Leadership with a Conscience Robert Palestini, 2011-12-02 Leaders and aspiring leaders are constantly searching for role models who are successful in placing leadership theory into effective practice This book identifies ten such role models whose heroic leadership behavior is analyzed in order to reveal what particular abilities and skills made them successful and how those attributes can be applied to one's own leadership practice whether that be as a classroom teacher a principal or a superintendent of schools They are juxtaposed with ten leaders who were effective but certainly not heroic Dr Palestini points out that effective leaders have

been utilizing the same leadership behavior for centuries He uses this evidence to support the perennial and lasting impact of situational leadership theory which posits that no single way of leading works in all situations Rather appropriate leadership behavior depends on the circumstances at a given time For decades effective managers have been diagnosing the situation identifying the leadership style or behavior that will be most effective and then determining whether they can implement the required style The leadership behavior of ten heroic leaders ranging from Jane Addams to Warren Buffett and from Abraham Lincoln to Joe Paterno is examined in this book The lesson learned from these heroic leaders being that if one wishes to hone one s current leadership skills or become a future leader one can learn to do so by reflectively looking to those who have established themselves in history as both effective and heroic leaders that is leaders who lead with both mind and conscience

No Laughing Matter Robert Palestini,2012-10-18 Educators are not alone in perennially seeking the best leadership practices and applying them to their own leadership behavior What constitutes effective leadership seems to be on the minds of people everywhere Recently there has been some seminal work done with regard to

the role of humor in leadership effectiveness Several contemporary empirical studies corroborate some earlier research that closely linked effective leadership to whether the leader possesses a well developed sense of humor In light of this connection between possessing a keen sense of humor and leadership effectiveness this book profiles the leadership behavior of ten proven leaders from many walks of life whose leadership style included a highly developed sense of humor The idea of course would be to look at the overall leadership behavior of these individuals but focus especially on their symbolic frame leadership behavior in the form of humor to determine how their behavior can inform our own particular leadership style

It was Edmund Burke the British Statesman and philosopher who said that those who don't know history are destined to repeat it. In this book at least as far as educational leadership is concerned Robert Palestini helps ensure that we do not fall into the trap of ignoring history. Dr Palestini rightly points out that effective leaders have been utilizing the same leadership behavior for centuries. He uses this evidence to support the perennial and lasting impact of situational leadership theory which posits that no single way of leading works in all situations. Rather appropriate leadership behavior depends on the circumstances at a given time. For centuries effective managers have been diagnosing the situation identifying the leadership style or behavior that will be most effective and then determining whether they can implement the required style. At the turn of the last century the editors of Life Magazine identified the 100 leaders who they believed had the most impact of the global society during the second millennium. Using this list as a backdrop Palestini chose ten of the twentieth century individuals on the list to explore what it was about their respective leadership behavior that allowed them to have such a significant and lasting impact on our society. When we examine the leadership behavior of the ten great leaders profiled in this book we will most certainly find that the most effective of them operated out of all five leadership frames the lesson learned being that if one wishes to hone one's current leadership skills or become a future leader one can learn to do so by reflectively looking to the leaders of the past.

A Game Plan for Effective Leadership Robert Palestini, 2008-07-17 This book uses the case study approach in order to facilitate placing theory into effective practice. Each chapter contains an extensive study on one of ten of the most successful basketball coaches of our times including Phil Jackson Bobby Knight Mike Krzyzewski Pat Riley Pat Summitt and Dean Smith. The book looks to see how these coaches were able to place leadership theory into effective practice.

Feminist Theory and Educational Leadership Robert Palestini, 2013-05-09 Who is an effective leader has been a question posed by scholars educators and practitioners of leadership for centuries. Historically leadership positions as well as research on leadership and effective leadership was primarily reserved for men or masculine characteristics. With most societies traditionally following a patriarchal hierarchy few people questioned inequalities in leadership attainment largely because of supernatural and or natural explanations of men's natural ability and desire to lead. This book runs counter to that culture and examines the experiences and leadership enactments of ten historically famous women leaders in hopes of gaining insight into their uniquely female leadership styles. The ten leaders include Catherine the Great Jane Addams Queen Victoria Marie Montessori Indira Gandhi Golda Meir Mother Teresa Margaret Thatcher Pat Summitt and Hillary Clinton. The idea of course is to reflect upon these great women's leadership styles in order to inform one's own leadership behavior.
