Design And Feminism Re Visioning Spaces Places And Everyday Things:

Design and Feminism Joan Rothschild, Alethea Cheng, 1999 The distinction between the spaces considered public and private or work and home is becoming more blurred Our streets parks dwellings and tools are designed to a one size fits all standard and the responses of the design community to meet diverse needs have been mixed at best Design and Feminism offers feminist critiques of these inadequate design standards and suggest ideas projects and programs for change

Feminist Designer Alison Place, 2023-09-05 A bold and timely collection that brings feminist theory and critical thinking to life through vital approachable design methods and practices Feminist Designer brings together a constellation of voices and perspectives to examine the intersection of design and feminist theory For decades the feminist refrain within design has hinged on the representation and inclusion of women in the field This collection edited by Alison Place however is a call to move beyond this narrow application Feminist design is not just about who does design it is about how we do design and why Feminist frameworks for design activism are now more relevant than ever as they emphasize collaborative processes that aim to disrupt and dismantle power hierarchies while centering feminist ways of knowing and doing The first book in nearly three decades to address such practices in design Feminist Designer contains essays case studies and dialogues by 43 contributors from 16 different countries It engages a wide variety of design disciplines from graphic design to disability design to algorithmic design and explores key feminist themes such as power knowledge care plurality liberation and community Through diverse sometimes conflicting intersectional perspectives this book contributes new design methods informed by a multiplicity of feminisms that confront design s patriarchal origins while ushering in new pathways for making critical and meaningful change Contributors Jennifer Armbrust Dina Benbrahim Madeline Avram Blount Elizabeth Byrd Benedetta Crippa Alexandra Crosby Laura Devendorf Rachael Dietkus Ashley K Eberhart Griselda Flesler Aimi Hamraie Gaby Hernandez Alexis Hope Jeff Kasper Ellen Kellogg Aasawari Kulkarni Eden Laurin Una Lee Andrew Mallinson Claudia Marina Victor G Martinez Lauren Lee McCarthy Margaret Middleton Maryam Mustafa Becky Nasadowski Maya Ober Nina Paim Elizabeth Perez Heather Snyder Quinn Cami Rinc n Jenn Roberts Velvet A Johnson Ross In ah Shin Marie Louise Juul S ndergaard Ayako Takase Attia Taylor Rebecca Tegtmeier Aggie Toppins Ilaria Vanni Joana Varon Manon Vergerio Mandy Harris Williams Sarah Williams

Hypersexual City Nicole Kalms, 2017-03-31 Much of feminist architectural scholarship focuses on the enormous task of instating women s experience of space into spatial praxis Hypersexual City The Provocation of Soft Core Urbanism suggests this attention to women s invisibility in sociocultural space has overlooked the complex ways in which women already occupy space albeit mostly as an image or object to be consumed even purchased It examines the occupation of urban space through the mediated representation of women s hypersexualized bodies A complex transaction proliferates in the commercial urban space of cities this book seeks to address the cause and consequence of the increasing dominance of gendered representation It uses architectural case studies and analysis to make visible the sexual politics of

architecture and urbanism and in doing so reveal the ways that heterosexist culture shapes the spaces behaviour and relationships formed in neoliberal cities Hypersexual City announces how examining urbanism that operates through and is framed by sexual culture can demonstrate that architecture does not merely find itself adrift in the hypersexualized landscape of contemporary cities but is actively producing and contributing to the sexual regulation of urban life **Public and Situated Displays** K. O'Hara,M. Perry,E. Churchill,D. Russell,2013-03-09 Public and situated display technologies can have an important impact on individual and social behaviour and present us with particular interesting new design considerations and challenges While there is a growing body of research exploring these design considerations and social impact this work remains somewhat disparate making it difficult to assimilate in a coherent manner This book brings together the perspectives of key researchers in the area of public and situated display technology The chapters detail research representing the social technical and interactional aspects of public and situated display technologies The underlying concern common to these chapters is how these displays can be best designed for collaboration coordination community building and mobility Presenting them together allows the reader to examine everyday display activities within the context of emerging technological possibilities Design Activism Alastair Fuad-Luke,2013-06-17 Design academics and practitioners are facing a multiplicity of challenges in a dynamic complex world moving faster than the current design paradigm which is largely tied to the values and imperatives of commercial enterprise Current education and practice need to evolve to ensure that the discipline of design meets sustainability drivers and equips students teachers and professionals for the near future Design Activism reveals the power of design for positive social and environmental change design with a central activist role in the sustainability challenge Design activists seek to fu Understanding Cities Alexander R. Cuthbert,2011 Understanding Cities is richly textured complex and challenging It creates the vital link between urban design theory and praxis and opens the required methodological gateway to a new and unified field of urban design Using spatial political economy as his most important reference point Alexander Cuthbert both interrogates and challenges mainstream urban design and provides an alternative and viable comprehensive framework for a new synthesis He rejects the idea of yet another theory in urban design and chooses instead to construct the necessary intellectual and conceptual scaffolding for what he terms The New Urban Design Building both on Michel de Certeau s concept of heterology thinking about thinking and on the framework of his previous books Designing Cities and The Form of Cities Cuthbert uses his prior adopted framework history philosophy politics culture gender environment aesthetics typologies and pragmatics to create three integrated texts Overall the trilogy allows a new field of urban design to emerge Pre existing and new knowledge are integrated across all three volumes of which Understanding Cities is the culminating text **Louise Brigham and the Early History of Sustainable Furniture Design** Antoinette LaFarge,2019-10-24 During the Progressive Era a time when the field of design was dominated almost entirely by men a largely forgotten activist and teacher named Louise Brigham

became a pioneer of sustainable furniture design With her ingenious system for building inexpensive but sturdy box furniture out of recycled materials she aimed to bring good design to the urban working class As Antoinette LaFarge shows Brigham forged a singular career for herself that embraced working in the American and European settlement movements publishing a book of box furniture designs running carpentry workshops in New York and founding a company that offered some of the earliest ready to assemble furniture in the United States Her work was a resounding critique of capitalism s waste and an assertion of new values in design values that stand at the heart of today s open and green design movements **Ways of**

