Design History Beyond the Canon Jennifer Kaufmann-Buhler, Victoria Rose Pass, Christopher

Wilson,2019-02-07 **Design History Beyond the Canon** subverts hierarchies of taste which have dominated traditional narratives of design history The book explores a diverse selection of objects spaces and media ranging from high design to mass produced and mass marketed objects as well as counter cultural and sub cultural material The authors research highlights the often marginalised role of gender and racial identity in the production and consumption of design the politics which underpins design practice and the role of designed objects as pathways of nostalgia and cultural memory While focused primarily on North American examples from the early 20th century onwards this collection also features essays examining European and Soviet design history as well as the influence of Asia and Africa on Western design practice The book is organised in three thematic sections Consumers Intermediaries and Designers The first section analyses a range of designed objects and spaces through the experiences and perspectives of users The second section considers intermediaries from both technology and cultural industries as well as the hidden labour within the design process itself The final section focuses on designers from multiple design disciplines including high fashion industrial design interior design graphic design and design history pedagogy The essays in all three sections utilise different research methods and a wide range of theoretical approaches including feminist theory critical race theory spatial theory material culture studies science and technology studies and art history **Design History Beyond the Canon** brings together the most recent research which stretches beyond the traditional canon and looks to interdisciplinary methodologies to better understand the practice and consumption of design

Thinking through Graphic Design History Aggie Toppins,2025-01-23 Graphic design has a paradoxical relationship to history While it claims to promote originality and innovation ideas that emphasize the new and unique design practice is deeply embedded in previous ideals Too often design students encounter the past in brief visual impressions which seduce them to imitate form rather than engage with historical contexts Even though it has claimed to be objective and even comprehensive graphic design history has focused largely on individual careers and Eurocentric achievements Yet the past swells with untapped potential Graphic design history can serve the field of today and tomorrow but its narratives require updates History like design is always changing and like design history is driven by present day questions This book shows how students and practicing designers can enrich their work by thinking historically about design With thoughtful analyses stimulating creative prompts inspiring case studies and perspectives from designers all over the world this book challenges our traditional understanding of graphic design history and the very notion of the design canon offering ways to shape socially engaged critical practices

The Routledge Companion to Design Studies Penny Sparke,Fiona Fisher,2016-06-17 Since the 1990s in response to dramatic transformations in the worlds of technology and the economy design a once relatively definable discipline complete with a set of sub disciplines has become unrecognizable Consequently design scholars have begun to address new issues themes and sub disciplines such as sustainable design design for well being empathic design design activism design anthropology and many more The Routledge Companion to

Design Studies charts this new expanded spectrum and embraces the wide range of scholarship relating to design theoretical practice related and historical that has emerged over the last four decades Comprised of forty three newly commissioned essays the Companion is organized into the following six sections Defining Design Discipline Process Defining Design Objects Spaces Designing Identities Gender Sexuality Age Nation Designing Society Empathy Responsibility Consumption the Everyday Design and Politics Activism Intervention Regulation Designing the World Globalization Transnationalism Translation Contributors include both established and emerging scholars and the essays offer an international scope covering work emanating from and relating to design in the United Kingdom mainland Europe North America Asia Australasia and Africa This comprehensive collection makes an original and significant contribution to the field of Design Studies

A Companion to Contemporary Design since 1945 Anne Massey,2019-04-22 A critical overview of contemporary design and its place within the broader context of art history A Companion to Contemporary Design since 1945 introduces readers to a collection of specially commissioned essays exploring the complex areas of design that emerged through the latter half of the twentieth century design history design methods design studies and more recently design thinking The book delivers a thoughtful overview of all design disciplines and also strives to stimulate inter disciplinary debate and examine unconsidered convergences among design applications in different fields By offering a new perspective on design the articles assembled here present a challenging account of the boundaries between design history and its cognate disciplines especially art history The volume comprises five sections Time Place Space Objects and Audiences that discuss environments for design and how we interact with designed objects and spaces Notable features include 24 new essays reflecting the current state of design history and theory and examining developments on a global basis Contributions by eminent scholars and practitioners from around the globe Enriched throughout with illustrations A Companion to Contemporary Design since 1945 provides a new and thought provoking revision of our conception and understanding of contemporary design that will be essential reading for students at both undergraduate and graduate levels as well as researchers and teachers working in design history theory and practice and in related fields

