Describing Morphosyntax Thomas E. Payne, 1997-10-09 Of the 6000 languages now spoken throughout the world around 3000 may become extinct during the next century This guide gives linguists the tools to describe them syntactically and grammatically for future reference Describing Morphosyntax: a Guide for Field Linguists Thomas E. Payne, 2013

**Describing Morphosyntax** Thomas E. Payne, 1997-10-09 This book is a guide for linguistic fieldworkers who wish to write a description of the morphology and syntax of one of the world's many underdocumented languages It offers readers who work through it one possible outline for a grammatical description with many questions designed to help them address the key topics Appendices offer guidance on text and elicited data and on sample reference grammars that readers might wish to consult This will be a valuable resource to anyone engaged in linguistic fieldwork **Describing Morphosyntax** Thomas Edward Payne, 1997 **Describing Morphosyntax** Thomas Edward Payne, 2006 *Handbook of Descriptive Linguistic Fieldwork* Shobhana L. Chelliah, Willem J. de Reuse, 2010-10-06 The Handbook of Descriptive Linguistic Fieldwork is the most comprehensive reference on linguistic fieldwork on the market bringing together all the reader needs to carry out successful linguistic fieldwork Based on the experiences of two veteran linguistic fieldworkers and advice from more than a twenty active fieldwork researchers this handbook provides an encyclopedic review of current publications on linguistic fieldwork and surveys past and present approaches and solutions to problems in the field and the historical political and social variables correlating with fieldwork in different areas of the world The discussion of the ethical dimensions of fieldwork as well as what constitutes the typical linguistic fieldwork setting or consultant is explored from multiple perspectives relevant to fieldwork on every continent Included is information omitted in most other texts on the subject such as the collection representation management and methods of extracting grammatical information from discourse and conversational data as well as the relationship between questionnaire based elicitation text based elicitation and philology and the need for combinations of these methods The book is useful before during and after linguistic field trips since it provides extensive practical macro and micro organization and planning fieldwork tips as well as a handy sketch of major typological features for use in linguistic analysis Comprehensive references are provided at the end of each chapter as resources relevant to the reader's particular interests The Bloomsbury Companion to Historical Linguistics Silvia Luraghi, Vit Bubenik, 2013-03-07 Originally published as the Continuum Companion to Historical Linguistics this book brings together a number of leading scholars who provide a combination of different approaches to current and new issues in historical linguistics while supplying an exhaustive and up to date coverage of sub fields traditionally regarded as central to historical linguistics research The editors aim to build a solid background for further discussion and to indicate directions for new research on relevant open questions The book includes coverage of key terms a list of resources and sections on history of research methodology phonology morphology grammatical categories syntax grammaticalization semantics etymology

language contact sociolinguistics causes of language change It is a complete resource for researchers working on historical linguistics      **Understanding Linguistic Fieldwork** Felicity Meakins,Jennifer Green,Myfany Turpin,2018-03-19

Understanding Linguistic Fieldwork offers a diverse and practical introduction to research methods used in field linguistics Designed to teach students how to collect quality linguistic data in an ethical and responsible manner the key features include A focus on fieldwork in countries and continents that have undergone colonial expansion including Australia the United States of America Canada South America and Africa A description of specialist methods used to conduct research on phonological grammatical and lexical description but also including methods for research on gesture and sign language acquisition language contact and the verbal arts Examples of resources that have resulted from collaborations with language communities and which both advance linguistic understanding and support language revitalisation work Annotated guidance on sources for further reading This book is essential reading for students studying modules relating to linguistic fieldwork or those looking to embark upon field research      [The Oxford Handbook of Language Contact](#) Anthony P. Grant,2020-01-10

Every language has been influenced in some way by other languages In many cases this influence is reflected in words which have been absorbed from other languages as the names for newer items or ideas such as perestroika manga or intifada from Russian Japanese and Arabic respectively In other cases the influence of other languages goes deeper and includes the addition of new sounds grammatical forms and idioms to the pre existing language For example English s structure has been shaped in such a way by the effects of Norse French Latin and Celtic though English is not alone in its openness to these influences Any features can potentially be transferred from one language to another if the sociolinguistic and structural circumstances allow for it Further new languages pidgins creoles and mixed languages can come into being as the result of language contact In thirty three chapters The Oxford Handbook of Language Contact examines the various forms of contact induced linguistic change and the levels of language which have provided instances of these influences In addition it provides accounts of how language contact has affected some twenty languages spoken and signed from all parts of the world

Chapters are written by experts and native speakers from years of research and fieldwork Ultimately this Handbook provides an authoritative account of the possibilities and products of contact induced linguistic change      **Cherokee Reference**

