

2007 TEACHER APPRECIATION DAY SPEECH – BRIAN STUHLMAN

Good evening to you, ladies and gentlemen, scholars, parents, faculty, staff, teachers, instructors, professors, tutors, mentors, babysitters, counselors, Missourians, out-of-state-ans, and Dave Welch. It is my humble honor and distinct privilege to herald your attendance here tonight at this Missouri Scholars Academy Teacher Appreciation thing, and extend a welcome on behalf of the scholars...

Welcome to Nerd Camp! We associates with MSA have been calling MSA Nerd Camp for a long time. It may seem a rather harsh title considering the outstanding clientele we have here, but believe me, ladies and gentlemen, no better name exists to describe the goings-on of this place. For those not familiar with MSA, these 320 students this year are, indeed, representatives of the best young minds of the state...but they are also some of the classiest nerds you will ever meet...and that's a good thing...and I feel I can say this without offense, because I myself was a 1993 Nerd...er, Scholar.

It was 14 years ago this week that I decided, it was in my MSA major class, that I was inspired to become a teacher...inspired by a teacher just like you. I am teaching at the academy now, and can still see aspects of myself in some of these folks. These folks who, for example, balked the first time they were told they were in Nerd Camp...and then wrote down the joke in their pocket notebooks so they could use it later. But these students are class act human beings, and I know that your presence here means so much to them. It can sometimes feel like a big risk to acknowledge one's heroes, and I am very glad that you were able be here tonight to be acknowledged. Your presence speaks volumes of your commitment to teaching and the ultimate effect you may have had on at least one rising young mind.

I would like to be selfish for just a second and pay special attention to two people here...first, my own nominee for tonight...my mother Ellen. My mom went back to school after we four children were in school, and graduated from college a year before I did, with a slightly higher GPA, and now teaches middle school English in Palmyra. It's been said that, "Teachers teach more by what they are than by what they say," and my mother is a beautiful teacher of brilliance and light. With her tonight is the other woman who's taken it upon herself to help mold my mind, my wife Maryna, with whom I am celebrating two years of wedded bliss tonight.

Education Week Speech:

Consensus William Hayes, 2013-07-01 As we consider the current status of educational reform it is clear that the United States lacks a clear vision as to how to improve our schools In the recent past we have been able to gain support for ideas such as the need for special education programs free and reduced lunches pre school programs and equal educational opportunities for both boys and girls While programs such as these were possible because of a national consensus our challenge today is to agree on the way to move forward Although it is most obvious in our inability to act on No Child Left Behind the failure to define a common vision is true of many other issues in the field of education Without an agreed upon vision which includes the support of those working in our schools true reform will be extremely difficult The purpose of this book is to help the reader understand our differences and to suggest a way that we can reach a consensus on education reform

From A Nation at Risk to No Child Left Behind Maris Vinovskis, 2015-04-17 Distinguished historian and policy analyst Maris Vinovskis examines federal K 12 education policies beginning with the publication of A Nation at Risk and focusing on the National Education Goals America 2000 Goals 2000 and No Child Left Behind In addition to discussing key policy debates he also addresses the practical aspects of implementing and evaluating school and classroom reforms drawing on his unique experiences working in the Department of Education during both the George H W Bush and Bill Clinton administrations

The Make-or-Break Year Emily Krone Phillips, 2019-01-08 A Washington Post Bestseller An entirely fresh approach to ending the high school dropout crisis is revealed in this groundbreaking chronicle of unprecedented transformation in a city notorious for its failing schools In eighth grade Eric thought he was going places But by his second semester of freshman year at Hancock High his D s in Environmental Science and French plus an F in Mr Castillo s Honors Algebra class might have suggested otherwise Research shows that students with more than one semester F during their freshman year are very unlikely to graduate If Eric had attended Hancock or any number of Chicago s public high schools just a decade earlier chances are good he would have dropped out Instead Hancock s new way of responding to failing grades missed homework and other red flags made it possible for Eric to get back on track The Make or Break Year is the largely untold story of how a simple idea that reorganizing schools to get students through the treacherous transitions of freshman year greatly increases the odds of those students graduating changed the course of two Chicago high schools an entire school system and thousands of lives Marshaling groundbreaking research on the teenage brain peer relationships and academic performance journalist turned communications expert Emily Krone Phillips details the emergence of Freshman OnTrack a program cum movement that is translating knowledge into action and revolutionizing how teachers grade mete out discipline and provide social emotional and academic support to their students This vivid description of real change in a faulty system will captivate anyone who cares about improving our nation s schools it will inspire educators and families to reimagine their relationships with students like Eric and others whose stories affirm the pivotal nature of ninth grade for all

young people In a moment of relentless focus on what doesn't work in education and the public sphere Phillips's dramatic account examines what does