Designing Worlds Kjetil Fallan,Grace Lees-Maffei,2016-06-01 From consumer products to architecture to advertising to digital technology design is an undeniably global phenomenon Yet despite their professed transnational perspective historical studies of design have all too often succumbed to a bias toward Western industrialized nations This diverse but rigorously curated collection recalibrates our understanding of design history reassessing regional and national cultures while situating them within an international context Here contributors from five continents offer nuanced studies that range from South Africa to the Czech Republic all the while sensitive to the complexities of local variation and the role of nation states in identity construction

Constructions of Media Authorship Christiane Heibach,Angela Krewani,Irene Schütze,2020-11-23 The author is dead

long live the author This paradox has shaped discussions on authorship since at least the 1960s when the dominant notion of the individual author genius was first critically questioned The ongoing discussion has mainly focused on literature and the arts but has ignored nearly any artistic practice beyond these two fields *Constructions of Media Authorship* aims to fill this gap the volume s interdisciplinary contributions reflect historical and current artistic practices within various media and attempt to grasp them from different perspectives The first part sheds a new light on different artistic and design practices and questions the still dominant view on the individual identifiable author The second part discusses creative practices in literature emphasizing the interrelation of aesthetic discourses and media practices The third part investigates authoring in audiovisual media especially film and TV while the final part turns to electronic and digital media and their collective creativity and hybrid mediality The volume is also an attempt to develop new methodological approaches focusing on the interplay between various human and non human actors in different media constellations Hot metal Jesse Adams

Stein,2017-02-01 The world of work is tightly entwined with the world of things *Hot metal* illuminates connections between design material culture and labour between the 1960s and the 1980s when the traditional crafts of hot metal typesetting and letterpress were finally made obsolete with the introduction of computerised technologies This multidisciplinary history provides an evocative rendering of design culture by exploring an intriguing case a doggedly traditional Government Printing Office in Australia It explores the struggles experienced by printers as they engaged in technological retraining shortly before facing factory closure Topics explored include spatial memory within oral history gender labour tensions the rise of neoliberalism and the secret making of objects on the side This book will appeal to researchers in design and social history labour history material culture and gender studies It is an accessible richly argued text that will benefit students seeking to learn about the nature and erosion of blue collar work and the history of printing as a craft **The Look of the Past**

Ludmilla Jordanova,2012-09-27 How can we use visual and material culture to shed light on the past Ludmilla Jordanova offers a fascinating and thoughtful introduction to the role of images objects and buildings in the study of past times Through a combination of thematic chapters and essays on specific artefacts a building a piece of sculpture a photographic exhibition and a painted portrait she shows how to analyse the agency and visual intelligence of artists makers and craftsmen and make sense of changes in visual experience over time Generously illustrated and drawing on numerous examples of images and objects from 1600 to the present this is an essential guide to the skills that students need in order to describe analyse and contextualise visual evidence *The Look of the Past* will encourage readers to think afresh about how they like people in the past see and interpret the world around them **Designing Modern Norway** Kjetil Fallan,2016-09-19 *Designing Modern Norway* A History of Design Discourse is an intellectual history of design and its role in configuring the modern Norwegian nation state Rather than a conventional national design history survey that focuses on designers and objects this is an in depth study of the ideologies organizations strategies and politics that combined might be said to have designed the modern

nation's material and visual culture The book analyses main tropes and threads in the design discourse generated around key institutions such as museums organisations and magazines Beginning with how British and continental design reform ideas were mediated in Norway and merged with a nationalist sentiment in the late nineteenth century Designing Modern Norway traces the tireless and wide ranging work undertaken by enthusiastic and highly committed design professionals throughout the twentieth century to simultaneously modernise the nation by design and to nationalise modern design Bringing the discussion up towards the present the book concludes with an examination of how Norway's new found wealth has profoundly changed the production mediation and consumption of design Branding and Designing Disability Elizabeth

DePoy, Stephen Gilson, 2014-06-27 Over the past fifty years design and branding have become omnipotent in the market and have made their way to other domains as well Given their potential to divide humans into categories and label their worth and value design and branding can wield immense but currently unharnessed powers of social change Groups designed as devalued can be undesigned redesigned and rebranded to seamlessly and equivalently participate in community work and civic life This innovative book argues that disability as a concept and category is created reified and segregated through current design and branding that begs for creative change Transcending models of disability that locate it either as an embodied medical condition or as a socially constructed entity this book challenges the very existence and usefulness of the category itself Proposing and illustrating creative and responsible design DePoy and Gilson include thinking and action strategies that are useful and potent for undesigning redesigning and rebranding to meet the full range of human needs and to enhance full participation in local through global communities Divided into two parts the first section presents a critical examination of disability as a designed and branded phenomenon exploring what exactly is being designed and branded and how The second part investigates the redesign of disability and provides principles for redesign and rebranding illustrated with examples from high tech to place based sustainable strategies The book provides a unique and contemporary framework for thinking about disability as well as providing relevant design and branding guidance to designers and engineers interested in embodiment issues **The Digital Is Kid Stuff** Josef Nguyen, 2021-12-28 How popular debates about the so

