## **Designing Connected Products Ux For The Consumer Internet Of Things:**

*Designing Connected Products* Claire Rowland, Elizabeth Goodman, Martin Charlier, Ann Light, Alfred Lui, 2015-05-18 Networked thermostats fitness monitors and door locks show that the Internet of Things can and will enable new ways for people to interact with the world around them But designing connected products for consumers brings new challenges beyond conventional software UI and interaction design This book provides experienced UX designers and technologists with a clear and practical roadmap for approaching consumer product strategy and design in this novel market By drawing on the best of current design practice and academic research *Designing Connected Products* delivers sound advice for working with cross device interactions and the complex ecosystems inherent in IoT technology *Designing Connected Products* Claire Rowland. Elizabeth Goodman. Martin Charlier. Ann Light. Alfred Lui, 2015 *Designing Smart Objects in Everyday Life* Marco C. Rozendaal, Betti Marenko, William Odom, 2021-07-15 The dramatic acceleration of digital technologies and their integration into physical products is transforming everyday objects Our domestic appliances furniture clothing are growing in intelligence Smart objects are increasingly capable of interacting with humans in a purposeful manner with intentionality This collection of essays descriptions of empirical work and design case studies brings together perspectives from interaction design the humanities science and technology studies and engineering to map explore and interrogate ways in which our relationships with everyday smart objects might expand and be re imagined By offering a critical assessment on the growing place of smart technology in everyday environments this book outlines a transdisciplinary research agenda for the future of smartness to help define envision and inspire future collaborative design practices These essays propose an understanding and design of smart objects that embrace their hybrid nature as shifting and blending tools agents machines or even creatures Authors argue that smart objects have the potential to enter into multiple kinds of relationships with humans and form complex human nonhuman ecologies that are both meaningful and empowering in the context of everyday life This book also shines a light on the hidden infrastructures behind the functioning of smart objects with stirring debates tackling questions of technology human values and economic and ecological impact Whether you are a design scholar design practitioner or design activist this book will inspire through offering theoretical insights design concepts and practical ways on how to engage in this research agenda for future smartness **Internet of Things and the Law** Guido Noto La Diega, 2022-10-14 Internet of Things and the Law Legal Strategies for Consumer Centric Smart Technologies is the most comprehensive and up to date analysis of the legal issues in the Internet of Things IoT For decades the decreasing importance of tangible wealth and power and the increasing significance of their disembodied counterparts has been the subject of much legal research For some time now legal scholars have grappled with how laws drafted for tangible property and predigital offline technologies can cope with dematerialisation digitalisation and the internet As dematerialisation continues this book aims to illuminate the opposite movement rematerialisation namely the return of data knowledge and

power within a physical smart world This development frames the book's central question: can the law steer rematerialisation in a human-centric and socially just direction To answer it, the book focuses on the IoT, the sociotechnological phenomenon that is primarily responsible for this shift After a thorough analysis of how existing laws can be interpreted to empower IoT end users, Noto La Diega leaves us with the fundamental question of what happens when the law fails us and concludes with a call for collective resistance against smart capitalism The Open Access version of this book is available at <http://www.taylorfrancis.com>
