Designing and Assessing Educational Objectives Robert J. Marzano, John S. Kendall, 2008-05-01 Educators across grade levels and content areas can apply the concepts of Marzano's New Taxonomy to turn standards into concrete objectives and assessments to measure student learning

Designing and Assessing Educational Objectives Robert J. Marzano, John S. Kendall, 2008-05-01 Marzano concisely and effectively shows how his three domains of learning and the New Taxonomy can be operationalized for teachers and administrators. This book integrates objectives, instructional approaches, and assessment options so that these critical aspects of teaching are aligned to promote student learning. James McMillan, Professor and Chair, Foundations of Education, Virginia Commonwealth University. A hands-on guide for applying the New Taxonomy to develop meaningful and targeted educational objectives and assessments. Translating mandated standards into concrete objectives and then creating appropriate tasks to assess student learning of those objectives can be a challenge for educators. This practical resource provides a step-by-step process that shows readers how to make designing educational objectives and creating appropriate assessment tasks a part of their day-to-day practice. Written as a stand-alone volume, *Designing and Assessing Educational Objectives* reviews the framework and basic principles of Marzano's New Taxonomy and illustrates how educators can utilize Marzano's model to assess student performance on a broad scale or for a specific unit of instruction or grading period. The book explores objectives and tasks for each of the six levels of mental processing: retrieval, comprehension, analysis, knowledge utilization, metacognition, and self-system thinking, and features Benchmark statements that provide a starting point for the process. Step-by-step models, helpful diagrams, and useful charts. Numerous detailed examples from multiple subject areas and grade levels. Application of the taxonomy's three domains of knowledge: information, mental procedures, and psychomotor procedures. Comprehensive and profound, this resource is essential for teachers, school and district administrators, curriculum directors, and assessment specialists seeking to apply standards to curriculum and instruction for measurable results.

Beyond CLIL Do Coyle, Oliver Meyer, 2021-07-15. If education is to prepare learners for lifelong learning, there needs to be a shift towards deeper learning: a focus on transferable knowledge and problem-solving skills alongside the development of a positive or growth mindset. In this book, a follow-up to CLIL, the authors review new developments in the understanding of the interface between language and learning and propose an original new pluriliteracies approach which refines and develops current thinking in CLIL. It aims to facilitate deeper learning through an explicit focus on disciplinary literacies, guiding learners towards textual fluency, encouraging successful communication across cultures and providing a key stepping stone towards becoming responsible global citizens. It both provides strong theoretical grounding and shows how to put that understanding into practice. Engaging and practical, this book will be invaluable to both academics and education practitioners and will enable conventional classrooms to be transformed into deeper learning ecologies.

Career Exploration and Development in Childhood Mark Watson, Mary McMahon, 2016-10-04. *Career Exploration and Development in Childhood* presents chapters from leading figures in the field of childhood career exploration and development. The first substantive edited collection of its kind, this book makes an important contribution to our understanding of children's career development. It provides cutting-edge theory, research and practice for understanding and fostering career exploration and development during childhood across a wide spectrum of international settings. Divided into five sections that reflect the authors' perspectives on critical aspects of children's career development, chapters include relevant research as well as the practical application of concepts, issues and strategies for career interventions with children. The book includes sequential sections on theory, research, contextual influences, assessment and the facilitation of career exploration and development. Perspectives from both developed and developing world contexts consider traditional approaches to career education as well as career development learning in childhood. The collaborations evident in the chapter authorship reflect the significant internationalisation of the field of child career development. The book synthesises key issues and presents innovative recommendations that will not only enhance our understanding of children's career development but will set the agenda for the future of the field. It will be of key interest to researchers, academics and postgraduate students in the fields of career development, career guidance, education, childhood, child development and counselling.

It's Time for a Change Matthew Lynch, 2012. China, Japan and South Korea understand that well-educated workers are crucial for survival in the competitive global economy. Thus they are placing

enormous emphasis on education ensuring that their students receive instruction not only foundational reading and math but are also taught to think creatively and solve problems Their youth are poised to take on and conquer the world The U S on the other hand is losing the battle School systems are using more money but have less to show for it Test results especially among the lower socioeconomic classes are dismal America has extraordinary natural resources a solid functioning democracy and excellent infrastructure but unless we can reform our educational system to produce students who are able to take advantage of new technologies and compete in the global economy we will cede our position as world leader Its Time for Change School Reform provides a no nonsense blueprint for reforming The U S