called digital generation mediate anxieties about labor and life in twenty first century America The children are our future goes the adage a proclamation that simultaneously declares both anxiety as well as hope about youth as the next generation In *The Digital Is Kid Stuff* Josef Nguyen interrogates this ambivalence within discussions about today's digital generation and the future of creativity an ambivalence that toggles between the techno pessimism that warns against the harm to children of too much screen time and a techno utopianism that foresees these digital natives leading the way to innovation economic growth increased democratization and national prosperity Nguyen engages cultural histories of childhood youth and creativity through chapters that are each anchored to a particular digital media object or practice Nguyen narrates the developmental arc of a future creative laborer from a young kid playing the island fictions of Minecraft to an older child

learning do it yourself skills while reading Make magazine to a teenager posting selfies on Instagram to a young adult creative laborer imagining technological innovations using design fiction Focusing on the constructions and valorizations of creativity entrepreneurialism and technological savvy Nguyen argues that contemporary culture operates to assuage profound anxieties about and to defuse valid critiques of both emerging digital technologies and the precarity of employment for creative laborers in twenty first century neoliberal America

The Professionalization of Window Display in Britain, 1919-1939 Kerry Meakin, 2024-09-05 This book provides the first comprehensive history of window display as a practice and profession in Britain during the dynamic period of 1919 to 1939 In recent decades the disciplines of retail history business history design and cultural history have contributed to the study of department stores and other types of shops However these studies have only made passing references to window display and its role in retail society and culture Kerry Meakin investigates the conditions that enabled window display to become a professional practice during the interwar period exploring the shift in display styles developments within education and training and the international influence on methods and techniques Piecing together the evidence visual and written about people events organisations exhibitions and debates Meakin provides a critical examination of this vital period of design history highlighting major display designers and artists The book reveals the modernist aesthetic developments that influenced high street displays and how they introduced passers by to modern art movements

Design by IKEA Sara Kristoffersson, 2014-10-23 Sara Kristoffersson s compelling study provides the first sustained critical history of IKEA Kristoffersson argues that the company s commercial success has been founded on a neat alignment of the brand with a particular image of Swedish national identity one that is bound up with ideas of social democracy and egalitarianism and its material expression in a pared down functional design aesthetic Employing slogans such as Design for everyone and Democratic design IKEA signals a rejection of the stuffy the chintzy and the traditional in both design practices and social structures Drawing on original research in the IKEA company archive and interviews with IKEA personnel Design by IKEA traces IKEA s symbolic connection to Sweden through its design output and its promotional materials to examine how the company both promoted and profited from the concept of Scandinavian Design

Williamson, 2019-01-15 A history of design that is often overlooked until we need it Have you ever hit the big blue button to activate automatic doors Have you ever used an ergonomic kitchen tool Have you ever used curb cuts to roll a stroller across an intersection If you have then you've benefited from accessible design design for people with physical sensory and cognitive disabilities These ubiquitous touchstones of modern life were once anything but Disability advocates fought tirelessly to ensure that the needs of people with disabilities became a standard part of public design thinking That fight took many forms worldwide but in the United States it became a civil rights issue activists used design to make an argument about the place of people with disabilities in public life In the aftermath of World War II with injured veterans returning home and the polio epidemic reaching the Oval Office the needs of people with disabilities came forcibly into the public eye as they never had before The US became the first country to enact federal accessibility laws beginning with the Architectural Barriers Act in 1968 and continuing through the landmark Americans with Disabilities Act in 1990 bringing about a wholesale rethinking of our built environment This progression wasn't straightforward or easy Early legislation and design efforts were often haphazard or poorly implemented with decidedly mixed results Political resistance to accommodating the needs of people with disabilities was strong so too was resistance among architectural and industrial designers for whom accessible design wasn't real design Bess Williamson provides an extraordinary look at everyday design marrying accessibility with aesthetic to provide an insight into a world in which we are all active participants but often passive onlookers Richly detailed with stories of politics and innovation Williamson's Accessible America takes us through this important history showing how American ideas of individualism and rights came to shape the material world often with unexpected consequences