**Grammar** Brad Montgomery-Anderson,2015-09-08 The Cherokees have the oldest and best known Native American writing system in the United States Invented by Sequoyah and made public in 1821 it was rapidly adopted leading to nineteenth century Cherokee literacy rates as high as 90 percent This writing system the Cherokee syllabary is fully explained and used throughout this volume the first and only complete published grammar of the Cherokee language Although the Cherokee Reference Grammar focuses on the dialect spoken by the Cherokees in Oklahoma the Cherokee Nation and the United Keetoowah Band of Cherokee Indians it provides the grammatical foundation upon which all the dialects are based In his introduction author Brad Montgomery Anderson offers a brief account of Cherokee history and language revitalization

initiatives as well as instructions for using this grammar. The book then delves into an explanation of Cherokee pronunciation, orthography, parts of speech, and syntax. While the book is intended as a reference grammar for experienced scholars, Montgomery Anderson presents the information in accessible stages, moving from easier examples to more complex linguistic structures. Examples are taken from a variety of sources, including many from the Cherokee Phoenix. Audio clips of various text examples throughout can be found on the accompanying CDs. The volume also includes three appendices: a glossary keyed to the text, a typescript for the audio component, and a collection of literary texts, two traditional stories, and a historical account of a search party traveling up the Arkansas River. The Cherokee Nation, as the second largest tribe in the United States and the largest in Oklahoma, along with the United Keetoowah Band and the Eastern band of Cherokees, have a large number of people who speak their native language. Like other tribes, they have seen a sharp decline in the number of native speakers, particularly among the young, but they have responded with ambitious programs for preserving and revitalizing Cherokee culture and language. Cherokee Reference Grammar will serve as a vital resource in advancing these efforts to understand Cherokee history, language, and culture on their own terms. Prominence in Austronesian Bethwyn Evans, Åshild Næss, Jozina Vander Klok, 2024-01-29. The cognitive concept of prominence is increasingly seen as key to understanding the organisation of grammar. This volume explores the encoding of prominence in languages from across the Austronesian family. The contributions show how prominence is relevant to understanding asymmetries at different levels of grammatical structure, from discourse and information structure to argument expression and socio-pragmatics. Moreover, common themes across contributions point to crosslinguistic tendencies that underpin the conventionalisation of communicative patterns for coordinating interlocutors' attention and to points of departure for further crosslinguistic exploration of how grammatical asymmetries can be explained in terms of prominence. A Grammar of Papapana Ellen Smith-Dennis, 2021-01-18. This monograph is not only the first comprehensive grammar of Papapana, a previously undocumented and under-described endangered language, but the first full reference grammar of any Oceanic language of Bougainville, Papua New Guinea, despite this region displaying considerable linguistic innovation and language contact phenomena with numerous typologically significant features. This book describes Papapana on various levels, including phonology, morphology, and syntax in noun phrases and the verb complex, and syntax at the clause and sentence level. Throughout the grammar, the described phenomena are related to the current research on typological and Oceanic linguistics. Typologically unusual features of Papapana include multiple reduplication, inverse number marking in the noun phrase, and postverbal subject indexing. The book also describes the sociolinguistic and historical context within which Papapana is spoken and highlights linguistic changes resulting from language contact. The monograph fills an important gap in terms of grammatical descriptions of Bougainville Oceanic languages and makes a significant contribution to the field of Oceanic linguistics and to future comparative linguistic and typological research. Verbs, Clauses and Constructions Raquel Vea

