First Lensman E.E. "Doc" Smith, 2022-05-15 The enemy spacefleet arrowed toward the armored mountain nerve center of the Galactic Patrol The Patrol battle cruisers swerved to meet them and a miles long cone of pure energy ravened out at the invaders destroying whatever it touched But the moment before the force beam struck thousands of tiny objects dropped from the enemy fleet and faster than light flashed straight at their target each one an atom bomb powerful enough to destroy Patrol Headquarters by itself The Galactic Patrol and civilization itself had seconds to live Unless a miracle happened

First Lensman E. E. Smith, 2015-11-03 As has been said The Hill which had been built to be the Tellurian headquarters of the Triplanetary Service and which was now the headquarters of the half organized Solarian Patrol was and is a truncated alloy sheathed honey combed mountain But since human beings do not like to live eternally underground no matter how beautifully lighted or how carefully and comfortably

LARGE PRINT version of E.E. Doc Smith's classic space opera out there that I know of. Somewhere among the galaxies was the stronghold of Boskone, a network of brilliant interplanetary criminals whose mania for conquest threatened the future of all known civilization. But where Boskonian bases dotted the universe, shielded by gigantic thought screen generators that defied penetration. The best minds of the Galactic Patrol had tried. Now it was up to Lensman Kimball Kinnison to use his fantastic mental powers to infiltrate the Boskonian strongholds, learn the location of the enemy's Grand Base, and smash it forever.

Newly edited and fully annotated, this fresh edition of E.E. Doc Smith's classic has been lovingly formatted and printed on groundwood trade paperback paper in an effort to get the feel of the original experience reading the old Panther 1970s and earlier printings. The text has been carefully checked. This is a LARGE PRINT EDITION. **Galactic Patrol** E. E. Smith, 2017-09-30

Galactic Patrol introduces Kimball Kinnison, who will be the hero of the next four books. **Galactic Patrol** Gray Lensman, Second Stage Lensmen, and to a lesser extent *Children of the Lens*, Kinnison and Clarissa MacDougall are the penultimates of the human breeding program the Arisians set up many eons earlier. The book deals with the earliest stages of Kinnison's career, starting with his graduation as a Lensman from the Patrol's academy. Organized pirates known as Boskonians have gained a great advantage with a new type of space drive, making their ships far faster than anything the Patrol can build. That is, with the exception of one ship, the *Britannia*. New and experimental, built to be the fastest thing in space, she has abandoned the traditional ray armament of a space ship for an offensive weapon much older: explosive artillery fired at an opponent held in place by unbreakable tractor beams. Her mission is to capture a Boskonian ship of the new type, intact enough to get the secret of her speed, hence the artillery which the scientists of the patrol think can damage another ship enough to disable it without destroying the information they require. The experimental nature of her weapon means that she would be useless to a man experienced only in using the standard weapons of the time, so she is given to the inexperienced Kinnison to command. **Gray Lensman** Edward E. Smith, 2016-04-23

Gray Lensman, 4th adventure of the series. Somewhere among the galaxies was the stronghold of Boskone, a network of brilliant interplanetary criminals whose mania for conquest threatened the future of all known civilization. But where the Boskonian bases dotted the universe, shielded by gigantic thought screens that defied penetration. The best minds in the Galactic Patrol had tried. Now it was up to Lensman Kim Kinnison, using his fantastic mental powers to infiltrate the Boskonian strongholds and learn the location of the enemy's Grand Base. *First Lensman* E. E. Smith, 2018-04-21

No human being had ever landed on the hidden planet of Arisia. A mysterious barrier hanging unseen in space turned back all ships. Then the word came to Earth inexplicably but compellingly: GO TO ARISIA. Virgil Samms, founder of the Galactic Patrol, went and came back with the Lens, the strange device that gave its wearer powers no man had ever possessed before. Samms knew that the price of this power would be high. But even he had no idea of the ultimate cost nor of the strange destiny that awaited the First Lensman. *First Lensman* is the second self-contained novel in E.E. Doc Smith's epic Lensman series, one of the all-time classics of adventurous galaxy
