Niagara Falls

There are many natural places all over the world. One of the places I have been to, and really enjoyed, is Niagara Falls. This place is absolutely amazing. It has amazing sights and scenes, as well as other fun tourist attractions. Going on the tour at Niagara Falls taught me a lot about the site. I love this place because everytime I go there I am sent to this place that I could find, it just takes me away I went to [Niagara Falls](#) when I was about 12. I stepped out of the car and just hearing the incredible sound of the Falls, I was taken. It was so loud, just a huge roar of all the water going over the edge. It surprised me because I didn't think it would be that loud. It only got louder and louder as I got to the rail by the edge of the fall. Seeing the view of the falls took my breath away. Between the blue of the flowing river water, the white of the rough water falling over the side, and the mist of the water splattering off the rocks at the bottom of the waterfall, I was taken by its glory. Add on the view of the city too and it was just an amazing experience for me. When I went on the tour I was told a lot of facts that I found very interesting. For example, on the American side it is 1060 feet long and 176 feet tall. It would be about 70 feet, but on account of the rocks at the base it is 176 feet. Also, the American side has a volume of about 150,000 US Gallons. Being as young as I was, I was super impressed with these numbers. They told me that they are two hydroelectric plants in the area that change the volume of water that flows over. The volume depends on the time of year and the time of day. The heaviest flow is travel season, June, July, August, during the daytime. I found it incredible that these plants could change the flow of water of something as grand as Niagara Falls. There are so many other things to do in the Niagara Falls area other than just going to the railing to see the Falls. You can go on tours, whether it's the daytime tours or the nighttime tours. During the night tours the Falls are lit with lights that were placed behind the waterfalls. The lights are all different colors and it is beautiful. During the daytime tours it is just looking at the falls but it is
