researchers instructors and professionals alike