Escaza, Pilar Guerrero Medina, 2018-11-22 This volume brings together a collection of twenty contributions which offer a diversity of methodological tools and analytical issues concerning the study of different aspects of the role of verbs clauses and constructions in a rich variety of languages such as Present Day English Old English Old Saxon French Spanish Arabic German Upper Sorbian Latvian Sino Tibetan and the Australian dialects Pitjantjatjara Yankunytjatjara and Ngaanyatjarra The use of empirical data and the wide range of languages are the two main challenges addressed here The book will serve to contribute to current literature on functional oriented linguistics incorporating linguistic typology and corpus based and contrastive perspectives The volume is divided into three main parts The first brings together eight contributions centrally related to the category of the verb both from a synchronic and diachronic perspective The second part consists of five chapters which revolve around the syntax and semantics of clauses Finally the seven essays in the third section explore different formal and functional aspects of the study of constructions in an assortment of languages Understanding Syntax, Third Edition Maggie Tallerman, 2013-09-05 Provides a complete introduction to the syntax of human language ideal for students with no prior knowledge of the subject **Relative Clauses in Cameroonian Languages** Gratien Gualbert Atindogbé, Rebecca Grollemund, 2017-09-11 This volume is a series of nine 9 contributions to our understanding of relativization strategies in eleven 11 languages of Cameroon spread into the seven 7 sub branches of the Niger Congo phylum Ekoid Mambiloid Mamfe Mbam Narrow Bantu Wide Grassfields Yemne Kimbi As a productive strategy in the world s languages and considering the evidence that the African language are either under described poorly described or not described at all investigations into the forms structures and functions of relative clauses and relativization start filling the gap of the absence of analytical descriptive works on the topic The papers dwell on the construction of relative clauses their structure and constraints their morphosyntactic properties how they are used to give prominence to topics or participants that are thematic in a given discourse and to mark the boundaries of units of text and the formal characteristics of restrictive relative clause constructions The findings generated so far constitute an endless tank for many fields of hyphenated linguistics including general linguistics cognitive linguist applied psycholinguistics psycholinguistics neurolinguistics cognitive psychology linguistics and pragmatics **Serial Verbs in Oceanic** Terry Crowley, 2002 Serial Verbs in Oceanic will interest typologists those concerned with Austronesian languages in particular and syntactic change in general as well as linguists interested in Austronesian language contact linguistic typology and syntactic change Nominalization in Asian Languages Foong Ha Yap, Karen Grunow-Hårsta, Janick Wrona, 2011-06-29 Research on nominalization a process that gives rise to referring expressions has always played a central role in linguistic investigations Over the years there has also been growing evidence that nominalization constructions often extend to non referential domains They participate in noun modifying expressions e g genitive and relative clauses subordinate clauses and topic constructions finite structures with the nominalizers reanalyzed as TAM markers and stance constructions with evaluative attitudinal evidential and epistemic

overtones This volume brings together historical and crosslinguistic evidence from more than 20 different languages representing six different language families spanning the Asian continent and the Pacific and Indian oceans to elucidate the strategies and grammaticalization pathways that give rise to both referential and non referential uses of nominalization constructions This collection highlights the diversity of strategies and at the same time the robust cyclical nature of change within and across languages The combined diachronic and typological analyses in this volume are particularly valuable for linguistic research on diachronic morphosyntax and linguistic universals and are also an important supplementary cross referencing tool for linguistic investigations of versatile and ubiquitous morphemes in under documented languages

*Evidential Systems of Tibetan Languages* Lauren Gawne, Nathan W. Hill, 2017-04-24 This edited volume brings together work on the evidential systems of Tibetan languages This includes diachronic research synchronic description of systems in individual Tibetan varieties and papers addressing broader theoretical or typological questions Evidentiality in Tibetan languages interacts with other features of modality interactional context and speaker knowledge states in ways that provide important perspectives for typologists and our general understanding of evidential systems This book provides the first sustained attempt to capture this complexity and diversity from both a synchronic and diachronic perspective **A**

**Grammar of Kurtöp** Gwendolyn Hyslop, 2017-02-06 A grammar of Kurt p is the first descriptive grammar of Kurt p a threatened language of Bhutan and the only reference grammar of any East Bodish language The East Bodish languages are a relatively unstudied branch of the larger Tibeto Burman family situated in Bhutan and neighbouring regions in Tibet and Arunachal Pradesh The chapters introduce the language and the people who speak in a historical context and then go on to detail the synchronic and diachronic phonology discuss word classes and clause structure morphosyntax and syntax and illustrate rich system of evidentiality and related categories The book will be of interest to Tibeto Burmanists historical linguists and those interested in the prehistory of the eastern Himalayas and to typologists **Diversity in African**

**languages** Doris L. Payne, Sara Pacchiarotti, Mokaya Bosire, 2016-12-31 Diversity in African Languages contains a selection of revised papers from the 46th Annual Conference on African Linguistics held at the University of Oregon Most chapters focus on single languages addressing diverse aspects of their phonology morphology semantics syntax information structure or historical development These chapters represent nine different genera Mande Gur Kwa Edoid Bantu Nilotic Gumuzic Cushitic and Omotic Other chapters investigate a mix of languages and families moving from typological issues to sociolinguistic and inter ethnic factors that affect language and accent switching Some chapters are primarily descriptive while others push forward the theoretical understanding of tone semantic problems discourse related structures and other linguistic systems The papers on Bantu languages reflect something of the internal richness and continued fascination of the family for linguists as well as maturation of research on the family The distribution of other papers highlights the need for intensified research into all the language families of Africa including basic documentation in order to comprehend linguistic

diversities and convergences across the continent In this regard the chapter on Daats i in Gumuzic stands out as the first ever published article on this hitherto unknown and endangered language found in the Ethiopian Sudanese border lands