The War of My Generation David Kieran, 2015-08-04 Following the 9/11 attacks approximately four million Americans have turned eighteen each year and more than fifty million children have been born These members of the millennial and post millennial generation have come of age in a moment marked by increased anxiety about terrorism two protracted wars and policies that have raised questions about the United States's role abroad and at home Young people have not been shielded from the attacks or from the wars and policy debates that followed Instead they have been active participants as potential military recruits and organizers for social justice amid anti immigration policies as students in schools learning about the attacks or readers of young adult literature about wars The War of My Generation is the first essay collection to focus specifically on how the terrorist attacks and their aftermath have shaped these new generations of Americans Drawing from a variety of disciplines including anthropology sociology cultural studies and literary studies the essays cover a wide range of topics from graphic war images in the classroom to computer games designed to promote military recruitment to emails from parents in the combat zone The collection considers what cultural factors and products have shaped young people's experience of the 9/11 attacks the wars that have followed and their experiences as emerging citizen subjects in that moment Revealing how young people understand the War on Terror and how adults understand the way young people think The War of My Generation offers groundbreaking research on catastrophic events still fresh in our minds

[Policymaking under Adversity](#) Yehezkel Dror, 2017-09-29 This groundbreaking study systematically treats recent policymaking trends starting with a

reconsideration of salient theoretical issues of policymaking and its study and culminating with a survey of current policy related predicaments in various countries Dror proposes that the task for social science research is to uncover underlying causes of policymaking inadequacies Standard research methods Dror states have been unable to uncover the realities of important decisions made inside governments In order to gain an understanding of pressing predicaments he believes that policymakers need to examine the foundations of contemporary practices of present assumptions and that they need a multiplicity of approaches to policymaking After prescribing a set of requirements that policymaking must satisfy in order to adequately respond to challenges Dror posits several improvements needed in education and in policy decision making The book concludes with an extensive bibliography including numerous important German works not found in other English language studies This book supplements the earlier basic theory and models propounded in Dror s Public Policymaking Reexamined by dealing with current trends As a guide to public policy literature and related works it will be invaluable to students and practitioners

Troublemaker Chester E. Finn, Jr.,2008-02-04 Few people have been more involved in shaping postwar U S education reforms or dissented from some of them more effectively than Chester Finn Assistant secretary of education under Ronald Reagan and an aide to politicians as different as Richard Nixon and Daniel Moynihan Finn has also been a high school teacher an education professor a prolific and best selling writer a think tank analyst a nonprofit foundation president and both a Democrat and Republican This remarkably varied career has given him an extraordinary insider s view of every significant school reform movement of the past four decades from racial integration to No Child Left Behind In Troublemaker Finn has written a vivid history of postwar education reform that is also the personal story of one of the foremost players and mavericks in American education Finn tells how his experiences have shaped his changing views of the three major strands of postwar school reform standards driven choice driven and profession driven Of the three Finn now believes that a combination of choice and standards has the greatest potential but he favors this approach more on pragmatic than ideological grounds arguing that parents should be given more options at the same time that schools are allowed more

flexibility and held to higher performance norms He also explains why education reforms of all kinds are so difficult to implement and he draws valuable lessons from their frequent failure Clear eyed yet optimistic Finn ultimately gives grounds for hope that the best of today s bold initiatives from charter schools to technology to makeovers of school system governance are finally beginning to make a difference

Special Interest Terry M. Moe,2011-04-01 Why are America s public schools falling so short of the mark in educating the nation s children Why are they organized in ineffective ways that fly in the face of common sense to the point that it is virtually impossible to get even the worst teachers out of the classroom And why after more than a quarter century of costly education reform have the schools proven so resistant to change and so difficult to improve In this path breaking book Terry M Moe demonstrates that the answers to these questions have a great deal to do with teachers unions which are by far the most powerful forces in American education and use their power to promote their own special interests at the expense of what is best for kids Despite their importance the teachers unions have barely been studied Special Interest fills that gap with an extraordinary analysis that is at once brilliant and kaleidoscopic shedding new light on their historical rise to power the organizational foundations of that power the ways it is exercised in collective bargaining and politics and its vast consequences for American education The bottom line is simple but devastating as long as the teachers unions remain powerful the nation s schools will never be organized to provide kids with the most effective education possible Moe sees light at the end of the tunnel however due to two major transformations One is political the other technological and the combination is destined to weaken the unions considerably in the coming years loosening their special interest grip and opening up a new era in which America s schools can finally be organized in the best interests of children

