De Blinde Vlek Van Nederland Reportages Over De Onderkant Van De Arbeidsmarkt:

Fear and Loathing Worldwide Robert Alexander, Christine Isager, 2018-07-26 For more than 40 years the radically subjective style of participatory journalism known as Gonzo has been inextricably associated with the American writer Hunter S Thompson Around the world however other journalists approach unconventional material in risky ways placing themselves in the middle of off beat stories and relate those accounts in the supercharged rhetoric of Gonzo In some cases Thompson's influence is apparent even explicit in others writers have crafted their journalistic provocations independently only later to have that work labelled Gonzo In either case Gonzo journalism has clearly become an international phenomenon In *Fear and Loathing Worldwide* scholars from fourteen countries discuss writers from Europe the Americas Africa and Australia whose work bears unmistakable traces of the mutant Gonzo gene In each chapter Gonzo emerges as a powerful but unstable signifier read and practiced with different accents and emphases in the various national cultural political and journalistic contexts in which it has erupted Whether immersed in the Dutch crack scene exploring the Polish version of Route 66 following the trail of the 2014 South African General Election or committing unspeakable acts on the bus to Turku the writers described in this volume are driven by the same fearless disdain for convention and profound commitment to rattling received opinion with which the outlaw journalist Thompson scorched his way into the American consciousness in the 1960s 70s and beyond

National Paradigms of Migration Research Dietrich Thränhardt, Michael Bommers, 2010 The varying traditions in the migration research of different countries are closely connected to the respective national political landscape and the way in which the respective national state views itself affirmative and positive or perhaps more self critical Seen side by side much emerges to be discussed and challenged that was previously beyond doubt The present volume introduces the reader to the traditions of migration research in twelve different countries the more traditional immigration countries of Canada and Australia four European countries with decades of experience United Kingdom Germany Austria Netherlands countries newer to immigration such as Italy Poland and Japan and finally the postcolonial countries of India Malaysia and Nigeria Through this comparative approach this volume presents a new approach to understanding the different research traditions The reader is confronted with the various ways in which emigrants are included or excluded from society thereby gaining an understanding of the existing intellectual discourses as well as learning to qualify them in the light of other solutions and traditions Because the approaches of the respective migration research tradition are not always the same the volume is attractive for a number of professionals Sociologists political scientists ethnologists economists and philosophers can join together to discuss the terms migration integration and their relationship to social structures This in turn challenges premises that previously were held to be a matter of course

Labour Relations in the Global Fast-Food Industry Tony Royle, Brian Towers, 2004-08-02 The fast food industry is one of the few industries that can be described as truly global not least in terms of employment which is estimated at around ten million people worldwide This

edited volume is the first of its kind providing an analysis of labour relations in this significant industry focusing on multinational corporations and large national companies in ten countries the USA Canada the UK the Netherlands Germany Australia New Zealand Singapore and Russia The extent to which multinational enterprises impose or adapt their employment practices in differing national industrial relations systems is analysed Results reveal that the global fast food industry is typified by trade union exclusion high labour turnover unskilled work paternalistic management regimes and work organization that allows little scope for developing workers participation in decision making let alone advocating widely accepted concepts of social justice and workers rights The North Carolina journal of international law and commercial regulation ,1996 Over grenzen Robert Kloosterman,1997 **The Dutch Welfare State from an International and Economic Perspective** ,1996 Outlines the social infrastructure in the Netherlands discusses the impact of the welfare state on Dutch competitiveness abroad and makes comparisons with seven other highly industrialized countries **Sinds Stella Braam ben ik een Grijze Wolf , De blinde vlek van Nederland** Stella Braam,1995 Journalistiek verslag van persoonlijke ervaringen als undercover met ongeschoolde onderbetaalde arbeid onder slechte arbeidsomstandigheden