Residing in Transformation Sten Gromark,Mervi Ilmonen,Katrin Paadam,Eli Støa,2017-05-15 Profound transformations in residential practices are emerging in Europe as well as throughout the urban world They can be observed in the unfolding diversity of residential architecture and spatially restructured cities The complexity of urban and societal processes behind these changes requires new research approaches in order to fully grasp the significant changes in citizens lifestyles their residential preferences capacities and future opportunities for implementing resilient residential practices The international case studies in this book examine why ways of residing have changed as well as the meaning and the significance of the social economic political cultural and symbolic contexts The volume brings together an interdisciplinary range of perspectives to reflect specifically upon the dynamic exchange between evolving ways of residing and professional practices in the fields of architecture and design planning policy making facilities management property and market In doing so it provides a resourceful basis for further inquiries seeking an understanding of ways of residing in transformation as a reflection of diversifying residential cultures This book will offer insights of interest to academics policy makers and professionals as well as students of urban studies sociology architecture housing planning business and economics engineering and facilities management **Doing Women's History in Public** Heather Huyck,2020-04-05 A complete guide

The Politics of the Artificial Victor Margolin, 2018-01-11 Emerging from the world of commercial art and product styling design has now become completely integrated into human life Its marks are all around us from the chairs we sit on to the Web sites on our computer screens One of the pioneers of design studies and still one of its most distinguished practitioners Victor Margolin here offers a timely meditation on design and its study at the turn of the millennium and charts new directions for the future development of both fields Divided into sections on the practice and study of design the essays in The Politics of the Artificial cover such topics as design history design research design as a political tool sustainable design and the problems of design s relation to advanced technologies Margolin also examines the work of key practitioners such as the matrix designer Ken Isaacs Throughout the book Margolin demonstrates the underlying connections between the many ways of reflecting on and practicing design He argues for the creation of an international interdisciplinary field of design research and proposes a new ethical agenda for designers and researchers that encompasses the responsibility to users the problems of sustainability and the complicated questions of how to set boundaries for applying advanced technology to solve the problems of human life Opinionated and erudite Victor Margolin s The Politics of the

Artificial breaks fresh ground in its call for a new approach to design research and practice Designers engineers architects anthropologists sociologists and historians will all benefit from its insights "Women and the Material Culture of Needlework and Textiles, 1750-1950" Maureen Daly Goggin, 2017-07-05 Rejecting traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art Although scholars over the last twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art/craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and quilting this collection contributes to the ongoing scholarly redefinition of women's relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis

A Right to Housing Rachel Bratt, Michael Stone, Chester Hartman, 2006-02-15 How can we explain the persistent inability of the United States to meet the housing needs of a large portion of its people What can we do about the problem In this important new work leading progressive housing activists and thinkers examine the state of housing the housed and housing policy in the United States and then provide a comprehensive and detailed program for solving the problem under the goal of a Right to Housing

Architecture and Feminisms Hélène Frichot, Catharina Gabrielsson, Helen Runting, 2017-11-10 Set against the background of a general crisis that is environmental political and social this book examines a series of specific intersections between architecture and feminisms understood in the plural The collected essays and projects that make up the book follow transversal trajectories that criss cross between ecologies economies and technologies exploring specific cases and positions in relation to the themes of the archive control work and milieu This collective intellectual labour can be located amidst a worldwide depletion of material resources a hollowing out of political power and the degradation of constructed and natural environments Feminist positions suggest ways of ethically coping with a world that is becoming increasingly unstable and contested The many voices gathered here are united by the task of putting critical concepts and feminist design tools to use in order to offer experimental approaches to the creation of a more habitable world Drawing inspiration from the active archives of feminist precursors existing and reimagined and by way of a reengagement in the histories theories and projected futures of critical feminist projects the book presents a collection of twenty three essays and eight projects with the aim of taking stock of our current condition and reengaging in our precarious environment worlds

Feminist Technology Linda L. Layne, Sharra Louise Vostral, Kate Boyer, 2010

Recognizing the different needs desires of women acknowledging the multiplicity of feminist approaches this work offers a debate on existing emergent technologies that share the goal of improving women s lives **Redesigning The American Dream Revised And Updated** Dolores Hayden,2002-09-03 In a provocative critique of American housing patterns that perpetuate Victorian stereotypes of the home as woman s place and the city as man s world urban historian and architect Dolores Hayden tallies the personal and social costs that an architecture of gender creates for the two earner family the single parent family and single people She traces three models of home in historical perspective to document innovative alternatives for reconstructing neighborhoods **Because Technology Discriminates** Logan D. A. Williams,2023-03-31 Engineers designing technologies and systems produce problems when they do not account for existing biases in society Designers have a mandate to make technologies efficiently economically and ethically This textbook is written for both students and practicing designers engineers researchers or artists who want to create more ethical designs it aims to help readers understand how race is implicated in technology design Learning from historical and contemporary case studies of engineering and architecture projects will help readers see clearly the power of design decisions to either perpetuate or contest racism Chapter exercises will change engineers mental models to see the bias inherent to existing technological design By incorporating the knowledge and insights of community based experts into design projects readers will begin to practice anti racist leadership and counter expertise