Something in Common Robert Rothman,2011-10-01 Something in Common is the first book to provide a detailed look at the groundbreaking Common Core State Standards and their potential to transform American education This book tells the story of the unfolding political drama around the making of the Common Core State Standards for math and English language arts which were adopted by 43 states and the District of Columbia over a six month period in 2010 after decades of similar proposals had gone down in flames As a senior fellow at the major organization promoting the Common Core standards education writer Bob Rothman gives the reader a bird s eye view of this unfolding drama and brings the major players to life with lively anecdotes and behind the scenes details He describes the developments leading up to the historic agreement and compares them to earlier efforts He also explains the content of the standards in depth describes steps being taken to implement them and examines how the assessment consortia plan to measure student performance against the new standards The book is a must have reference work for researchers practitioners school leaders policy makers and others interested in contemporary education policy and reform

Lee Kuan Yew's Educational Legacy Oon Seng Tan,Ee Ling Low,David Hung,2017-03-06 The late Mr Lee Kuan Yew 1923 2015 laid the foundations for the creation of a first world education system in Singapore Like many other issues concerning the country his ideas for education were transported in a

red box which he took with him wherever he went even up to his last days Inside it was always something designed to help create a better life for all Singaporeans The editors of this volume were inspired by the idea of Mr Lee s red box and by the Founding Father s selfless drive to continuously improve the country he loved As such the book explores in detail Mr Lee s plans including chapters on Education The Man and His Ideas Foundational Pillars of Singapore s Education Education for Nationhood and Nation Building and 21st Century Readiness and Adaptability The chapters also include the authors visions no matter how great or small for the future of education in Singapore They explore how Mr Lee s educational policies resulted in a system that attracts the right and best candidates to become teachers that forms them into effective teachers specialists and leaders that ensures they and the education system are able to deliver the best possible learning for every child and that establishes a legacy that has allowed the education system to continue to move forward while tackling the challenges of its success From the little red box came the ideas that led to the country s meteoric rise Likewise the editors hope this book will lead to a brighter future in education

Editor & Publisher ,1927 The fourth estate An Education in Politics Jesse Rhodes,2012-05-01 Since the early 1990s the federal role in education exemplified by the controversial No Child Left Behind Act NCLB has expanded dramatically Yet states and localities have retained a central role in education policy leading to a growing struggle for control over the direction of the nation s schools In An Education in Politics Jesse H Rhodes explains the uneven development of federal involvement in education While supporters of expanded federal involvement enjoyed some success in bringing new ideas to the federal policy agenda Rhodes argues they also encountered stiff resistance from proponents of local control Built atop existing decentralized policies new federal reforms raised difficult questions about which level of government bore ultimate responsibility for improving schools Rhodes s argument focuses on the role played by civil rights activists business leaders and education experts in promoting the reforms that would be enacted with federal policies such as NCLB It also underscores the constraints on federal involvement imposed by existing education policies hostile interest groups and above all the nation s federal system Indeed the federal system which left specific policy formation and implementation to the states and localities repeatedly frustrated efforts to effect changes national reforms lost their force as policies passed through iterations at the state county and municipal levels Ironically state and local resistance only encouraged civil rights activists business leaders and their political allies to advocate even more stringent reforms that imposed heavier burdens on state and local governments Through it all the nation s education system made only incremental steps toward the goal of providing a quality education for every child

Progressive Reading Education in America Patrick Shannon,2017-06-14 Through firsthand accounts of classroom practices this new book ties 130 years of progressive education to social justice work Based on their commitments to the principle of the equal moral worth of all people progressive teachers have challenged the obstacles of schooling that prevent some people from participating as full partners in social life in and out of the classroom and have constructed classroom and social arrangements that enable all

to participate as peers in the decisions that influence their lives Progressive reading education has been and remains key to these ties commitments challenges and constructions The three goals in this book are to show that there are viable and worthy alternatives to the current version of doing school to provide evidence of how progressive teachers have accommodated expanding notions of social justice across time taking up issues of economic distribution of resources during the first half of the 20th century adding the cultural recognition of the civil rights of more groups during the second half and now grappling with political representation of groups and individuals as national boundaries become porous and to build coalitions around social justice work among advocates of differing but complementary theories and practices of literacy work In progressive classrooms from Harlem to Los Angeles and Milwaukee to Fairhope Alabama students have used reading in order to make sense of and sense in changing times working across economic cultural and political dimensions of social justice Over 100 teacher stories invite readers to join the struggle to continue the pursuit of a just democracy in America
