Eforensics And Investigations For Everyone:

Eforensics and Investigations for Everyone Eamon P. Doherty, Joel Liebesfeld, 2007-07-10 This book discusses a variety of topics such as cell phone seizure and examination electrical fire investigation potential vulnerabilities when using historic electrical devices interpersonal conduct in the Middle East Russia and the USA intellectual property theft spy cases and various motivations for crime in a manner that everyone can understand We also discuss various test equipment and software used for collecting evidence from both physical evidence and invisible radio frequency artifacts We also discuss electronic equipment that is used to destroy various documents as well as both human and automated processes used to reconstruct small shreds of paper We discuss real cases regarding document reconstruction such as the American Embassy in Iran and the recently discovered East German secret police Stasi shredded records We also discuss the Hanssen spying case using a PDA and low tech techniques such as the dead drop Lastly Jeff Marsh a brilliant man who became disabled due to an unfortunate accident demonstrates with the help of Dr Doherty various devices such as clocks and mustard jars with concealed purposes that may be used by undercover surveillance professionals or private investigators in a variety of settings once proper approval is given Jeff also discusses recreation and conversation as a means of exercising our intellect and informally learning from other people

Computing and Investigations for Everyone Eamon Doherty, G. Don Purdy, Joel & Todd Liebesfeld, 2008-09 This Everyone book attempts to guide the reader through the more essential steps of understanding the basic principles or elements that constitute the daily work of investigators in fields relating to computing and electrical loss The chapters are meant to set a foundation for people who may want to enter the field of investigations or are at the beginning of a career in the area or are seasoned investigators looking to delve into more contemporary areas of investigations or for persons that are just interested in reading about matters or topics that are currently revealed in differing forms of media such as in the successful TV drama series CSI The book is formatted sequentially so that the reader can review important legal matters that are a part of most investigations and then go on to peruse the elements of basic electrical principles as they apply to certain types of fire and fault losses These beginning chapters set a broad stage for the various areas of computing that follow The book does not necessarily have to be read in the order that it was written In a sense the reader may choose to use the book as a reference book The chapters were written for the most part to be able to stand alone as monographs There are many chapters that review a broad range of more common topics and there are chapters concerned with more esoteric areas of computing and electronics Some of these chapters discuss the high tech methods that are sometimes deployed by thieves terrorists pedophiles stalkers etc All of the co authors reflect their experience as individuals that work closely with the criminal justice and civil institutions

Eforensics and Signal Intelligence for Everyone Eamon P. Doherty, 2006-12-12 This book discusses the process of investigating and analyzing electronic equipment detecting devices wireless signals and the prosecution and prevention of high tech crime The coauthors

are from private industry and academia and really provide a wide variety of perspectives on the detection of electronic eavesdropping devices wiretaps various electronic signals and the collection and examination of information from laptops desktop computers and PDAs Kenneth Bruno does an excellent job teaching the reader about all the equipment used in electronic eavesdropping detection We also introduce the reader to various pieces of electronic equipment used to detect and identify explosives biochemical weapons as well as historic unexploded ordinance The reader is also introduced to the legal system by Mr Joel Liebesfeld who does corporate investigations and is often employed by clients who are in the legal profession or insurance industry Mr Joel Liebesfeld and Dr Doherty discuss the process of becoming an expert witness who may testify to what was found using scientific methods in combination with electronic signal detection or computer forensic equipment We hope that the readership of the book will include high school students considering a career in private industry law enforcement intelligence agencies or the military A background in electronics math and computer science is helpful but not necessary in reading this book Lockards Principle of Exchange specifies that two objects or people that come in contact with each other will change We hope that this book changes you by increasing your understanding of electronic devices investigation and the justice system

A New Look at Nagasaki, 1946 Eamon Doherty, 2008-10-20 This book takes both a historical and personal views of the atomic bombing of Nagasaki on August 9 1945 The historical view is provided by Dr Devine Joel Liebesfeld Todd Liebesfeld Esq and Prof Schuber The personal view is presented by Dr Doherty who discusses the account of Robert J Walsh a U S Army 34th Infantry soldier telephone lineman who was stationed near Nagasaki Robert took approximately 275 pictures for his photo album with a simple Kodak camera Many of the pictures are at ground zero and show the devastation of the atomic bomb as well as a marker for the epicenter Robert was also electrocuted on high voltage wires and fell off a telephone pole to the ground His back was broken in three places and he was put in a coma so that he would stay still and the back could be fused While in a coma Robert was lost in one of the nearby hospitals His mother received a telegram that he was lost His mother was completely beside herself and turned to Congressman Fred A Hartley Jr for help Congressman Hartley launched an investigation and found Robert in a hospital in Japan Robert was in a body cast for two years part of it in a coma but did not get a bed sore due to the results of a Japanese nurse named Snowball who invented a special medical instrument that she used with Robert Robert was brought back home and brought back to Walter Reed Hospital where doctors used innovative techniques to help him heal and walk again The book also ends with Robert as a senior citizen who lives a normal life leading a dance group at his retirement center
